A History of the Netherlands Friso Wielenga, 2019-10-03 This is the most comprehensive history of the Netherlands available in the English language It surveys Dutch history from the 16th century when the nation took shape as a geographical administrative and political entity right through to the Netherlands of today Examining domestic politics and wider international contexts as well as economic and cultural history Friso Wielenga provides a varied and in depth investigation that will lead to a rich understanding of the country's past The book also challenges misplaced preconceptions regarding political consensus and religious toleration in the country and offers a balanced assessment of developments across the early modern modern and contemporary eras This new edition includes One brand new chapter on the Netherlands since 1945 Much more material on colonial history slavery the decolonisation of Indonesia and the contemporary legacy of colonialism Historiographical updates throughout A wealth of new images maps tables and figures This book is essential reading for anyone seeking a knowledge of Dutch history since 1500 Twentieth-Century Mass

Society in Britain and the Netherlands Bob Moore, Henk van Nierop, 2006-10-01 From the beginning of the nineteenth century Western Europe witnessed the emergence of a mass society Grand social processes such as urbanization industrialization and democratization blurred the previous sharp distinctions that had divided society This massive transformation is central to our understanding of modern society Comparing the British and Dutch experience of mass society in the twentieth century this book considers five major areas politics welfare media leisure and youth culture In each section two well known specialists one from each country examine the conditions behind the rise of a mass society and show how these conditions were distinctively British or Dutch Drawing on history cultural studies and sociology the authors bring new insight into the development of modern European society **Koloniale Geschiedenis: deel. Nederland: De West.**

De Oost tot 1816 Herman Theodoor Colenbrander, 1925 Civic Education and Contested Democracy Wim de Jong, 2020-10-14 This book explores citizenship education and democracy in the Netherlands From the Second World War to the present day debates about civic education and democracy have raged in the country this book demonstrates how citizens social movements and political elites have articulated their own notions of democracy Civic education illustrates democracy as an essentially contested concept the transmission of political ideals highlights conflicting democratic values and a problem of paternalism Ultimately who dictates what democracy is and to whom As expectations of citizens rise they are viewed more and more as objects of a pedagogical project itself a controversial notion Focusing on what democracy means practically in society this book will be of interest to scholars of citizenship education and post war Dutch political history **Modern Dutch Studies** M. J. Wintle, 2015-11-19 These essays by leading scholars explore the integration of language and literature study in the fields of art history and social sciences exploring as a result the scope and nature of the discipline of Dutch Studies today **Cultures of Child Health in Britain and the Netherlands in the Twentieth Century**, 2016-08-22 The

health and welfare of children became an area of concern and action in the early decades of the twentieth century This concern would develop an ever broader remit during the course of the century moving from anxiety about high death rates physical health and the unfit to embrace all children and the mental health and the psychological well being of individuals This volume emerged out of an Anglo Dutch Workshop held at the University of Warwick in July 1999 and is the first book to explore child health in the twentieth century in a comparative perspective focussing on such issues as the link between child health and citizenship the impact of ideas concerning degeneracy socialisation consumerism and children s rights and the role of the family state and experts in mediating child health *Tijdschrift Aardrijkskundig Genootschap*,1881
