Waarden En Geschiedwetenschap:

Germany's Conscience Reinbert Krol, 2021-06-09 Questions of truth ethics state power and propaganda of how to render account of catastrophes and reconcile oneself with one's past are not only crucial to our time they were also central to the German historian Friedrich Meinecke 1862 1954 Probably no generation of historians before Meinecke had lived through more unsettling transformations during which these questions were most pressing Reinbert Krol's analysis of Meinecke's intellectual development does not only give us insight into his philosophy of history which turns out to be more conciliatory than previously assumed it can also be a source of inspiration for scholars of history today Filosofie van de geschiedwetenschappen W. J. van der Dussen, 1988 **Images of Time** Arie Wilschut, 2012-11-01 What makes history difficult to learn is the fact that one has to travel in time Studying events and circumstances from a time perspective different from our own is something that doesn't come naturally to people It is an ability that has to be acquired This book discusses teaching and learning history from the perspective of passage of time Time experiences exist in different shapes and dimensions one of which is historical time The specific characteristics of the kind of time are defined in this study based on philosophical and psychological insights as well as on theory of history The differences with other kinds of time such as daily time and social time are outlined Six key concepts of historical time are then defined chronology periodization relics anachronism contingency and generations meaning a specific way of dealing with the generations of our predecessors The main issues for teaching historical thinking are described using these six categories An inventory is made of what is known about them from existing research and what questions still need further investigation An empirical study is reported about the means students preferably use to orient in historical time timelines and numbered years attached to events or imaginative associative contexts It is demonstrated that images of time are the optimum means for historical orientation An historical consciousness of time is essential to an open democratic society The one dimensional perspective of the present is broken up it is shown that alternatives are possible that the present is only the coincidental result of a contingent development and might have been totally different and that the views held by people have changed may change now and certainly will change in the future All of this can enhance tolerance open mindedness and promote a healthy societal debate This study provides insights into the kind of history teaching that might be helpful in developing this **Structuur en contingentie** Ton Nijhuis, 1996 *Historici en hun metier* Marc Boone, 2024-07-16 Dit handboek presenteert een methode om kritisch om te gaan met de overvloed aan informatie waarmee we vandaag geconfronteerd worden maar ook met de projectie van deze situatie naar een ver en nabij verleden Hoe kunnen we bronnen op het spoor komen hoe kunnen we ze kritisch benaderen en vooral hoe moeten we optreden als bronnen onderling contradictorische informatie geven Hoe kunnen we met andere woorden overgaan tot het confronteren van uiteenlopende getuigenissen over dezelfde gebeurtenissen om uiteindelijk tot een interpretatie te komen van de feiten en hun motieven die zo dicht mogelijk bij de waarheid aanleunt Het

tweede deel gaat in op de historische synthese en meer bepaald op de manier waarop samenlevingen zich in de loop der eeuwen het verleden hebben voorgesteld Ook de ontwikkeling van de geschiedenis als autonoom wetenschapsgebied komt aan bod in welke mate hebben ideologische politieke en filosofische overtuigingen mee gestalte gegeven aan het beeld dat we hebben van het verleden Dit boek presenteert een methode die niet enkel voor historici maar bij uitbreiding ook voor studenten en onderzoekers in vele andere takken van de humane en sociale wetenschappen bruikbaar is Subject Catalog Library of Congress,1979 Bibliography of Works in the Philosophy of History ,1978 Alles van waarde Lodewijk van Oord,2016-03-01 De platen van het systeemplafond vallen van armoede uit elkaar het stof ligt duimendik op de boekenkasten en de muizen eten langzaam maar zeker hun weg door het papier van imposante maar verouderde naslagwerken Dit is de universiteitskamer van de Leidse wetenschapper Wijnand Struif Hij kan en wil zich geen andere omgeving voorstellen dit is zijn werk zijn thuis zijn leven Maar de universiteit is volop in beweging Oude tradities moeten plaatsmaken voor moderne ideeën verliesgevende instituten worden gesloten kleine opleidingen gedwongen te fuseren Wijnand staat met zijn rug tegen de muur Zijn Instituut voor Numismatiek beheert een kostbare verzameling oude munten die bestuurder Sjuul van Baarlo maar wat graag zou gebruiken om het gat in de begroting te dichten Gelukkig kan Wijnand rekenen op de hulp van zijn voormalige leermeester een succesvol auteur van veelgelezen boeken over de oudheid en zijn nieuwe assistente Taziri Azulay een Marokkaans Nederlandse archeologiestudente Samen werken ze aan de digitalisering van de collectie waarmee Wijnand het instituut een modern karakter hoopt te geven en zijn bestaansrecht tracht te bewijzen Hij wordt steeds optimistischer over zijn mogelijkheden Maar ook Sjuul en Taziri grijpen hun kansen Hoe besluit een gemeenschap wat waardevol is Hoe verhoudt een veranderende samenleving zich tot de eigen geschiedenis en cultuur Alles van waarde is een verhaal over zilver en goud origineel en kopie lichaam en geest Van Oord laat ons ontwikkelingen en verbanden zien die geen enkele lezer onberoerd zullen laten **National Union Catalog** , Includes entries for maps and atlases *Geschiedenis en cultuur* E.
