The Church: A Guide for the Perplexed Matt Jenson, David E.

Wilhite, 2010-08-12 An upper level introduction to the Christian doctrine of the Church This book is a rigorous comprehensive introduction to the doctrine of the Church by taking the tack of walking readers through the internal logic of ecclesiology Rather than simply offering a compendium of perspectives on each issue that arises the authors seek to teach and model thinking theologically with the grain of scripture and ecclesial reflection about the Church The chapters are peppered with two to three excurses per chapter which consider a particularly pertinent issue that arises from the doctrine s development e g the move from Jesus to the Church schism and the rise of denominations sacramental mediation or contemporary concerns e g the question of other religions contemporary ecumenical questions the emerging church While the overall tone and content of the book articulate and invite discussion on the problematics of ecclesiology these excurses will provide ample opportunity to examine and where appropriate untangle ecclesiological knots Continuum s Guides for the Perplexed are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging or indeed downright bewildering Concentrating specifically on what it is that makes the subject difficult to grasp these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material

Women Deacons and Deaconesses Charles W. Deweese, 2005 Divided opinion on the topic of this book has caused controversy in Baptist history and life Most Baptist individuals and churches have strongly opposed women deacons Some Baptist associations have even disfellowshipped churches that have approved women deacons And women in general have been suppressed by many recent actions of the Southern Baptist Convention thereby affecting women deacons However thousands of Baptist churches include women in their deacon bodies and find that they make invaluable contributions The book presents arguments on both sides of the topic but lands squarely in support of women deacons

National Catholic Reporter at Fifty Arthur Jones, 2014-08-14 National Catholic Reporter at Fifty tells the story of the award winning Catholic paper the National

Catholic Reporter NCR in the lead up to NCR's 50th anniversary in October 2014. Founded during the Second Vatican Council, NCR has been a powerful progressive voice in the Catholic Church and has broken a number of challenging stories: first covering the nationwide clerical pedophilia crisis, publishing the secret Papal Birth Control Commission report that recommended ending the ban on birth control which Pope Paul VI overrode, and the scandal that African priests were seducing or raping nuns because they were AIDS free on a continent that wasn't. National Catholic Reporter at Fifty takes readers through NCR's highs and lows with a focus on its important editors and key themes: race and poverty, peace, foreign policy, women's issues, sexuality, and the church papacy.

Does Christ Matter? Timothy Kinahan, Brian Lennon, 2017-01-10

This book is a dialogue between members of two Irish Churches. Although their communities in N Ireland are divided, the authors have worked together for over 40 years on issues of theology, conflict, reconciliation, and the relevance of Christ in a pluralist society. The book starts with a fresh look at Christ's life and teaching in the Gospels, asking critically about its relevance to today's world. With this as a base, they then engage in a critique of their own churches against the standard set by the Gospels that Christian churches should reflect the love of the Three persons in God for God and for all human beings. They ask and suggest answers to the question why Churches are relevant to tough questions of conflict, politics, and social issues. The book is of particular relevance to people who no longer accept soft theologies that ignore tough questions about the existence of God or who can find no connections between churches and their own search for meaning individually and communally. The book is written in popular language but draws on a wealth of diverse experience and learning.

Ordaining Women Mark Chaves, 1999

Why does a denomination prohibiting women clergy support parishes run by women? Why does a denomination opt to ordain women when there are few women seeking to join that clergy? And why have some denominations ordained women so much earlier than others? In a revealing examination of the complex relationship among religion, social forces, and organizational structure, *Ordaining Women* draws examples and data from over 100 Christian denominations to explore the meaning of institutional rules about women's ordination. Combining historical and sociological perspectives, Mark Chaves deftly shows that formal institutional rules about ordination often diverge from the actual roles of women and are best understood as symbolic gestures in favor of or in opposition to gender equality. *Ordaining Women* concludes that external pressures from the women's movement and ecumenical pressure expressed through interdenominational organizations such as the National Council of Churches influence ordination practices. At the same time, internal factors such as having a source of religious authority that is considered superior to modern principles of equal rights also explain why some denominations ordain women much earlier than others. Surprisingly, the Bible forbids it; it does not account for policies even among fundamentalists and other biblical inerrantists. Chaves' historical and comparative approach offers a revealing analysis of how the internal denominational debates have changed over time, becoming more frequent, more politicized, and more contentious. The skillful delineation of forces affecting debates and policies about women's ordination makes this book

an important contribution to our understanding of religious organizations and of gender equality

Postsecular Catholicism Michele Dillon, 2018-03-01 The Catholic Church faces the challenge of maintaining its relevance in an increasingly secularized society On issues ranging from sexuality and gender equality to economic policy and social welfare the church hierarchy is frequently out of step with Catholics and non Catholics alike In *Postsecular Catholicism* Michele Dillon argues that the Church's relevance is increasingly contingent on its ability to incorporate secular experiences and expectations into the articulation of the Church's teachings Informed by the postsecular notion that religious and secular actors should recognize their mutual relevance in contemporary society Dillon examines how secular realities and church doctrine intersect in American Catholicism She shows that the Church's 21st century commitment to institutional renewal has been amplified by Pope Francis's vision of public Catholicism and his accessible language and intellectual humility Combining wide ranging survey data with a rigorous examination of Francis's statements on economic inequality climate change LGBT rights and women's ordination the highly consequential Vatican Synod on the Family and the US Bishops religious freedom campaign *Postsecular Catholicism* assesses the initiatives and strategies impacting the Church's relevance in the contemporary world

She Preached the Word Benjamin R. Knoll, Cammie Jo Bolin, 2018-06-01 *She Preached the Word* offers a timely and comprehensive examination of support for women's ordination in America's congregations and the effect of female clergy on those in the pews It is an essential contribution to our understanding of the intersection of gender religion and politics in contemporary American society
