Traveling Back Toward A Global Political Theory:

Traveling Back Susan McWilliams, 2014-01-15 We live in a global age an age of vast scale and speed an age of great technological and economic and environmental change in conditions our ancestors could hardly have imagined What does this compression of geographical and temporal scale mean for our political thinking Do we need new modes of political thought or a new kind of political imagination How might we begin to develop a truly global political theory Against the common belief that we need a wholly new political theory for our global age Susan McWilliams argues that the best foundation is already behind us and can be found by traveling back In doing this revisiting the history of political thought with a mind to the questions accompanying globalization it becomes clear that the greatest tool for understanding our new world lies in one of the oldest themes in Western political theory travel Since the beginnings of Western political thought the ancient Greeks referred to travel as *theoria* political theorists have used images of travel to illuminate the central questions of globalization where travel stories appear we find serious reflection about how to live in cross cultural and interconnected political conditions Here we find attention to the contingency of political identity to hybridity and to the threats of colonialism and imperialism We even find self critical questioning about the dangers that face political theorists who want to think globally In Traveling Back McWilliams uncovers the rich travel story tradition of political theorizing that speaks directly to the problems of our age She explores why this travel story tradition has been so long neglected especially in this time when we need its wisdom and she calls for its rediscovery In order to move forward toward a global political theory as McWilliams eloquently demonstrates we must first learn to travel back

Traveling Back Susan McWilliams, 2014-03 What does it mean to think globally Susan McWilliams argues that to understand politics in our new world we should revisit one of the oldest themes in political theory travel This title uncovers the rich travel story tradition of political theorizing and shows how it helps to answer today's toughest political questions

The Oxford Handbook of Comparative Political Theory Leigh K. Jenco, Murad Idris, Megan Christine Thomas, 2020 Chapters emphasize exploration of substantive questions about political life in a range of global contexts with attention to whether and how those questions may be shared contested or reformulated across differences of time space and experience An interdisciplinary volume that bridges the gaps between various traditions regions and concerns regarding political theory Provides tags and keywords to aid navigation of the handbook and help readers trace disruptions thematic connections and conceptual contrasts across entries

The American Road Trip and American Political Thought Susan McWilliams Barndt, 2020-07-06 Americans love road trips They love to go on road trips They love to read about road trips They love to watch road trip stories unfold on television and film Road trip stories are a consistent feature of the American landscape a central part of American mythology and an important piece of the American dream In The American Road Trip and American Political Thought Susan McWilliams argues that the American fascination with road trip stories is about more than mere escapism or wanderlust She shows in walking through stories like *On the Road*

and *The Grapes of Wrath* that American road trip stories are a key expression of American political thought. They are not just stories of personal journeys. They are stories of the American nation. McWilliams Barndt shows how Americans have long used road trip stories to raise and explore central questions about American politics in theory and practice. They talk about freedom and equality and diversity and take those vaunted American ideals for a test drive. American road trip stories are where the rubber meets the road in American political thought. *The American Road Trip and American Political Thought* includes explorations of a wide variety of American authors from Walt Whitman and Henry David Thoreau to Erika Lopez and Cheryl Strayed from Mark Twain and John Steinbeck to Solomon Northup and Hunter S Thompson. It covers topics including gender labor place race and technology in American political life. This is a book that will change the way you think about the great American road trip and the great American story.

Forced Migration in the Feminist Imagination Anna Ball, 2021-09-21 *Forced Migration in the Feminist Imagination* explores how feminist acts of imaginative expression community building scholarship and activism create new possibilities for women experiencing forced migration in the twenty first century. Drawing on literature film and art from a range of transnational contexts including Europe the Middle East Central America Australia and the Caribbean this volume reveals the hitherto unrecognised networks of feminist alliance being formulated across borders while reflecting carefully on the complex politics of cross cultural feminist solidarity. The book presents a variety of cultural case studies that each reveal a different context in which the transcultural feminist imagination can be seen to operate from the maternal feminism of literary journalism confronting the European refugee crisis to Iran s female film directors building creative collaborations with displaced Afghan women and from artists employing sonic creativities in order to listen to women in U K and Australian detention to LGBTQ poets and video artists articulating new forms of queer feminist community against the backdrop of the hostile environment. This is an essential read for scholars in Women s and Gender Studies Feminist and Postcolonial Literary and Cultural Studies and Comparative Literary Studies as well as for those operating in the fields of Gender and Development Studies and Forced Migration Studies.

Liberal Education and Citizenship in a Free Society Justin Buckley Dyer, Constantine Christos Vassiliou, 2023-07-24 The liberal arts university has been in decline since well before the virtualization of campus life increasingly inviting public skepticism about its viability as an institution of personal civic and professional growth. New technologies that might have brought people together have instead frustrated the

university's capacity to foster thoughtful citizenship among tomorrow's leaders and exacerbated socioeconomic inequalities that are poisoning America's civic culture

With Liberal Education and Citizenship in a Free Society a collection of 19 original essays editors Justin Dyer and Constantine Vassiliou present the work of a diverse group of scholars to assess the value of a liberal arts education in the face of market technological cultural and political forces shaping higher learning today

A Political Companion to James Baldwin Susan J. McWilliams, 2017-11-15 In seminal works such as *Go Tell It on the Mountain* *Notes of a Native Son* and *The Fire Next Time* acclaimed author and social critic James Baldwin 1924-1987 expresses his profound belief that writers have the power to transform society to engage the public and to inspire and channel conversation to achieve lasting change While Baldwin is best known for his writings on racial consciousness and injustice he is also one of the country's most eloquent theorists of democratic life and the national psyche

In A Political Companion to James Baldwin a group of prominent scholars assess the prolific author's relevance to present day political challenges Together they address Baldwin as a democratic theorist activist and citizen examining his writings on the civil rights movement religion homosexuality and women's rights They investigate the ways in which his work speaks to and galvanizes a collective American polity and explore his views on the political implications of individual experience in relation to race and gender This volume not only considers Baldwin's works within their own historical context but also applies the author's insights to recent events such as the Obama presidency and the Black Lives Matter movement emphasizing his faith in the connections between the past and present These incisive essays will encourage a new reading of Baldwin that celebrates his significant contributions to political and democratic theory

Herodotus in the Anthropocene Joel Alden

Schlosser, 2020-07-15 We are living in the age of the Anthropocene in which human activities are recognized for effecting potentially catastrophic environmental change In this book Joel Alden Schlosser argues that our current state of affairs calls for a creative political response and he finds inspiration in an unexpected source the ancient writings of the Greek historian Herodotus Focusing on the *Histories* written in the fifth century BCE Schlosser identifies a cluster of concepts that allow us to better grasp the dynamic complexity of a world in flux Schlosser shows that the *Histories* which chronicle the interactions among the Greek city states and their neighbors that culminated in the Persian Wars illuminate a telling paradox at those times when humans appear capable of exerting more influence than ever before they must also assert collective agency to avoid their own downfall Here success depends on *nomoi* or the culture customs and laws that organize human communities and make them adaptable through cooperation *Nomoi* arise through sustained contact between humans and their surroundings and function best when practiced willingly and with the support of strong commitments to the equality of all participants Thus *nomoi* are the very substance of political agency and ultimately the key to freedom and ecological survival because they guide communities to work together to respond to challenges An ingenious contribution to political theory political philosophy and ecology *Herodotus in the Anthropocene* reminds us that the best perspective on the present can

often be gained through the lens of the past *Film and Faith* Carson Holloway, Micah Watson, 2023-11-21 *Film and Faith* Modern Cinema and the Struggle to Believe explores religious themes in contemporary film with a focus on recent depictions of religion's continuing manifestations in a secularizing age. The contributors are students of philosophy, political theory, and theology who examine religious and philosophical ideas in commercially and artistically important modern films. They offer a scholarly yet accessible consideration of contemporary films exploring the problem of faith in the modern world. The approach is balanced, sympathetic but not uncritical, reflecting a complexity in the minds of the contributors themselves. While they are religious believers, nonetheless, established scholars trained in mainstream academic disciplines. The chapters cover cinema that is important in different ways and that represent different genres, from the art films of Terrence Malick to the more conventional but serious dramas of the Coen brothers and Frank Capra to popular action blockbusters like the Dark Knight and the Marvel films. Drawing on these cinematic works, the authors explore religious themes that remain salient even in a time when religion seems to be in decline: themes such as sin and judgment, the experience of grace and reconciliation, and confrontation with radical evil.
