Canadian Women Shaping Diasporic Religious Identities Becky R. Lee, Terry Tak-ling Woo, 2016-01-01 This

collection of essays explores how women from a variety of religious and cultural communities have contributed to the richly textured pluralistic society of Canada. Focusing on women's religiosity, it examines the ways in which they have carried and conserved and brought forward and transformed their cultures old and new in modern Canada. Each essay explores the ways in which the religiosities of women serve as locations for both the assertion and the refashioning of individual and communal identity in transcultural contexts. Three shared assumptions guide these essays: religion plays a dynamic role in the shaping and reshaping of social cultures; women are active participants in their transmission and their transformation; and a focus on women's activities within their religious traditions, often informal and unofficial, provides new perspectives on the intersection of religion, gender, and transnationalism. Since the first European migrations, Canada has been shaped by immigrant communities as they negotiated the tension between preserving their religious and cultural traditions and embracing the new opportunities in their adopted homeland. Viewing those interactions through the lens of women's religiosity, the essays in this collection model an innovative approach and provide new perspectives for students and researchers of Canadian Studies, Religious Studies, and Women's Studies.

Figuring Religions Shubha Pathak, 2013-04-02 *Figuring Religions* offers new ways of comparing prominent features of the world's religions. Comparison has been at the heart of religious studies as a modern academic discipline, but comparison can be problematic. Scholars of religion have been faulted for ignoring or reinterpreting differences to create a universal paradigm. In reaction, many of today's scholars have placed chief emphasis on the differences between traditions. Seeking to reinvigorate comparison and avoid its excesses, contributors to this volume use theories of metaphor and metonymy from the fields of philosophy, linguistics, and anthropology to look at religious ideas, images, and activities. Traditions considered include Hinduism, ancient Greek religions, Judaism, Buddhism, Daoism, Confucianism, Christianity, and Islam. By applying trope theories, contributors reveal elements of these religions in and across their cultural contexts.

The Announcement Michael J. Gajda, 2014-02 You drive down a road for the hundredth time and notice a house you've never noticed before. You look at a picture and never saw that green spot before. You pick veggies or fruit and think you've cleared the area, then go back and see all the ones you missed. It's all in your point of view. There's a new perspective, a different angle, and you see things differently, and that's where the Announcement comes in. It provides that different point of view, that new perspective, that different angle, and does so with a purpose. It's for anyone who would like to see the world be a better place but will challenge your ideas of what better is, and when you're done and have had a chance to absorb the Announcement, think of others who would hate this book. Then give it to them and cajole, bribe, beg, or whatever you have to do to get them to read it, because they are the ones who desperately need it. Bill Sturk, artist and musician.

Re-Membering and Re-Imagining Nancy J. Berneking, Pamela Carter Joern, 2009-06-01 The most controversial ecumenical church event in decades, the first Re-Imagining Conference shook the foundations of mainline Protestantism. Who Healeth All Thy Diseases Michael S. Stephens, 2008-07-07 Who Healeth All Thy Diseases is a history of divine healing and 19th century health reform in the Church of God one of the earliest and most influential pre Pentecostal radical holiness movements The Church of God taught that Wesleyan entire sanctification was creating a visible unity of saints that restored the New Testament church of the apostles As the movement grew and experimented with the implications of visible sainthood physical healing miraculous divine healing and the physical perfectionism of health reform became integral to the life and theology of the Church of God shaping everything from proof of membership and evidence of ministerial authority to childrearing practices and acceptable clothing styles Physical healing manifested and embodied the movement's claim that God was healing the universal church the Body of Christ by cleansing individuals from the corruption

of inbred sin By 1902 the prevailing opinion in the Church said that divine healing was an essential aspect of the gospel use of medicine was sinful and every minister had to exhibit the gifts of healing In the early 20th century the Church's theology and practices of healing became increasingly problematic Tragic failures of divine healing epidemics medical advances court trials mandatory inoculations of schoolchildren and general opprobrium combined to prevent a simplistic equation of the Church of God and the church of the apostles By 1925 the Church had reversed its radical anti medicine doctrines Church members continued to affirm that Jesus answered prayers for healing but they no longer claimed to know exactly how he would answer prayers With that loss of certainty healing lost its power to serve as evidence of holiness and its central place in the history of the Church of God
