Rethinking Arab Democratization Larbi Sadiki, 2009-02-12 Rethinking Arab Democratization unpacks and historicizes the rise of Arab electoralism narrating the story of stalled democratic transition in the Arab Middle East It provides a balance sheet of the state of Arab democratization from the mid 1970s into the 21st century In seeking to answer the question of how Arab countries democratize and whether they are democratizing at all the book pays attention to specificity highlighting the peculiarities of democratic transitions in the Arab Middle East To this end it situates the discussion of such transitions firmly within their local contexts but without losing sight of the global picture namely the US drive to control and democratize the Arab World The book rejects exceptionalism foundationalism and Orientalism by showing that the Arab World is not immured from the global trend towards political liberalization But by identifying new trends in Arab democratic transitions highlighting their peculiarities and drawing on Arab neglected discourses and voices the book pinpoints the contingency of some of the arguments underlying Western theories of democratic transition when applied to the Arab setting Oxford Studies
