## **Zumas Own Goal Losing South Africas War On Poverty:**

**Poverty and Inequality in Middle Income Countries** Einar Braathen, Julian May, Marianne Ulriksen, Gemma C. Wright, 2016-04-15 This collection offers a timely reassessment of viable ways of addressing poverty across the globe today. The profile of global poverty has changed dramatically over the past decade and around three quarters of the poor now live in middle income countries making inequality a major issue. This requires us to fundamentally rethink anti poverty strategies and policies as many aspects of the established framework for poverty reduction are no longer effective. Featuring contributions from Latin America, Africa and Asia, this much needed collection answers some of the key questions arising as development policy confronts the challenges of poverty and inequality on the global, national and local scale in both urban and rural contexts. Providing poverty researchers and practitioners with valuable new tools to address new forms of poverty in the right way. *Poverty and Inequality in Middle Income Countries* shows how a radical switch from aid to redistribution based social policies is needed to combat new forms of global poverty.

***Domains of Freedom*** Thembela Kepe, Melissa Levin, Bettina von Lieres, 2016-09-12 After more than 20 years of freedom in South Africa we have to ask ourselves difficult questions: are we willing to perpetuate a lie, search for facts or think wishfully? Freedom has been enabled by apartheid's end but at the same time some of apartheid's key institutions and social relations are reproduced under the guise of democracy. This collection of essays acknowledges the enormous expectations placed on the shoulders of the South African revolution to produce an alternative political regime in response to apartheid and global neo liberalism. It does not lament the inability of South Africa's democracy to provide deeper freedoms or suggest that since it hasn't this is some form of betrayal. Freedom is made possible and/or limited by local political choices, contemporary global conditions and the complexities of social change. This book explores the multiplicity of spaces within which the dynamics of social change unfold and the complex ways in which power is produced and reproduced. In this way it seeks to understand the often non linear practices through which alternative possibilities emerge, the lengthy and often indirect ways in which new communities are imagined and new solidarities are built. In this sense this book is not a collection of hope or despair. Nor is it a book that seeks to situate itself between these two poles. Instead it aims to read the present historically critically and politically and to offer insights into the ongoing iterative and often messy struggles for freedom.

**Migration, Precarity, and Global Governance** Carl-Ulrik Schierup, Ronaldo Munck, Branka Likic-Brboric, Anders Neergaard, 2015-02-05 *Migration, Precarity, Global Governance* explores an understudied but central area within contemporary studies of globalisation and precarisation. It relates to the interface between migration, global governance and the role of civil society with particular focus on the dilemmas and options of trade unions too often left off the agenda. The volume suggests that the trade union movement is undergoing a fundamental debate about revitalisation which could play an important role in terms of the economic, political and social integration of migrant workers with implications for the transformation of contemporary societies in general. The volume

adopts an interdisciplinary and comparative approach emphasizing the complexity of historically grounded social relations. It examines international migration as it is impacted by and impacts on globalization, social and political struggles, and the recurring crisis of capitalism. The first part of the book presents five complementary perspectives on the political economy of migration, labour, and citizenship. Part Two offers analyses of the relationship between labour unions and migrant workers. Part Three explores the way trade unions, migrant organisations, and other civil society groupings interact with an incipient global governance regime relating to migration. It also examines issues of state and non-state actors' accountability in relation to human rights claims, as well as the impact of the norm of corporate social responsibility.

**Ruptures in the Afterlife of the Apartheid City** Yousuf Al-Bulushi, 2024-03-29 How are poor people in South Africa confronting the persistent legacy of apartheid spatial segregation and anti-blackness? And what can movements across the world engaged in a global struggle against racial capitalism learn from the South African experience? This book explores the relationship between shack dwellers and the municipal government in South Africa. Grounded in the local realities of the struggle for housing and basic survival, the project makes broader interventions in national, continental, and global debates about urban geography, African studies, social movements, and race. The author argues that the shack settlement is emblematic of a democratic South Africa still profoundly shaped by apartheid's afterlife.

**South Africa's Democracy at the Crossroads** Daniel Silander, Charlotte Silander, Herman van der Elst, Pieter Heydenrych, 2022-04-18 South Africa's democracy faces increasing challenges from within, whether from protest, bad governance, or general public dissatisfaction. **South Africa's Democracy at the Crossroads** explores the question: what are the challenges to future democratization in South Africa?

**The Political Economy of South Africa's Post-apartheid Transition** Benjamin Fine, 2025-05-26 South Africa's post-apartheid transition has proven disastrous. It is marked by the emergence of a black elite of enriched capitalists out of the globalisation, neoliberalisation, and financialisation of the economy in general, and of its Minerals, Energy, and Financial Complex in particular. By contrast, inequalities, poverty, and failing social provision have persisted. Recent attention has shifted to how this disastrous trajectory was initiated, some suggesting a lack of available alternative policy options at the time of transition. This is shown to be false, with a full range of progressive alternatives being rejected with corresponding consequences from state capture to electoral defeat.

**Participation in Community Work** Anne Karin Larsen, Vishanthie Sewpaul, Grete Oline Hole, 2013-09-11 Participation is a key community work method, and this text, written by an international selection of authors, covers innovative approaches in community-based education and practice. Including real-life case studies of participatory practice, it offers new definitions of community work, organisation, and development, and will challenge and inspire all those involved in community work practice and research. Divided into four parts, **Participation in Community Work** begins by exploring theoretical aspects of participation and the co-construction of knowledge, including the ethics of participation. The second part focuses on the potential of participatory learning and action research, with chapters presenting key techniques followed by case studies. The

third part looks at power and participation addressing issues of inclusivity capacity and democracy building and giving examples from a range of research and field projects Finally the fourth part begins the discussion of new and emerging challenges for community work globally This unique book is suitable for students researchers and practitioners interested in participation and community development from a range of disciplines including community work itself through social work and youth work to health promotion

**Accumulations, Crises, Struggles** Baris Karaagac,2013 This book is about the most recent phase or stage of capitalist development neoliberal globalization Neoliberalism as much a political project as an economic one is still pervasive and it continues to provide the general framework for politics and political imagination across most of the globe The book brings together a group of scholars from different parts of the world looking at the impact of neoliberalism on societies And as such it contributes as much to the critique and overcoming of this process as to its analysis With its extensive coverage both geographically and thematically the book will be of interest for students of the social sciences as well as for anyone making an effort to understand and change the world Series Politics Society and Community in a Globalizing World Vol 15

**The South African Gandhi** Ashwin Desai,Goolem Vahed,2015-10-07 A biography detailing Gandhi s twenty year stay in South Africa and his attitudes and behavior in the nation s political context In the pantheon of freedom fighters Mohandas Karamchand Gandhi has pride of place His fame and influence extend far beyond India and are nowhere more significant than in South Africa India gave us a Mohandas we gave them a Mahatma goes a popular South African refrain Contemporary South African leaders including Mandela have consistently lauded him as being part of the epic battle to defeat the racist white regime The South African Gandhi focuses on Gandhi s first leadership experiences and the complicated man they reveal a man who actually supported the British Empire Ashwin Desai and Goolam Vahed unveil a man who throughout his stay on African soil stayed true to Empire while showing a disdain for Africans For Gandhi whites and Indians were bonded by an Aryan bloodline that had no place for the African Gandhi s racism was matched by his class prejudice towards the Indian indentured He persistently claimed that they were ignorant and needed his leadership and he wrote their resistances

and compromises in surviving a brutal labor regime out of history The South African Gandhi writes the indentured and working class back into history The authors show that Gandhi never missed an opportunity to show his loyalty to Empire with a particular penchant for war as a means to do so He served as an Empire stretcher bearer in the Boer War while the British occupied South Africa he demanded guns in the aftermath of the Bhambatha Rebellion and he toured the villages of India during the First World War as recruiter for the Imperial army This meticulously researched book punctures the dominant narrative of Gandhi and uncovers an ambiguous figure whose time on African soil was marked by a desire to seek the integration of Indians minus many basic rights into the white body politic while simultaneously excluding Africans from his moral compass and political ideals Praise for The South African Gandhi In this impressively researched study two South African scholars of Indian background bravely challenge political myth making on both sides of the Indian Ocean that has sought to canonize Gandhi as a founding father of the struggle for equality there They show that the Mahatma to be carefully refrained from calling on his followers to throw in their lot with the black majority The mass struggle he finally led remained an Indian struggle Joseph Lelyveld author of Great Soul Mahatma Gandhi and His Struggle with India This is a wonderful demonstration of meticulously researched evocative clear eyed and fearless history writing It uncovers a story some might even call it a scandal that has remained hidden in plain sight for far too long The South African Gandhi is a big book It is a serious challenge to the way we have been taught to think about Gandhi Arundhati Roy author of The God of Small Things

relation to other movements such as Black Lives Matter have only begun to be explored Black Consciousness has deep connections to the struggle against apartheid The Black Consciousness Reader is an essential collection of history culture philosophy and meaning of Black Consciousness by some of the thinkers artists and activists who developed it in order to finally bring revolution to South Africa A contribution to the world's Black cultural archive it examines how the proper acknowledgement of Blackness brings a greater love a broader sweep of heroes and a wider understanding of intellectual and political influences Although the legendary murdered activist Steve Biko is a strong figure within this history the book documents many other significant international Black Consciousness personalities and focuses a predominantly African eye on Black Consciousness in politics land women power art music and religion Onkgopotse Tiro Vuyelwa Mashalaba Winnie Madikizela Mandela Assata Shakur Marcus Garvey Neville Alexander Thomas Sankara Malcolm X Don Mattera Keorapetse Kgotsile W E B DuBois Walter Rodney Mongane Wally Serote Ready D and Zola are among the many bold minds included in this amalgam of facts ideas and images

**Reforming Land and Resource Use in South Africa** Paul Hebinck, Charlie Shackleton, 2010-11-23 This book debates the emergent proprieties of rural and peri urban South Africa since land and agrarian reforms were initiated after the transition to democracy in 1994 It explores how these reforms have broadened options for the use of land and natural resources Reform minded policies in South Africa have assumed that if access to land and other natural resources is less problematic the use of these resources would be intensified which in turn would alter the structure and dynamic of rural and urban poverty Reforming Land and Resource Use in South Africa examines in detail and from several disciplinary perspectives whether and how this has occurred and if not why not A key argument that this collection pursues is whether land reform has resulted in transformed use of natural i.e land crops cattle rangeland wild products etc and other strategic resources labour knowledge institutions networks etc and the value communities and household place on them The contributions explore a combination of new or alternative meanings of land including a look beyond crops and cattle per se to include the collection and selling of wild products as well as a discussion of how land for agriculture has become redefined by land reform beneficiaries as urban land for settlement and urban employment opportunities in addition to urban based agricultural activities Unlike most analyses and commentaries on land reform this book pursues an analysis of land reform dynamics at various levels of aggregation National and regional level analyses of poverty and the ramifications of the property clause are combined with analyses at disaggregate levels such as the land reform project or village The book will be of interest to both researchers and policy makers with an interest in rural development and social change
