Cicero, Paul and Seneca as Transformational Leaders in their Letter Writing Eve-Marie Becker,Henriette van der Blom,Ulrike Egelhaaf-Gaiser,Jacob P.B. Mortensen,2024-09-03 This commentary offers the reader a set of letters or letter parts written by Cicero Paul and Seneca which have been selected against the Transformational Leadership categories of idealised influence inspirational motivation intellectual stimulation and individualised consideration Chapter 1 offers introduction into authors and theory all three letter writers are considered as ancient leadership figures composing leadership letters The letters selected are presented in original text facing a translation Chapter 2 Chapter 3 provides analysis and discussion of each letter and aims to introduce the reader to the historical and literary contexts before reading the letter through the lenses of Transformational Leadership theory Chapter 4 sums up the findings on each letter and each letter writer in light of Transformational Leadership and its categories The volume is aimed at all those who are studying the function of ancient letter writing especially the letters of Cicero Paul or Seneca

The Dark Side of Transformational Leadership Dennis Tourish,2013-03-12 Most research into leadership has presented leaders as heroic charismatic and transformational visionaries The leader whether in business politics or any other field is the most important factor in determining whether organizations succeed or fail Indeed despite the fundamental mistakes which have arguably directly led to global economic recession it is often still taken for granted that transformational leadership is a good thing and that leaders should have much more power than followers to decide what needs to be done The Dark Side of Transformational Leadership confronts this orthodoxy by illustrating how such approaches can encourage

narcissism megalomania and poor decision making on the part of leaders at great expense to those organizations they are there to serve Written in a lively and engaging style the book uses a number of case studies to illustrate the perils of transformational leadership from the Jonestown tragedy in 1978 when over 900 people were either murdered or committed suicide at the urging of their leader to an analysis of how banking executives tried to explain away their role in the 2008 financial crisis This provocative and hugely important book offers a rare critical perspective in the field of leadership studies Concluding with a new approach that offers an alternative to the dominant transformational model The Dark Side of Transformational Leadership will be an invaluable text for academics interested in leadership students on leadership courses requiring a more critical perspective and anyone concerned with how people lead people and the lessons we can learn
