Why Loiter Women And Risk On Mumbai Streets:

Why Loiter? Shilpa Phadke, Sameera Khan, Shilpa Ranade, 2011 Presenting an original take on women's safety in the cities of twenty-first century India *Why Loiter* maps the exclusions and negotiations that women from different classes and communities encounter in the nation's urban public spaces. Basing this book on more than three years of research in Mumbai, Shilpa Phadke, Sameera Khan, and Shilpa Ranade argue that though women's access to urban public space has increased, they still do not have an equal claim to public space in the city. And they raise the question: can women's access to public space be viewed in isolation from that of other marginal groups? Going beyond the problem of the real and implied risks associated with women's presence in public, they draw from feminist theory to argue that only by celebrating loitering a radical act for most Indian women can a truly equal global city be created.

Why Loiter?: Women and Risk on Mumbai Streets Shilpa Phadke, 2011 *The City Observed* Pallavi Shrivastava, 2016-09-12 *The City Observed* by Pallavi Shrivastava reads like dispatches from a battlefield by a seasoned war correspondent. Each chapter is a stimulating vignette of some memorable place or recently contrived artifact through which Pallavi unravels counter-intuitive conclusions. Pallavi has two eyes and many voices. Those two eyes see things often unnoticed, bringing into focus a collage of real-life issues and human circumstances. She has an uncanny ability to conceive of the metropolis as an everyday person would yet to catalyze unique understandings and conclusions from her choreographies. She navigates the metropolis, building narratives out of keen insights, speaking for those without voices, giving eyes to people who have eyes but no vision. Pallavi's most provocative ability is to reveal contradictions between the emerging urban form and the critical needs of the everyday Mumbaikar who emerges forgotten in the unfolding scenario. Her written landscapes reveal disturbing images of the bad within the good and of poverty within plenty. From bright images emerge a sense of charm tinged by nostalgia for the city's past yet a warning of pathos in times to come.

Affective Feminisms in Digital India Meena T Pillai, 2022-09-29 This book studies digital feminist activism in contemporary India. It provides a close and comprehensive analysis of the postmillennial digital moment in India, which has given rise to new modes of women's digital dissent. The volume examines how anti-rape narratives, Feminichy scandals, MeToo movements, and menstrual activism, amongst a host of other performative feminist dissent and their discursive medialities, create affective digital feminisms which both break with and continue the residual and emergent practices within feminisms in India. It looks at digital womanspeak from India and focuses on vernacular forms of dissent through which the author aims to decolonize feminist imaginaries from their moorings in the West. The author explores new digital cultural and social geographies where politically untamed women use their precarity to unsettle deep sexist structures and mount a gendered critique of the political economy of the nation-state. An important contribution to the study of feminism in India, the volume will be useful for students and researchers of gender and women's studies, cultural studies, digital sociology, intersectional feminism, transnational feminism, digital humanities, and South Asian studies. It will also be an appeal to

readers interested in the history of women's dissent in India **Bollywood's New Woman** Megha Anwer, Anupama Arora, 2021-06-18 Bollywood's New Woman examines Bollywood's construction and presentation of the Indian Woman since the 1990s. The groundbreaking collection illuminates the contexts and contours of this contemporary figure that has been identified in sociological and historical discourses as the New Woman. On the one hand, this figure is a variant of the fin de siècle phenomenon of the New Woman in the United Kingdom and the United States. In the Indian context, the New Woman is a distinct articulation resulting from the nation's tryst with neoliberal reform, consolidation of the middle class, and the ascendancy of aggressive Hindu Right politics. Kashmiri Life Narratives Rakhshan Rizwan, 2020-04-19 Kashmiri Life Narratives takes as its central focus writings, memoirs, non-fictional and fictional Bildungsromane published circa 2008 by Kashmiris Indians living in the Valley of Kashmir, India, or in the diaspora. It offers a new perspective on these works by analyzing them within the framework of human rights discourse and advocacy. Literature has been an important medium for promoting the rights of marginalized Kashmiri subjects within Indian-occupied Kashmir, successfully putting Kashmir back on the global map and shifting discussion about Kashmir from the political boardrooms to the international English language book market. In discussing human rights advocacy through literature, this book also effects a radical change of perspective by highlighting positive rights to enjoy certain things rather than negative ones to be spared certain things. Kashmiri life narratives deploy a language of pleasure rather than of physical pain to represent the state of having and losing rights.

The Innovation-Friendly Organization Anna Simpson, 2017-02-10 This book explores five cultural traits: Diversity, Integrity, Curiosity, Reflection, and Connection that encourage the birth and successful development of new ideas and shows how organizations that are serious about innovation can embrace them. Innovation, the driver of change and resilience, is totally dependent on culture, the social environment which shapes how ideas emerge and evolve. Ideas need to breathe, and culture determines the quality of the air. If it's stuffy and lacks flow, then no idea, however brilliant, will live long enough to fulfil its potential. Creating these innovation-friendly conditions is one of the key challenges facing organizations today, and one that is especially difficult for them, focused as they are on efficiency and control. Innovation, Anna Simpson argues, begins with diversity of thought and attitude, the opposite of conformity and standardisation. Likewise, with ongoing pressures to deliver results before yesterday, how can organizations allow sufficient space for the seemingly aimless process of following interesting possibilities and pondering on the impact of various options? Anna Simpson shows how large organizations can adapt their culture to enable the exchange of different perspectives to support each person to bring their whole self to their work, to embrace the aimlessness that fosters creative experimentation, to take the time to approach change with the care it deserves, and lastly, to develop the collective strength needed to face the ultimate sledgehammer test. *Digital Diasporas* Radhika Gajjala, 2019-06-26 When we work or play through digital technologies, we also live in them.
