Nelson, 2024-10-28 Written over nearly three decades the fifteen essays involve the three aspects of the title art agency and appreciation The first refers to the general subject matter of the book Byzantine art chiefly painting of the twelfth through the fourteenth centuries the second to its often human like agency and the last to its historical reception Responding to different issues and perspectives that have animated art history and Byzantine studies in recent decades the essays have wide theoretical range from art historical formalism iconography archaeology and its manuscript equivalent codicology to statistics patronage narratology and the histories of science and collecting The series begins with art works themselves and with the imagery and iconography of church decoration and manuscript illumination shifts to the ways that objects act in the world and affect their beholders and concludes with more general appreciations of Byzantine art in case studies from the thirteenth century to the present

Approaches to Byzantine Architecture and its Decoration Mark J. Johnson, Amy Papalexandrou, 2016-12-05 The fourteen essays in this collection demonstrate a wide variety of approaches to the study of Byzantine architecture and its decoration a reflection of both newer trends and traditional scholarship in the field The variety is also a reflection of Professor Curcic's wide interests which he shares with his students These include the analysis of recent archaeological

discoveries recovery of lost monuments through archival research and onsite examination of material remains reconsidering traditional typological approaches often ignored in current scholarship fresh interpretations of architectural features and designs contextualization of monuments within the landscape tracing historiographic trends and mining neglected written sources for motives of patronage The papers also range broadly in terms of chronology and geography from the Early Christian through the post Byzantine period and from Italy to Armenia Three papers examine Early Christian monuments and of these two expand the inquiry into their architectural afterlives Others discuss later monuments in Byzantine territory and monuments in territories related to Byzantium such as Serbia Armenia and Norman Italy No Orthodox church being complete without interior decoration two papers discuss issues connected to frescoes in late medieval Balkan churches Finally one study investigates the continued influence of Byzantine palace architecture long after the fall of Constantinople

Byzantine Art Robin Cormack, 2018-03-10 The opulence of Byzantine art with its extravagant use of gold and silver is well known Highly skilled artists created powerful representations reflecting and promoting this society and its values in icons illuminated manuscripts and mosaics and wallpaintings placed in domed churches and public buildings This complete introduction to the whole period and range of Byzantine art combines immense breadth with interesting historical detail Robin Cormack overturns the myth that Byzantine art remained constant from the inauguration of Constantinople its artistic centre in the year 330 until the fall of the city to the Ottomans in 1453 He shows how the many political and religious upheavals of this period produced a wide range of styles and developments in art This updated colour edition includes new discoveries a revised bibliography and in a new epilogue a rethinking of Byzantine Art for the present day *Glass, Wax and Metal: Lighting Technologies in Late Antique, Byzantine and Medieval Times* Ioannis Motsianos, Karen S. Garnett, 2019-07-31 This volume provides an extensive look at the technological development of lighting and lighting devices during Late Antiquity and the Middle Ages in Western Europe and Byzantium 29 papers are gathered from two International Lychnological Association ILA Round Tables held in Olten Switzerland 2007 and Thessaloniki Greece 2011 **Byzantine Fortifications** Nikos D. Kontogiannis, 2022-06-02 This wide ranging study examines the Byzantine Empire's network of military fortifications from the Aegean to Asia Minor and Africa The Byzantine empire was one of the most powerful forces in the Mediterranean and Near East for over a thousand years Strong military organization anchored by widespread fortifications was essential for its defense yet this aspect of its history is often neglected Historian Nikos Kontogiannis corrects this oversight with this ambitious account of Byzantine fortifications detailing their construction and development as well as their role in times of war Byzantine Fortifications combines the results of decades of wide ranging archaeological work with an account of the armies weapons tactics and defensive strategies of the empire throughout its long history Fortifications built in every region of the empire are covered from those in Mesopotamia Syria and Africa to those in Asia Minor the Aegean and the Balkan peninsula **Image Making in Byzantium, Sasanian Persia and the Early Muslim**

World Anthony Cutler,2023-05-31 Relations between Byzantium and its neighbours are the focus of this volume The papers address questions of cultural exchange with special attention to art historical relations as shown by technical iconographic and diplomatic exchanges While addressed to specialists both their approach and the language make these papers accessible to students at all levels Pottery, Pavements, and Paradise Annewies van den Hoek,John Joseph Herrmann,2013-09-26 These essays on late antiquity traverse a territory in which Christian and pagan imagery and practices compete coexist and intermingle The iconography of the most significant late antique ceramic African Red Slip Ware is an important and relatively unexploited vehicle for documenting the diversity and interpenetration of late antique cultures Literary texts and art in other media particularly mosaics provide imagery that complement and enhance the messages of the ceramics Popular entertainments pagan cults mythic heroes beasts monsters and biblical visions are themes dealt with on the patrician and popular levels With interpretive supplements from these diverse realms it is possible to achieve greater insight into the life attitudes and thought of Late Antiquity **Visualizing Christ's Miracles in Late Byzantium** Maria Alessia Rossi,2024-06-27 Investigates the political and spiritual agenda behind monumental paintings of Christ s miracles in late Byzantine churches
