Global Education Monitoring Report Global Education Monitoring Report Team, UNESCO, 2021-12-31 Non state actors role extends beyond provision of schooling to interventions at various education levels and influence spheres Alongside its review of progress towards SDG 4 including emerging evidence

on the COVID 19 pandemic's impact the 2021 2 Global Education Monitoring Report urges governments to see all institutions students and teachers as part of a single system Standards information incentives and accountability should help governments protect respect and fulfil the right to education of all without turning their eyes away from privilege or exploitation Publicly funded education does not have to be publicly provided but disparity in education processes student outcomes and teacher working conditions must be addressed Efficiency and innovation rather than being commercial secrets should be diffused and practised by all To that end transparency and integrity in the public education policy process need to be maintained to block vested interests The report's rallying call Who chooses Who loses invites policymakers to question relationships with non state actors in terms of fundamental choices between equity and freedom of choice between encouraging initiative and setting standards between groups of varying means and needs between immediate commitments under SDG 4 and those to be progressively realized e g post secondary education and between education and other social sectors

The Skills Balancing Act in Sub-Saharan Africa Omar Arias, David K. Evans, Indhira Santos, 2019-01-31 Despite strong recent economic growth Sub Saharan Africa has levels of economic transformation poverty reduction and skill development far below those of other regions Smart investments in developing skills aligned with the policy goals of productivity growth inclusion and adaptability can help to accelerate the region's economic transformation in the 21st century Sub Saharan Africa's growing working age population presents a major opportunity to increase shared prosperity Countries in the region have invested heavily in building skills public expenditure on education increased sevenfold over the past 30 years and more children are in school today than ever before Yet systems for building skills in this population have fallen short and these shortcomings significantly impede economic prospects In half of the countries fewer than two in every three children complete primary school even fewer reach and complete higher levels of education Learning outcomes have been persistently poor leading to substantial gaps in basic cognitive skills literacy and numeracy among children young people and adults The literacy rate of the adult population is below 50 percent in many countries functional literacy and numeracy rates are even lower Systemwide change is required to achieve significant progress Multiple agencies at the central and local levels are involved in skills development strategies making skills everyone's problem but no one's responsibility Policies and reforms need to build capacity for evidence based policies and create incentives to align the behaviors of all stakeholders with the pursuit of national skills development goals The Skills Balancing Act in Sub Saharan Africa Investing in Skills for Productivity Inclusivity and Adaptability lays out evidence to inform the policy choices that countries will make in skill investments Each chapter addresses a set of specific questions drawing on original analysis and synthesis of existing studies to explore key areas How the skills appropriate to each stage of the life cycle are acquired and what market and institutional failures affect skills formation What systems are needed for individuals to access these skills including family investments private sector institutions schools and other public programs How those systems can be strengthened How the most vulnerable individuals

those who fall outside the standard systems and have missed critical building blocks in skills acquisition can be supported. Countries will face trade offs, often stark ones that will have distributional impacts and a bearing on their development path. Committed leaders, reform coalitions and well coordinated policies are essential for taking on the skills balancing act in Sub-Saharan Africa.

Indigenous African Enterprise Ogechi Adeola, 2020-12-14 This book examines an indigenous Africa centric business model practised by the Igbos of south eastern Nigeria for decades. The unique framework and rules of operation collectively referred to as the Igbo Traditional Business School (ITBS) in this book is underpinned by the Igbo apprenticeship.

Development Centre Studies Tackling Vulnerability in the Informal Economy OECD, International Labour Organization, 2019-05-21 A majority of workers in the world are informally employed and contribute to economic and social development through market and non market activities that are not protected, regulated, well recognised or valued. This study provides an in depth diagnosis of informality and the vulnerability prevailing in the informal economy. It explores new ideas to improve the lives of workers in the informal economy based on the ILO indicators of informality and the new OECD Key Indicators of Informality based on Individuals and their Household (KIIbIH).

New Models for Technical and Vocational Education and Training Makgato, Moses, Afeti, George, 2020-12-18 Technical and vocational education and training at technical schools are major contributing factors in combating poverty, unemployment and inequality. The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace. As the Fourth Industrial Revolution continues to create more radical changes in the labor market, experts are calling for a reform of education including vocational education and training and adult and professional education. *New Models for Technical and Vocational Education and Training* is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students' chances of employability and entrepreneurship in Industry 4.0. The book explores knowledge in respect to workforce preparation, digital skills development, teaching and learning of TVET, flexibility and articulation of TVET to respond to work integrated learning and reskilling and upskilling to avoid skill mismatches. It is ideal for TVET schools, academicians, curriculum designers, managers, training officers, administrators, vocational professionals, researchers and students.

Social Justice and Culturally-Affirming Education in K-12 Settings Chitiyo, Jonathan, Pietrantonio, Zachary, 2023-01-27 Social justice is a philosophy that has gathered momentum over the past few years to bring to light the inequities that exist within our society. In the field of education, social justice illuminates the challenges that marginalized students and minority students face compared to other students. *Social Justice and Culturally Affirming Education in K-12 Settings* seeks to bring together social scientists, researchers and other practitioners to delve into social justice issues in K-12 settings and considers the various challenges and future directions that are associated with this field. Covering key topics such as inclusive education, educational reform and school policies, this reference work is ideal for administrators, policymakers, researchers, academicians

practitioners scholars instructors and students **Integrated Space for African Society** Annette Froehlich, 2019-09-18
 This book provides an overview of the space sector in African countries from a legal and policy point of view analysing how the African Union's Space Policy and Strategy ASPS is implemented and highlighting the various space activities in each country. Against this backdrop it investigates the ASPS identifying its policy goals identified and discussing its strategy. Moreover it explores the on going regional cooperation programmes the continent's leading space actors and their roles and the space related regional fora and organizations reflecting on various initiatives including the African Leadership Conference on Space Science and Technology for Sustainable Development ALC the Regional African Satellite Communications Organisation RASCOM and the African Resource Management Satellite Constellation ARMS C. As such it is a valuable source of information on space capacities in African countries. *Bridging the Academia Industry Divide* Wilson R. Nyemba, Charles Mbohwa, Keith F. Carter, 2021-05-12
 This book is the result of years of research following a realization of the mismatch of engineering skills produced by universities and those that industry required based on the situation in Sub Saharan Africa equally applicable to other regions in Africa and indeed worldwide. The book is meant to assist engineering academics and engineers in industry to build capacity and cope with the dynamic trends in technology brought on by the 4th Industrial Revolution and to prepare for the 5th Industrial Revolution an era predicted to be dominated by critical and system thinkers with creative and innovative skills as basic necessities. The book is also useful for policy making researchers in academia industrial and public sector researchers and implementers in governments that provide required funding for the development of human resources and skills. The book primarily consists of the novel research and innovation approaches of modelling and building systems thinking sub models which were ultimately integrated into the Universal Systems Thinking UST model aimed at improving the quality of engineers and engineering practice. The initiatives in this book include strategies for bridging the gap between industry and academia through systems thinking research. The book provides information on how to model simulate adjust and implement integrated systems thinking approaches to engineering education and training for capacity building and sustainability. The book also covers approaches to address research gaps and mismatch of skills while capitalizing on the successes of several projects carried out and supported by the Royal Academy of Engineering over the years. *Out-of-School Youth in Sub-Saharan Africa* Keiko Inoue, Emanuela di Gropello, Yesim Sayin Taylor, James Gresham, 2015-03-17
 The economic and social prospects are daunting for the 89 million out of school youth who comprise nearly half of all youth in Sub Saharan Africa. Within the next decade when this cohort becomes the core of the labor market an estimated 40 million more youth will drop out and will face an uncertain future with limited work and life skills. Furthermore out of school youth often are policy orphans positioned between sectors with little data low implementation capacity lack of interest in long term sustainability of programs insufficient funds and little coordination across the different government agencies. This report provides a diagnostic analysis of the state of out of school youth in Sub

Saharan Africa focusing on the 12 to 24 year old cohort This report also examines the decision path youth take as they progress through the education system and the factors that explain youth s school and work choices It finds that individual and household characteristics social norms and characteristics of the school system all matter in understanding why youth drop out and remain out of school In particular six key factors characterize out of school youth i most out of school youth drop out before secondary school ii early marriage for female youth and iii rural residence increase the likelihood of being out of school iv parental education level and v the number of working adults are important household factors and vi lack of school access and low educational quality are binding supply side constraints Policy discussions on out of school youth are framed by these six key factors along with three entry points for intervention retention remediation and integration This report also reviews policies and programs in place for out of school youth across the continent Ultimately this report aims to inform public discussion policy formulation and development practitioners actions working with youth in Sub Saharan Africa

The Role of Education in Enabling the Sustainable Development Agenda Stephanie E.L. Bengtsson,Bilal Barakat,Raya Muttarak,2018-03-05 The Role of Education in Enabling the Sustainable Development Agenda explores the relationship between education and other key sectors of development in the context of the new global Sustainable Development Goals

SDG agenda While it is widely understood that there is a positive relationship between education and other dimensions of development and populations around the world show a clear desire for more and better education education remains an under financed and under prioritised sector within development When education does make it onto the agenda investment is usually diverted towards increasing access to formal schooling without focusing on the intrinsic value of education as a tool for development within the international development community more broadly The authors explore these tensions through a review of literature from a range of disciplines providing a clearer picture of the relationship between education and other development sectors The book challenges silo thinking in the SDGs by exploring how achieving the SDG education targets can be expected to support or hinder progress towards other targets and vice versa Drawing on examples from both low and high income countries the book demonstrates how good education functions as an enabling right impacting positively on many other areas The book's scope ranges across education and development studies economics geography sociology and environmental studies and will be of interest to any researchers and students with an interest in education and the SDGs

African Economic Outlook 2017 Entrepreneurship and Industrialisation African Development Bank, OECD, United Nations Development Programme, 2017-05-22 The African Economic Outlook 2017 presents the continent's current state of affairs and forecasts its situation for the coming two years

Hope Deferred Peter Orner, Annie Holmes, 2015-10-01 The situation in Zimbabwe represents one of the worst humanitarian emergencies today This book asks the question How did a country with so much promise a stellar education system a growing middle class a sophisticated economic infrastructure a liberal constitution an independent judiciary and many of the trappings of Western democracy go so wrong In their own words Zimbabweans recount their experiences of losing their homes land livelihoods and families as a direct result of political violence They describe being tortured in detention firebombed at work or beaten up or raped to punish votes for the opposition Those forced to flee to neighboring countries recount their escapes cutting through fences swimming across crocodile infested rivers and entrusting themselves to human smugglers This book includes Zimbabweans of every age class and political conviction from farm laborers to academics doctors to artists opposition leaders to ordinary Zimbabweans men and women simply trying to survive as a once thriving nation heads for collapse

The Struggle for Health David Sanders, 2023-02-27 The first edition of *The Struggle for Health* was published in 1985 and was widely acclaimed by those seeking a broader and deeper political understanding of ill health beyond the medical model of care It was a revolutionary book charting new ways of understanding and tackling the causes of ill health and suggesting strategies to enable health for all This second edition includes health problems that have emerged since the 1980s notably HIV AIDs COVID 19 and other epidemics and the increase in non communicable diseases such as cardiovascular disease and diabetes It examines some of the health impacts of globalization specifically on the food and pharmaceutical value chains and considers the consequences of climate change on the health of populations However this edition does not depart from the core message of the original

book Health for All can only be achieved through a more equitable distribution of wealth resources and power The Struggle for Health Second Edition utilises the same approach as the first with a narrative that begins with diseases then describes historical trends and the limitation of the medical and commercial model of care At each juncture it asks the question WHY why do people especially children still die in large numbers throughout the world from wholly preventable diseases Why is it that appropriate provision for health care is not available to every individual in the world What changes can be made to improve this situation Most importantly this edition presents a strengthened call to action building upon the original work and advocating for systemic changes to ensure justice and equity in health for all Counseling Around the World Thomas H. Hohenshil, Norman E. Amundson, Spencer G. Niles, 2015-01-12 This fascinating book provides a global exchange of information about counseling activities and services counselor training and existing professional practices beliefs and values Native counselors and leading experts from 40 countries discuss the opportunities for growth in their countries and the challenges they face After an introductory section that discusses global diversity themes and issues chapters focus on key countries in Africa Asia Europe the Middle East North America Oceania and South and Central America Each chapter covers the history and current state of counseling in the country theories and techniques that have been shown to work best in meeting the needs of the population diversity issues specific to the region counselor education and training and possibilities for the future of counseling in the country A comprehensive list of international resources and counseling organizations is also included Requests for digital versions from ACA can be found on www.wiley.com To purchase print copies please visit the ACA website Reproduction requests for material from books published by ACA should be directed to publications@counseling.org
