Troubling Freedom Antigua Aftermath Emancipation:

Troubling Freedom Natasha Lightfoot, 2015-11-19 In 1834 Antigua became the only British colony in the Caribbean to move directly from slavery to full emancipation Immediate freedom however did not live up to its promise as it did not guarantee any level of stability or autonomy and the implementation of new forms of coercion and control made it in many ways indistinguishable from slavery In *Troubling Freedom* Natasha Lightfoot tells the story of how Antigua's newly freed black working people struggled to realize freedom in their everyday lives prior to and in the decades following emancipation She presents freedpeople's efforts to form an efficient workforce acquire property secure housing worship and build independent communities in response to elite prescriptions for acceptable behavior and oppression Despite its continued efforts Antigua's black population failed to convince whites that its members were worthy of full economic and political inclusion By highlighting the diverse ways freedpeople defined and created freedom through quotidian acts of survival and occasional uprisings Lightfoot complicates conceptions of freedom and the general narrative that landlessness was the primary constraint for newly emancipated slaves in the Caribbean

British West Indian Newspapers and the Abolition of Slavery Andrew Lewis, 2024-06-07. This book is the first overall survey of the British West Indian press in the early nineteenth century, a critical period in the history of the region. Based on extensive and ground-breaking archival research, this volume provides an in-depth history of early nineteenth-century British West Indian newspapers and potted biographies of the journalists who produced them. The author examines the economics underpinning newspapers and a political spectrum unique to the West Indian press. It is also posited that towards one end sat a small group of liberal newspapers that outraged white colonists by arguing for civil and political rights to be extended to so-called free coloureds, and for the abolition of slavery. Scattered at various points towards the other end of the spectrum were newspapers still best collectively described as the planter press, the traditional term used in the literature. Starting from this basic conceptual framework, the volume shows how the press landscape in the British Caribbean at this time was more volatile and complex than has been previously thought. This volume will be of value to academics,

undergraduates, and postgraduates studying Caribbean and media history, and those interested in modern history.

How the Suburbs Were Segregated Paige Glotzer, 2020-04-28. The story of the rise of the segregated suburb often begins during the New Deal and the Second World War, when sweeping federal policies hollowed out cities, pushed rapid suburbanization, and created a white homeowner class intent on defending racial barriers. Paige Glotzer offers a new understanding of the deeper roots of suburban segregation. The mid-twentieth-century policies that favored exclusionary housing were not simply the inevitable result of popular and elite prejudice, she reveals, but the culmination of a long-term effort by developers to use racism to structure suburban real estate markets. Glotzer charts how the real estate industry shaped residential segregation from the emergence of large-scale suburban development in the 1890s to the postwar housing boom. Focusing on the Roland Park Company as it developed Baltimore's wealthiest whitest neighborhoods, she follows the money that financed early segregated suburbs, including the role of transnational capital, mostly British, in the U.S. housing market. She also scrutinizes the business practices of real estate developers, from vetting homebuyers to negotiating with municipal governments for services. She examines how they sold the idea of the suburbs to consumers and analyzes their influence in shaping local and federal housing policies. Glotzer then details how Baltimore's experience informed the creation of a national real estate

industry with professional organizations that lobbied for planned segregated suburbs How the Suburbs Were Segregated sheds new light on the power of real estate developers in shaping the origins and mechanisms of a housing market in which racial exclusion and profit are still inextricably intertwined **General History of Africa** UNESCO International Committee for the New Volumes of the General History of Africa,2025-10-18 **Freedom's Captives** Yesenia Barragan,2021-07 Freedom's Captives offers a compelling narrative driven history of the gradual abolition of slavery in the majority black Colombian Pacific
