

COMPREHENSION

Read the passage carefully and answer the questions that follow.

The Amazing Woodpecker

The woodpecker is an interesting and amazing bird. It has a strong, pointed beak that acts as a hammer to remove bark from trees and find insects to eat. It has a very long tongue, up to four inches long, that is sticky on the tip for catching insects. Woodpeckers can be found all over the world, except in Australia.

The life span of a woodpecker is 4 to 11 years. Their favourite foods are insects, fruits, acorns and nuts. These awesome birds live in forests and wooded areas with lots of trees.

1) Why is the woodpecker tongue sticky?

2) What is the lifespan of the woodpecker?

Woodland Comprehension 7 Years:

Comprehension and Written Expression Year 6 Alan Horsfield, 1988 Excel Comprehension and Written Expression Year 6 is essential for any student wishing to improve their comprehension skills. It allows students to practice skills such as finding facts, making references, isolating relevant information, understanding questions and paragraphs, and using tables of contents, indexes, maps, and graphs to find information. The extracts are from a wide variety of genres to allow students to gain confidence in reading different materials. Rather than give a range of question types based on each passage, the focus in this book will be on developing the student's skills with a particular question type. The book is structured so that if there is a weakness, then the student can concentrate on that particular weakness and become competent without working through passages that may not contribute to the student's progress. In this book, your child will find over 60 graded units of stimulating exercises and extracts, a wide variety of questions including true or false, multiple choice, short answer, and sentence completion, extracts from many different literary and factual text types, a lift-out answer section.
