Treatise Of Revolutionary Psychology The Gnostic Method Of Real Spiritual Awakening:

Treatise of Revolutionary Psychology Samael Aun Weor, 2025-01-01 Even if one is the most sinful of all sinners one shall yet cross over the ocean of sin by the raft of self knowledge alone As the blazing fire reduces wood to ashes similarly the fire of self knowledge reduces all bonds of karma to ashes Krishna Bhagavad gita 4 36 37 This book begins by asking the questions Who are we Where do we come from Where are we going What are we living for Why are we living The answers to these questions can be discovered if one knows where and how to look No matter who we are we feel fulfillment happiness and purpose inside of ourselves These qualities are not felt outside of ourselves and cannot be found in external things or circumstances Similarly knowledge of ourselves and our purpose cannot be found in external things but are found inside By knowing what is in our hearts and minds by seeing what we usually ignore we learn not only what we are capable of but also what prevents us from developing our full potential That knowledge shows us the way to genuine change All things all circumstances that occur outside ourselves on the stage of this world are exclusively the reflection of what we carry within With good reason then we can solemnly declare that the exterior is the reflection of the interior When someone changes internally and if that change is radical then circumstances life and the external also change Samael Aun Weor **Treatise of Revolutionary Psychology** Samael Aun Weor, 2020-03-13 This book begins by asking the questions Who are we Where do we come from Where are we going What are we living for Why are we living The answers to these questions can be discovered if one knows where and how to look No matter who we are we feel fulfillment happiness and purpose inside of ourselves These qualities are not felt outside of ourselves and cannot be found in external things or circumstances Similarly knowledge of ourselves and our purpose cannot be found in external things but are found inside By knowing what is in our hearts and minds by seeing what we usually ignore we learn not only what we are capable of but also what prevents us from developing our full potential By knowing ourselves we acquire the knowledge of how to change for the better As we improve ourselves and awaken to our true nature we spontaneously begin to radiate the light of divinity in everything we do increasing our own happiness and spreading it to others This is how we begin to live the Gnostic message which states that the light of the Divine is within us By knowing ourselves we also learn about that light and can bring it into the world to benefit everyone All things all circumstances that occur outside ourselves on the stage of this world are exclusively the reflection of what we carry within With good reason then we can solemnly declare that the exterior is the reflection of the interior When someone changes internally and if that change is radical then circumstances life and the external also change Samael Aun Weor This book reflects and illuminates the spiritual psychology of all genuine religions and mystical traditions With the practical guidance in this book anyone can awaken to see the light for the Divine for themselves Treatise of Revolutionary Psychology Samael Aun Weor, 2015-08-27 This book teaches you how to discover and get to know the inner world we all have This knowledge is an ancient and universal wisdom delivered initially by the Great Masters of all times and

aces of Humanity Through the drills and practices provided by the author we can discover the different personality s multiplicities of ego that manipulate and control our mind emotions and actions What is ego It is the set of psychic aggregates dark energy that grips our psyche known by different names in other Holy Books such as sin hell selves psychological defects hate drugs alcoholism etc These can only be discovered through exercises or daily practices the self observation we should have at all times We need to be aware of our thoughts and feelings through our emotions and actions Once certain ego is discovered we must appeal to a Higher Force or Power praying to our Blessed Divine Mother to disintegrate and radically eliminate it throwing it to the cosmic dust For every defect removed we free a particle of our divine spark that is trapped in each ego Only this way we can reach the awakening of our consciousness and the intimate self realization of our inner being

The Great Rebellion Samael Aun Weor, 2025-02-01 Our world needs real change inner change This book shows how you can make it happen When one discovers the real cause of so much misery and bitterness it becomes obvious that something can be done Samael Aun Weor Do you want a better world and a better life Do you thirst for genuine happiness You can transcend suffering when you know about The underlying cause of the world s pain and problems What consciousness is and how it works How cause and effect create your life The power within us that can cleanse the mind of faults and darkness This book embraces and clarifies the essential wisdom within all the world s religions and spiritual traditions Yet change does not come from belief or theories Real change comes from self knowledge gnosis The Great Rebellion explains how all of the world s problems addiction war pollution starvation crime come from within us By changing ourselves within we change the world around us This is the genuine foundation of every great spiritual tradition in the world By truly becoming better people the world becomes a better place The Way To Be Free John Godolphin

Bennett, 2012-04-02 The central theme of this book is the difference between work from the mind and work from the essence Work from the mind produces skillful prisoners of illusion but prisoners all the same Work from the essence is the way to be free It is centered in the heart This book is compiled from conversations that took place between Bennett and his students and includes several sections from previously unpublished notes that were to be used in a definitive work on a complete system of Gurdjieff study It includes an essay on the Octave of Salvation written in the 1940s which shows Bennett s remarkable familiarity with the spiritual traditions of Buddhism Hinduism and Christianity and which is a significant treatise in its own right Bennett was a master of structural thinking but always remained closely in touch with the concrete detail of experience This 2006 edition has a new foreword by Anthony Blake and was compiled and edited by Anthony Blake
