When Someone You Love Is Wiccan:

When Someone You Love is Wiccan Carl McColman, 2008-05-21 The author of The Complete Idiot's Guide to Paganism offers an accessible introduction to one of the world's most misunderstood spiritual practices. Today the spiritual traditions of Wicca and Paganism are enjoying a renaissance among the world's fastest growing religions. But for many years these life-affirming belief systems have been tragically misunderstood. Especially since so many Wiccan newcomers are young, it is understandably a source of concern for many parents, friends, and associates of today's witches. In this accessible volume, spiritual scholar Carl McColman dispels the common misconceptions about Wicca and Paganism. McColman offers an objective, honest introduction to this newly popular old religion while providing comfort to worried readers. **Wiccan**

Spells for beginners Naomi Hill, 2013-12-28 Wiccan Spells for beginners is a book that is written to help the reader to learn about the practice of Wicca. It gives an insight into the history of Wicca, how it all began, and what it has evolved to be today. One thing that the author strives to address is the negative stigma that has been attached to this practice. She aims to dispel a lot of the myths that have been attached to this practice over the years. She even has some great samples of spells that persons can use to foster safe travel, good health, and prosperity among other things. The text is great for those who are doing research and want to learn about Wicca, and also for those who are interested in practicing Wicca and wish to learn a bit about it before getting into it. The book is extremely informative and is a great read. Extraordinary Groups Richard T.

Schaefer, William W. Zellner, 2015-10-22 Extraordinary Groups has had a storied history of excellence over multiple editions. Now available from Waveland Press at the start of its fifth decade of availability, its interdisciplinary approach to groups engaged in unconventional lifestyles makes it a popular textbook choice in hundreds of college courses across the social sciences, including anthropology, religion, history, and psychology. Written by sociologists using and illustrating sociological principles, the book is appealing because it is descriptive and explanatory rather than analytical. Descriptions of the groups are interwoven with basic sociological concepts, but systematic analysis and inductive reasoning are left to the discretion of the instructor. Extraordinary Groups is a compelling overview of the broad tapestry of social life that constitutes the United States. The illustrated, full-featured Ninth Edition includes a glossary and end-of-chapter key terms, sources on the Web, and selected readings. **Dunwich's Guide to Gemstone Sorcery** Gerina Dunwich, 2003-06-13 Publisher's Note: A new edition has replaced this book under the title Gemstone and Crystal Magic.
