A Weberian Perspective on Home, Nature and Sport Michael Symonds, 2024-05-30 This book extends Max Weber's theory of the value spheres of modernity into wholly new areas showing that the addition of home nature and sport to Weber's own list of five spheres economic scientific intellectual political legal erotic and aesthetic yields original insights into these aspects of modernity and modernity itself It shows how each of these new spheres is able to create its own inner cosmos of salvation from rationalised senselessness just as Weber's irrational spheres offer release from the grim reality of capitalism the disenchanted universe and the bureaucratic state formed by the more rationalised spheres Drawing on a wide cross disciplinary range of sources the author sheds light on the role of home in creating a sense of our enchanted past of nature in helping to restore to the world a teleological meaning constructed from innocence and purity and of sport in imposing sense on the world at least temporarily A Weberian Perspective on Home Nature and Sport Disenchantment and Salvation will appeal to scholars of sociology and social theory with interests in classical sociological theory and the analysis of modernity

Chicorel Index to Poetry in Anthologies and

Collections in Print Marietta Chicorel,1975 **Those Who Write for Immortality** H. J. Jackson,2015-03-01 Great writers of the past whose works we still read and love will be read forever They will survive the test of time We remember authors of true genius because their writings are simply the best Or might there be other reasons that account for an author s literary fate This original book takes a fresh look at our beliefs about literary fame by examining how it actually comes about H J Jackson wrestles with entrenched notions about recognizing genius and the test of time by comparing the reputations of a dozen writers of the Romantic period some famous some forgotten Why are we still reading Jane Austen but not Mary Brunton when readers in their own day sometimes couldn t tell their works apart Why Keats and not Barry Cornwall who came from the same circle of writers and had the same mentor Why not that mentor Leigh Hunt himself Jackson offers new and unorthodox accounts of the coming to fame of some of Britain s most revered authors and compares their reputations and afterlives with those of their contemporary rivals What she discovers about trends champions institutional power and writers conscious efforts to position themselves for posterity casts fresh light on the actual processes that lead to literary fame *Chicorel Index to Poetry in Anthologies and Collections in Print: A-Ex* Marietta Chicorel,1974 Understanding Death as Life's Paradox Brayton Polka,2019-04-30 This book focuses on death as life s paradox in order to test to put on trial what it means for us human beings to exist No one of us chooses to be born Yet having been born we must choose to have been born to live to exist To exist is to choose to exist To choose to exist is to live with our choices This text argues that death is the limit of life that we can live freely and lovingly at once justly and compassionately solely within the limit of death It shows that we can develop a comprehensive conception of life and also of death solely insofar as we learn to overcome the dualistic opposition between philosophy and theology that continues today to falsify our understanding of not only the secular but also the sacred
