Smitha Radhakrishnan

Whose Sustainability Counts Basixs Long March From Microfinance To Livelihoods:

Whose Sustainability Counts? Malcolm Harper, Lalitha Iyer, Jane Rosser, 2011 By the end of 2010 the glowing reputation of microfinance was beginning to tarnish The collapse of the microfinance industry in Andhra Pradesh well publicized client indebtedness and the Bangladeshs governments sacking of Grameen Bank President Muhammad Yunus the Nobel prize winner and venerated father of microcredit represented a critical turning point for the industry Can Microfinance Work? Lesley Sherratt, 2016 *Can Microfinance Work* presents a thorough going and nuanced ethical assessment of the microfinance industry drawing on the author s expertise in the fields of finance and applied ethics That comprehensive analysis is then used to ground concrete policy proposals some quite radical to improve both microfinance s ethical balance and its overall effectiveness **The Political Economy of Microfinance** Philip Mader, 2016-01-12 According to the author rather than alleviating poverty microfinance financialises poverty By indebting poor people in the Global South it drives financial expansion and opens new lands of opportunity for the crisis ridden global capital markets This book raises fundamental concerns about this widely celebrated tool for social development Emerging Women's Livelihood Collectives in India H. S. Shylendra, 2025-04-16 With an overarching conceptual framework and a synthesis of findings this book is a unique collection of the experiences of twenty diverse cases of women s collectives holding critical lessons for livelihood enhancement and women s empowerment The book is the result of a collaborative project between the development organisation viz PRADAN working to strengthen women led collectives under the National Rural Livelihood Mission NRLM and a group of development and management scholars hailing from the Institute of Rural Management Anand IRMA Based on the documented cases using immersive methods and a feminist perspective the book provides a critical analysis of the agency displayed by women and their collectives with the potential to induce changes in the socio economic status of women hailing from disadvantaged sections Inclusion governance and leadership financial intermediation livelihoods and social action are the major outcome dimensions of the collectives examined in the book as highlighted under SDG 5 which calls for ensuring women s effective participation and leadership and reforms to give women equal rights to economic resources While the conceptual framework helps unravel the complex interlinkages visualised between women livelihoods and collectives the cases in themselves and the synthesis objectively depict the lessons and challenges encountered by the collectives given the entrenched gender relations and the neoliberal policy narratives This book serves as a source of real case studies for teaching and training a reference work for researchers and a guidance book for policymakers and practitioners *How the World Hunger Problem Was not Solved* Christian Gerlach, 2024-02-14 The world food crisis 1972 1975 gave rise to new development concepts To eradicate world hunger small peasants were supposed to use modern inputs like high yielding seeds fertilizer pesticides and irrigation This would turn subsistence producers into business owners transform rural areas invigorate national economies and the crisis stricken world economy and thus stabilize capitalism Together with an in depth

account of the world food crisis this book analyses how this global scheme largely failed It shows its diverse initiators their reasoning and motives its political breakthrough the degrees to which it was implemented globally and nationally in the following decades and its socioeconomic effects in rural areas Despite internationally coordinated policies and coercive means the scheme failed on all levels situation analysis design policies incapable institutions including big business implementation and peasants responses Selective realization in certain regions and for certain crops and the appropriation of funds by local elites often aggravated inequality and hunger Case studies are about Bangladesh Indonesia Tanzania and Mali The book shows limits to global social engineering imperialism and state control It is aimed at students scholars activists and non specialists interested in development and the world food problem The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Making Women Pay Smitha Radhakrishnan, 2021-10-25 In Making Women Pay Smitha

Radhakrishnan explores India's microfinance industry which in the past two decades has come to saturate the everyday lives of women in the name of state led efforts to promote financial inclusion and women's empowerment Despite this favorable language Radhakrishnan argues microfinance in India does not provide a market oriented development intervention even though it may appear to help women borrowers Rather this commercial industry seeks to extract the maximum value from its customers through exploitative relationships that benefit especially class privileged men Through ethnography interviews and historical analysis Radhakrishnan demonstrates how the unpaid and underpaid labor of marginalized women borrowers ensures both profitability and symbolic legitimacy for microfinance institutions their employees and their leaders In doing so she centralizes gender in the study of microfinance reveals why most microfinance programs target women and explores the exploitative implications of this targeting
