Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa

Teshager Alemu, Kassa Abebe Alebachew, Mulunesh, 2018-02-09. Despite increasing reports across the globe on renewable development and maintenance, little is known regarding what strategies are required for improved economic growth and prosperity in Africa. Improving an understanding of the methods for promoting growth through reusable resource development and administration is a vital topic of research to consider in assisting the continent's development. The Handbook of Research on Sustainable Development and Governance Strategies for Economic Growth in Africa provides emerging research on the strategies required to promote growth in Africa as well as the implications and issues of the expansion of prosperity. While highlighting sustainable education, pastoral development pathways, and the public sector role, readers will learn about the history of sustainable development and governmental approaches to improving Africa's economy. This publication is a vital resource for policy makers, research institutions, academics, researchers, and advanced level students seeking current research on the theories and applications of development in societal and legal institutions. **New**

General Knowledge Today 5 S K GUPTA, New General Knowledge Today is a series of 9 books for classes pre-primary to 8. This revised series has been designed to make classroom learning more interesting and interactive, and the child is tuned in to the latest developments around the world. Integral Green Zimbabwe Elizabeth Mamukwa, Ronnie Lessem, Alexander Schieffer, 2016-05-23.

Integral Green Zimbabwe: An African Phoenix Rising by Ronnie Lessem, Alexander Schieffer, and Liz Mamukwa is the first book in the Integral Green Society and Economy series, a series which has three overarching aims. The first aim is to link together two major movements of our time: one philosophical, the other practical. The philosophical movement is towards what many today are calling an integral age, while the practical is the green movement, duly aligned with that of sustainable development. The second is to blend together elements of nature and community, culture, and spirituality, science and technology, politics and economics, thus serving to bring about an integral green vision, albeit with a focus on business and economics. As such, the authors transcend the limitations to sustainable development and environmental economics, which are overly ecological if not also technological in orientation and exclude social and cultural elements. Thirdly, this particular volume focuses specifically on Zimbabwe as well as Southern Africa, drawing on the particular issues and capacities that this country and region represents. The emphasis on Zimbabwe and Southern Africa transpired not only because two of the editors, Lessem and Mamukwa, are Zimbabwean in origin, but because Zimbabwe is

today like a phoenix rising from the ashes and has the opportunity to recreate itself anew Integral Green Zimbabwe Dr Alexander Schieffer, Ms Liz Mamukwa, Professor Ronnie Lessem, 2014-12-28 Integral Green Zimbabwe An African Phoenix Rising by Ronnie Lessem Alexander Schieffer and Liz Mamukwa is the first book in the Integral Green Society and Economy series a series which has three overarching aims The first aim is to link together two major movements of our time one philosophical the other practical The philosophical movement is towards what many today are calling an integral age while the practical is the green movement duly aligned with that of sustainable development The second is to blend together elements of nature and community culture and spirituality science and technology politics and economics thus serving to bring about an integral green vision albeit with a focus on business and economics As such the authors transcend the limitations to sustainable development and environmental economics which are overly ecological if not also technological in orientation and exclude social and cultural elements Thirdly this particular volume focuses specifically on Zimbabwe as well as Southern Africa drawing on the particular issues and capacities that this country and region represents The emphasis on Zimbabwe and Southern Africa transpired not only because two of the editors Lessem and Mamukwa are Zimbabwean in origin but because Zimbabwe is today like a phoenix rising from the ashes and has the opportunity to recreate itself anew

downtrodden people across the world has been begging Going back to the ancient Christian biblical times up to the present epoch as well as across varying spatial settings in situations of trouble and tribulations parts of various communities have resorted to beggary to either overcome immediate adversities or longer term calamities Drawing on insights from two polar theoretical lenses of Social Constructionism and Social Deconstructionism and guided by a pithy study of the begging across the African continent especially by Zimbabweans this book troubles the various contours related to the subject of begging Inter alia the book considers the concept of begging the causes of the prevalence of begging across the world and particularly among Zimbabweans the challenges and benefits associated with the pursuit of alms the impact of begging in foreign lands as well as some of the strategies that beggars employ to maximize their collections and or profits What can be discerned from the book is that for many begging is one of the last resort undertakings with low pickings However from a utilitarian perspective begging has helped to sustain the impoverished livelihoods of Zimbabweans both inside and outside the borders of the country since the advent of a debilitating crisis experienced from the turn of the new millennium On the whole this book seeks to provoke further researches on an important socio economic area that affects many African communities but has so far been scantily researched The book is handy for students and practitioners in economic history African studies economics risk and disaster management social anthropology political science and development studies
