The International Law on Foreign Investment M. Sornarajah, 2010-05-06 This book is a thought provoking and authoritative text on this fast moving field of international law

Transnational Corporations and Human Rights Olivier De Schutter, 2006-09 This volume offers a systematic overview of the different tools through which the human rights accountability of transnational corporations may be improved It first examines the responsibility of States in controlling transnational corporations emphasizing both the limits imposed by the protection of the rights of investors under investment treaties and the potential of the US Alien Tort Claims Act and other

similar extra territorial legislations It then turns to self regulation by transnational corporations through the use of codes of conduct or international framework agreements It then discusses recent attempts at the global level to improve the human rights accountability of corporations by the direct imposition on corporations of obligations under international law Finally it considers the use of public procurement policies or of conditionalities in the lending policies of multilateral lending institutions in order to incentivize TNCs to behave ethically Altogether the book offers a rigorous legal analysis of these different developments and critically appraises their potential

Regulating Transnational Corporations in Domestic and International Regimes Evaristus Oshionebo, 2009-01-01 This study explores the range of strategies for regulating the social and environmental practices of TNCs in Africa's extractive industries

Human Rights Standards and the Responsibility of Transnational Corporations Michael K. Addo, 1999-09-01 What is the nature and scope of corporate responsibility with regard to human rights Should companies themselves be responsible for human rights violations involving themselves or their subsidiaries What principles should guide business in countries known to violate human rights Is self regulation sufficient or are corporations best regulated by national or international codes and on what should these codes be based These are some of the many questions which this ground breaking collection of essays seeks to address as it assesses the value of applying human rights standards to transnational corporations The increasing involvement of corporations in the public domain and the steady reduction of governmental involvement in commercial and social undertakings has created a desperate need to rethink the nature and role of the private corporation and its regulation This volume which contains a balanced collection of analyses from all interested sources in the corporate responsibility debate is the result of a three day conference during which government officials corporate executives NGOs and representatives of inter governmental organisations as well as academic researchers came together for the first time to discuss the emerging issues The essays have been arranged under six broad themes policy issues regulation issues of application matters of doctrine globalisation and case studies In addition each section contains the opinion not simply a summary of proceedings of a nominated rapporteur who draws together the strands of each theme and where necessary broadens the analysis to cover important issues which may not have been addressed At the heart of this volume is the attempt to define an effective framework for transnational corporate responsibility through international human rights standards It will be of vital interest to corporate legal advisers human rights practitioners NGOs government law offices and academics as well as to all those concerned with human rights and their place in the modern world

In particular, the book examines frameworks and instruments for regulating social responsibility, reviews recent developments concerning the proposed UN Code of Conduct on Transnational Corporations, and provides insights into international civil society groups' movements in pursuit of a code of conduct.
