disability and this book explains how best to accomplish these tasks Then it discusses the process of launching and maintaining the site so that it will continue to work for all its users throughout its life cycle Foundation Website Creation with HTML5 CSS3 and JavaScript concludes by covering server side technologies acting as a guide to the different options available With insights from renowned experts such as Jason Fried of 37signals Daniel Burka of Digg and Pownce and Chris Messina of Citizen Agency Foundation Website Creation with CSS XHTML and JavaScript provides invaluable information applicable to every web project regardless of size scope or budget
