Transition Strategies Cases From The East German Industry:

Transition Strategies H. Hungenberg, T. Wulf, 2002-07-16 The transition process of the countries of Central and Eastern Europe which started more than a decade ago has been the focus of much attention for both practitioners and scholars Few studies however address management issues involved in the transition process and no study has until now assessed the strategies and tactics which individual companies have pursued over the past decade as part of their adaptation process This book fills this gap and will leave the reader with a better understanding of the adaptation process at single firm level The Institutionalised Transformation of the East German Economy Sabine Spangenberg, 2012-12-06 It is perhaps worth stressing that economic problems arise always and only in consequence of change So long as things continue as before or at least as they were expected to there arise no new problems requiring a decision no need to form a plan Hayek 1945 p 523 This book is based on my research for the degree of Doctor of Philosophy which I received from Lancaster University England in the second half of 1997 It is an analysis of the structural transformation of the economic system in East Germany and the behavioural relations these changes imply The approach of institutionalised transformation not the least by the creation of the Treuhandanstalt is examined with a theory based framework which is derived from system theoretical evolutionary and constitutional ethical considerations as well as from the newly developed adjustment model which has been constructed as a dynamic transformation approach A relationship between norm changes the new institutional framework of the economic system and the compatibility of the latter with changes of the remaining partial societal systems is recognised Rigidity factors in the system's flexibility to react as well as the adjustment of economic behaviour to structural changes are analysed The marginal product of system change is defined section 2.8.2

The Political Economy of Germany under Chancellors Kohl and Schröder Jeremy Leaman, 2009-07-01 While unification has undoubtedly had major effects on Germany's political economy the pattern of current policy making preferences was established at an earlier stage in particular at the beginning of the Kohl era in 1982 This essentially neo liberal pattern can be seen to have dominated the modalities chosen to guide Germany through the process of unification and was mirrored in developments in other OECD countries and in particular within the EU This book demonstrates that the three policy imperatives neo liberal structural reform European monetary integration and unification produced a policy mix which together with other structural economic and demographic factors has had disappointing results in all three areas and hampered Germany's overall economic development

Dislocation: Awkward Spatial Transitions Philip Cooke, 2021-05-17 Today the world is in the most serious turmoil it has experienced for many centuries These multiple crises arise from the fundamental mistreatment by capitalist competition of the carrying capacity of the planet Even before coronavirus evidently morbid symptoms of over development led many spatial planners to write of the threat of a new Dark Age Many advocated a return to policy decentralisation as the Covid 19 crisis demonstrated once again the failure of global controller mindsets to manage complex

systems successfully Dislocation Awkward Spatial Transitions is a critical exploration of where spatial development processes and rules have gone wrong across many economies The chapters lay out which mindsets have been responsible for this and gives pointers to new practices that aim to ameliorate the effects of past failings In the first nine chapters a mapping of key elements of the prevailing omni crisis are summarised These range from an exegesis of the Anthropocene the rise of populism the transition to neoliberalist anti planning and migration as planning issues with pleas for evolutionary change in spatial policy and process dynamics Finally a group of chapters explores the flailing as territorial governances tried to plot the rise of creative cities 4 0 era industry and services and in the built form the role of starchitects in city renewal In the last part attention is devoted to territorial innovation knowledge recombination sustainable mobility and finally green entrepreneurship as necessary elements of a post coronavirus climate change mitigation and sustainable mobility set of survival strategies The chapters in this book were originally published in the journal European Planning Studies Work, Employment and Transition Al Rainnie, Adrian Smith, Adam Swain, 2005-07-28 Since the late 1980s the experiences of work and employment in the former communist world have been profoundly transformed Work Employment and Transition brings together a series of essays by leading international scholars which highlights the varied and complex forms that work and employment restructuring are taking in the post soviet world and makes important theoretical contributions to our understanding of these transformations **Ideology, Political Transitions and the City** Aleksandra Djurasovic, 2016-06-10 Recent history has seen Bosnian and Herzegovinian BiH cities undergoing several transitions Their cities have developed under socialism 1945 1992 have suffered through the civil war during the 1990s and during the last twenty years have been undergoing a slow and multifaceted transition to an indeterminate end point Focusing on the post socialist postwar and neoliberal transitions experienced in BiH the book shows that planning systems deviated from control oriented and top down regulation to flexible approaches for more open for informal development The book analyzes several levels of planning related processes the former Yugoslavia BiH the city of Mostar and three urban zones the Industrial Zone Bi e Polje the City Zone Rondo and the Historic District and the Old Town Zone in order to offer insights into the new planning systems in the late phase of post socialist transition The Politics Of Regime Transitions Ronald A Francisco, 2019-06-25 This volume evaluates political and economic reforms that occurred during the forty regime transitions It provides a historical overview and considers the collapse of the regime the early transition democratization and economic reform Long Range Planning Society for Long Range Planning, European Planning Federation, 1968 **Adaptation And Transformation In Communist And Post-communist Systems** Sabrina Petra Ramet, 2019-03-04 This book tackles different aspects of the adaptive and transformative process in communist and post communist systems in Eastern Europe offering competing models which locate the explanatory variable in different places and account for the unfolding of change in different ways *Strategic Management - New Rules for Old Europe* Christian Scholz, Joachim Zentes, 2007-11-05

Perhaps it was not really meant the way it was said but when Donald Rumsfeld used the term Old Europe in his famous speech of January 22 2003 he coined a phrase to depict not the birthplace of modern society but a graveyard of old and outdated ideas Even though it is legitimate for many of us in Europe to oppose the underlying message of going to war in Iraq it makes absolute sense to examine the rules of the game which Europe is currently playing and which it will play in the future In doing so it becomes obvious that important changes are taking place Strategic Management New Rules for Old Europe makes the hidden rules governing strategic management in Europe transparent The book follows a from to logic and takes the reader along the course of changing conditions and contingencies Europe has not only witnessed major transformations such as the dramatic fall of the Iron Curtain economic and monetary integration and the incorporation of new member states Fundamental change can also be perceived with respect to the corporate responses to these ongoing dynamic changes Strategic Management New Rules for Old Europe is divided into four parts Each of these consists of several contributions starting with the focus on people then on culture then on systems
