Juvenile Lifers Simone Deegan, 2021-02-14 This book is the first Australian study based on extensive fieldwork of the personal backgrounds and processes by which juveniles get drawn into risky and violent situations that culminate in murder Drawing on interviews with every juvenile under sanction of life imprisonment in the State of South Australia 2015-2019 it investigates links in the chain of events that led to the lethal violence that probably would have been broken had there been appropriate intervention Specifically the book asks whether the existing criminal justice frame is the appropriate way to deal with children who commit grave acts The extent to which prison facilitates and or inhibits the mental emotional and social development of juvenile lifers is a critical issue Most if not all will be released at some point with key issues of risk public protection and rehabilitation probability of desistance coming sharply to the fore In addition this book is also the first to capture how significant others including mothers fathers grandparents and siblings are affected when children kill and the level of commitment these relatives have towards supporting the prisoner in his or her quest to build a positive future Written in a clear and direct style this book will appeal to students and scholars of criminology sociology and penology practitioners working in social policy and all those interested in the lives and backgrounds of juvenile offenders

Nurturing Hidden Resilience in Troubled Youth Michael Ungar, 2004-01-01 Timely in subject and original in perspective Nurturing Hidden Resilience in Troubled Youth challenges what popular media refer to as a youth problem

The Challenge of Children's Rights for Canada, 2nd edition Katherine Covell, R. Brian Howe, J.C. Blokhuis, 2018-08-30 More

than a quarter of a century has passed since Canada promised to recognize and respect the rights of children under the United Nations Convention on the Rights of the Child. Ratification of the Convention cannot however guarantee that everyone will abandon proprietary notions about children or that all children will be free to enjoy the substance of their rights in every social and institutional context in which they find themselves including and perhaps especially within families. This disconnect remains one of the most important challenges to the recognition of children's rights in Canada. The authors argue that social toxins are as harmful to children's independent welfare and developmental interests as environmental toxins and that both must be eradicated if Canada is to fulfill its commitments under the Convention. They also argue that if Canada wishes to ensure the substance of the rights outlined in the Convention are socially guaranteed an attitudinal or cultural shift is required concerning the moral and legal status of children. This revised expanded and updated edition of the bestselling *Challenge of Children's Rights for Canada* will be of interest to academics policymakers parents teachers social workers and human service professionals indeed to anyone who cares about and for children.

Doing Ethnography Charlene Elizabeth Miall, Dorothy Pawluch, William Shaffir, 2005. *Doing Ethnography* is an essential text for courses in ethnography research methods qualitative emphasis applied sociology and related subjects across Canada. This unique volume first considers the merits of qualitative research profiles interviewing strategies and discusses the relationships to respondents and how to write about social life. The second portion of *Doing Ethnography* contains three sections constructing perspectives constructing identities as well as doing and relating. Case studies and original research are featured throughout. The editors Dorothy Pawluch William Shaffir and Charlene Miall emphasize the importance of studying social interaction. In truth any question about society big or small is ultimately about people interacting with each other. Whether the issue is changing gender relationships corporate deeds and misdeeds class structures or the school performance of children from cultural minorities it all comes down to one thing people doing things together.

Nasty, Brutish, and Short Mark Totten, 2012-03-27. An expert takes us inside the dark world of gangs in Canada. Dr Mark Totten has spent fifteen years learning all about these gangs and the young men and women who belong to them. He has interviewed over 500 gang members across the country traced their lives from infancy to adulthood and explored the roots of their involvement in crime and their reliance on violence. *Nasty Brutish and Short* offers a groundbreaking picture of the reality of gangs in Canada. Much of what Dr Totten has to say is at odds with popular ideas. His research leads him to believe that breaking through the circumstances that produce young criminals is far more difficult than most people think. For most individuals caught up in gang life exiting that world is next to impossible. In fact the most common way out is an early death from violence or suicide. This book opens the door on a way of life unknown to most Canadians.

Children, Families and Violence Brian Howe, Katherine Covell, 2008-09-15. This book examines the risk factors surrounding children at risk of experiencing and perpetrating violence and looks at the positive role that children's rights can play in their protection. The authors propose that violence in childhood

is not spontaneous that children are raised to become violent in poorly functioning families *Violence and Nonviolence*

Gregg Barak, 2003-02-24 Gregg Barak's *Violence and Nonviolence* is a thoughtful comprehensive examination of violence in the United States. Structurally and conceptually this book works. Barak addresses violence in an interdisciplinary way addressing history, psychology, biology, cultural studies, and sociology. Moreover, Barak does an excellent job of discussing the intersection of race, class, and gender and those relationships with violence. Heather Melton, University of Utah. Clearly the strength of this book is its comprehensive and reciprocal approach. I found this to be an enjoyable and provocative book that treats the topic holistically and offers a vision for overcoming current patterns of violence. I am convinced that this is an important work that will ultimately be well received by undergraduates, graduate students, violence specialists, and general readers. Mathew T. Lee, University of Akron. I think that the strengths of this book are twofold. Barak's approach disaggregates violence into interpersonal, institutional, and structural violence, which is very important yet rarely done. The latter part of the book explores the pathways to nonviolence, an underrepresented area in the study of violence. Charis Kubrin, Sociology, George Washington University. I have devoted close to 20 years studying and teaching about violence, and I must say that this is a comprehensive book. I strongly believe that Barak has done an outstanding review of the extant literature and touches upon key issues of central concern to those of us who are social scientific experts on violence. Walter DeKeseredy, Ohio University. *Violence and Nonviolence: Pathways to Understanding* is the first book to provide an integrative, systematic approach to the study of violence and nonviolence in one volume. Eminent scholar and award-winning author Gregg Barak examines virtually all forms of violence, from verbal abuse to genocide, and treats all of these expressions of violence as interpersonal, institutional, and structural occurrences. In the context of recovery and nonviolence, Barak addresses peace and conflict studies, legal rights, social justice, and various nonviolent movements. Employing an interdisciplinary framework, Barak emphasizes the importance of culture, media, sexuality, gender, and social structure in developing a comprehensive theory of these two separate but inseparable phenomena. This innovative and accessible volume includes figures, tables, and illustrations that reinforce important concepts and relationships. Introduces a new, original theory of reciprocal violence and nonviolence. Numerous case studies on violence and recovery throughout the book. Chapter summaries and review questions to aid student comprehension. Models of nonviolence such as mutuality, altruistic humanism, positive peacemaking, and resiliency. Designed to be a core text for graduate and undergraduate courses on violence in criminology, sociology, criminal justice, and social work departments. *Violence and Nonviolence* is also an outstanding supplementary text for violence against women and criminal behavior courses. This book will transform the way students and readers think about violence, nonviolence, and the reciprocal relationship between the two. **Myth of Evil**

Phillip Cole, 2006-06-12 A philosophical history of the concept of evil in western culture. Evil is something to be feared, and historically we shall see it is the enemy within who has been seen as representing the most intense evil of all: the enemy who looks just like us, talks like us, and is just like us. The

Myth of Evil explores a contradiction the belief that human beings cannot commit acts of pure evil that they cannot inflict harm for its own sake and the evidence that pure evil truly is a human capacity Acts of horror are committed not by inhuman monsters but by ordinary human beings This contradiction is clearest in the apparently extreme acts of war criminals terrorists serial murderers sex offenders and children who kill Phillip Cole delves deep into our two cosily established approaches to evil There is the traditional approach where evil is a force which creates monsters in human shape And there is the enlightened perspective where evil is the consequence of the actions of misguided or mentally deranged agents Cole rejects both approaches Satan may have played a role in its evolution but evil is really a myth we have created about ourselves And to understand it fully we must acknowledge this Drawing on the philosophical ideas of Nietzsche Arendt Kant Mary Midgley and others as well as theology psychoanalysis fictional representations and contemporary political events such as the global war on terror Cole presents an account of evil that is thorough and thought provoking and which more fundamentally compels us to reassess our understanding of human nature

Comparative Education, Terrorism and Human Security W. Nelles, 2003-12-18 Policy decisions in education have changed drastically as a result of the recent threats to our international and national security In this timely and compelling collection authors discuss the significance of policy decisions on education systems and argue that all forms of violence including terrorism are often reproduced through education Authors incorporate case studies from a broad spectrum of countries to make a case for peace building alternatives and non military security cooperation Comparative Education Terrorism and Human Security will highlight education systems around the globe that sustain violence will bring together human security and preventive diplomacy research to predict future trends will explore foreign policy implications that could lead to non violent interventions abroad and will provide teachers and policymakers with relevant reflections on reform This book arrives at a time when many of us are wondering what education systems can do to eliminate perpetuate violence and will be the only one of its kind to address these questions on a global scale
