What Is Water? Jamie Linton,2010-07-01 We all know what water is and we often take it for granted Because it seems so natural we seldom question how we see water But the spectre of a worldwide water crisis suggests that there might be something fundamentally wrong with the way we think about water Jamie Linton dives into the history of the modern concept of water that water can be stripped of its wider environmental social and cultural contexts and reduced to a scientific abstraction to mere H2O This abstraction has given modern society licence to dam divert and manipulate water with impunity giving rise to a growing suite of problems Linton argues that part of the solution to the water crisis involves deliberately reinvesting water with social content *Board of Claims of the State of New York* ,1915 **Routledge Revivals: The Literary Humour of the Urban Northeast 1830-1890 (1983)** David E. E. Sloane,2018-04-17 The Literary Humour of the Urban Northeast brings together works by such writers as Mark Twain P T Barnum Marietta Holley and the literary comedians Artemus Ward and Josh Billings The northern writers chronicled a fast moving world dominated by government and business In this anthology David Sloane recovers satiric writings of the north eastern humourists of the nineteenth

century a literary school that was formed in the crucible of the daily newspaper. Written to appeal to a newly urbanized audience experiencing the impact of the Industrial Revolution, these humorous articles, sketches, and ballads responded to a rapidly changing nation still clinging to rural preconceptions but at the same time beginning to know a sharper, more precarious kind of existence.
