Why Love Matters How Affection Shapes A Babys Brain:

Why Love Matters Sue Gerhardt, 2004-06-24 *Why Love Matters* explains why love is essential to brain development in the early years of life particularly to the development of our social and emotional brain systems and presents the startling discoveries that provide the answers to how our emotional lives work Sue Gerhardt considers how the earliest relationship shapes the baby's nervous system with lasting consequences and how our adult life is influenced by infancy despite our inability to remember babyhood She shows how the development of the brain can affect future emotional well being and goes on to look at specific early pathways that can affect the way we respond to stress and lead to conditions such as anorexia addiction and anti social behaviour *Why Love Matters* is a lively and very accessible interpretation of the latest findings in neuroscience psychology psychoanalysis and biochemistry It will be invaluable to psychotherapists and psychoanalysts mental health professionals parents and all those concerned with the central importance of brain development in relation to many later adult difficulties

Why Love Matters Sue Gerhardt, 2014-10-24 *Why Love Matters* explains why loving relationships are essential to brain development in the early years and how these early interactions can have lasting consequences for future emotional and physical health This second edition follows on from the success of the first updating the scientific research covering recent findings in genetics and the mind body connection and including a new chapter highlighting our growing understanding of the part also played by pregnancy in shaping a baby's future emotional and physical well being The author focuses in particular on the wide ranging effects of early stress on a baby or toddler's developing nervous system When things go wrong with relationships in early life the dependent child has to adapt what we now know is that his or her brain adapts too The brain's emotion and immune systems are particularly affected by early stress and can become less effective This makes the child more vulnerable to a range of later difficulties such as depression anti social behaviour addictions or anorexia as well as physical illness

[Love Matters For Psychic Transformation](#) Maja Reinau, 2016-02-16 *Love Matters for Psychic Transformation* is woven by a profound respect and love for the soul and the transformative powers of the Body Psyche It is an exploration of the embodied psychic transformation in the specific context of the BodySoul Rhythms work BSR developed by Ann Skinner Mary Hamilton and Marion Woodman In describing the BSR work interviewing six women about their experiences and linking the BSR approach with the new neuroscience developmental psychology change in therapy attachment theory and relational trauma Dr Reinau

brings to light all that the BSR approach has to offer It is with relief and pleasure that I write this endorsement Relief comes because someone with clarity accuracy and care has outlined the consonants of the work of BSR Pleasure because the vowels of the work have been explored in an authentic voice from an open heart with a keen intelligence and from several well studied points of view Once again Maja Reinau has put on her diving costume gone down and this time surfaced with the pearl Love Matters in Psychic Transformation Thank you Maja Ann Skinner co creator of Body Soul Rhythms Love Matters For Psychic Transformation is a gift to the many women who have benefited from the BSR work Dr Reinau is able to delve deeply into the methodology of BodySoul work without destroying the mystery It is a treasure of information for those who seek this way of transformation in their lives The interviews deepen the mystery as well as the understanding of the work Dr Reinau s ability to link BodySoul experience to early developmental theories and to neuroscience provides the path to her conclusion that it is all about love A conclusion with which I am sure Marion Woodman would agree Everyone who seriously considers understanding BodySoul work should read Love Matters for Psychic Transformation Patricia C Patrick M A M D Child Adolescent and Adults Psychiatrist The Marion Woodman BodySoul Rhythms Leadership Training Board Member Marion Woodman Foundation Teaching Member Sand Play Therapist Association

A Country Called Childhood Jay Griffiths,2015-11-10 While traveling the world in order to write her award winning book Wild Jay Griffiths became increasingly aware of the huge differences in how childhood is experienced in various cultures One central riddle in particular captured her imagination why are so many children in Euro American cultures unhappy and why is it that children in traditional cultures seem happier In A Country Called Childhood Griffiths seeks to discover why we deny our children the freedoms of space time and the natural world Visiting communities as far apart as West Papua and the Arctic as well as the UK and delving into history philosophy language and literature she explores how children s affinity for nature is an essential and universal element of childhood It is a journey deep into the heart of what it means to be a child and it is central to all our experiences young and old
