Pornography Rebecca Sullivan, Alan McKee, 2015-10-19 Written for a broad audience and grounded in cutting edge contemporary scholarship this volume addresses some of the key questions asked about pornography today What is it For whom is it produced What sorts of sexualities does it help produce Why should we study it and what should be the most urgent issues when we do What does it mean when we talk about pornography as violence What could it mean if we discussed pornography through frameworks of consent self determination and performance This book places the arguments from conservative and radical anti porn activists against the challenges coming from a new generation of feminist and queer porn performers and educators Combining sensitive and detailed discussion of case studies with careful attention to the voices of those working in pornography it provides scholars activists and those hoping to find new ways of understanding sexuality with the first overview of the histories and futures of pornography

Bodies of Work Rebecca Saunders, 2020-09-22 This book is a timely and innovative exploration of the vital relationship between sex and capitalism in the digital age It provides a lively provocative analysis of how specifically digital forms of capitalist accumulation and labour shape and discipline the contemporary sexual body Rebecca Saunders focuses on pornography in order to investigate the impact of digital forms of capitalism on contemporary sexuality and reveals the centrality of pornography to the digital attention economy affective economics the information economy the creative industries and neoliberalism Saunders uncovers a fundamental shift in the aesthetics and meaning of pornographic film from a genre concerned with representing sexual pleasure to one that has become focused on representing sex as labour Contemporary pornographic film is therefore read as a sign and symptom of how digital forms of capitalism regulate the twenty first century sexual body through digital interfaces and technologies Bodies of Work analyses major porn studios dominant streaming platforms significant directors and performers and queer and alternative pornographies and presents new and significant concepts such as sexual datafication the labour of visibility and interventionist pornography Discussing pornographic film sexuality digital culture labour and capitalism this book will be of interest to students and scholars across gender studies media and cultural studies digital humanities and economics

Intellectual Property Excesses Enrico Bonadio, Aislinn O'Connell, 2022-06-30 This collection of essays highlights the sometimes absurd outcomes which an unjustified overprotection of intellectual property IP may lead to It collects and comments on a series of IP disputes which have taken the notion of IP protection to extremes From individuals being sued for hundreds of thousands of dollars for sharing a playlist to sports spectators being arrested for wearing the wrong dresses passing through granting patents for inventions obtained by misappropriating traditional knowledge and trademark protection of merely descriptive signs this book brings together a broad range of examples from across the IP spectrum where protection and enforcement have been used or threatened on unreasonable and or untenable grounds The aim of the book is to criticise these excesses precisely because they harm IP and because they contribute to

creating an environment where more and more people are led to hate IP and view it as a protectionist regime which discourages creativity in innovation and ends up safeguarding the owners of monopolistic rights which restrict trade competition and people's freedom. This is not therefore a book against IP; it is instead a call for change and an attempt to save IP through critiquing its excesses and preventing such a fascinating area of law from continuing to be an easy target for criticism. The book includes a foreword by Jason Mazzone, Albert E. Jenner Jr. Professor of Law at the University of Illinois, USA.
