Ursula Von Rydingsvard Patricia C. Phillips, 2011 Surveys recent works of Ursula von Rydingsvard's abstract sculptures often shaped from red cedar beams

Ursula Von Rydingsvard Ursula Von Rydingsvård, Mark Lawrence Rosenthal, 2018 Celebrated as one of the most influential sculptors working today Ursula von Rydingsvard is best known for her monumental works and signature use of cedar wood Her sculptures abstract shapes reference the mark of the human hand evidence of the artist's meticulous process of cutting shaping and assembling her works from thousands of cedar blocks while simultaneously evoking the grandeur and power of nature Guest curated by Mark Rosenthal Ursula von Rydingsvard The Contour of Feeling focuses on von Rydingsvard's artistic development since 2000 and her continued commitment to experimentation throughout her career Recent works and a selection of early sculptures will provide insight into the artist's longstanding material and thematic interests Featuring approximately 20 works over half of which are large scale the exhibition includes many sculptures never before exhibited in the United States The Contour of Feeling will also mark the debut of a new massive sculpture created in collaboration with The Fabric Workshop and Museum specifically for the exhibition Constructed from leather a first for the artist the piece's scale is in keeping with recent work while the new material represents an expansion for von Rydingsvard's practice It will mark the second collaboration between the artist and FWM the first being in 1989 when she created a new work from felt By spotlighting her more recent work and contrasting it with earlier pieces Ursula von Rydingsvard The Contour of Feeling highlights the artist's evolution and presents a window into a unique synthesis of emotional fragility and imposing scale in her work that marks von Rydingsvard as an extraordinary artist of our time Publisher's description

From Head to Hand David Levi Strauss, 2010-02-11 In his third book Strauss delves into the mysterious process whereby an idea is born in the mind and materialized through the hand in the expression of an artwork How exactly does this happen It's a question so basic an act so fundamental to art making that it has rarely received attention It makes an ideal topic for Strauss a writer with an exceptional ability to animate art's philosophical dimensions in a clear persuasive manner During this time when craft and the direct manipulation of materials by the artist appear to be in eclipse Strauss comes to their defense in a spirited *cri de coeur* Featuring over 35 illustrations the book examines a wide variety of media and individual examples It explores

the works of sculptors Martin Puryear Ursula von Rydingsvard and Donald Lipski painters Leon Golub and Ron Gorchov and writers Robert Duncan Robert Kelly Guy Davenport John Berger and Leo Steinberg In addition there are essays on Joseph Beuys's 7000 Oaks in Ireland contemporary Haida carvers Reg Davidson and Jim Hart Cecilia Vicuña's memory of the fingers and the influence of curators Harald Szeemann and Walter Hopps on the staging of contemporary art exhibitions Known primarily for his writings on photography and politics Strauss here focuses on the least mediated arts painting sculpture and writing His claims are supported by a series of close readings which succeed in recovering the immediacy of the hand and revitalizing contemporary art's connection to the past The Grove Encyclopedia of American Art Joan M.
