Unformulated Experience From Dissociation To Imagination In Psychoanalysis Relational Perspectives Series:

Unformulated Experience Donnel B. Stern, 2013-06-17 In this powerful and wonderfully accessible meditation on psychoanalysis hermeneutics and social constructivism Donnel Stern explores the relationship between two fundamental kinds of experience explicit verbal reflection and unformulated experience or experience we have not yet reflected on and put into words Stern is especially concerned with the process by which we come to formulate the unformulated It is not an instrumental task he holds but one that requires openness and curiosity the result of the process is not accuracy alone but experience that is deeply felt and fully imagined Stern's sense of explicit verbal experience as continuously constructed and emergent leads to a central dialectic at the heart of his work that between curiosity and imagination on one hand and dissociation and unthinking acceptance of the familiar on the other The goal of psychoanalytic work he holds is the freedom to be curious whereas defense signifies the denial of this freedom We defend against our fear of what we would think that is if we allowed ourselves the freedom to think it Stern also shows how the unconscious itself can be reconceptualized hermeneutically and he goes on to explore the implications of this viewpoint on interpretation and countertransference He is especially persuasive in showing how the interpersonal field which is continuously in flux limits the experience that it is possible for participants to reflect on Thus it is that analyst and patient are together caught in the grip of the field often unable to see the kind of relatedness in which they are mutually involved A brilliant demonstration of the clinical consequentiality of hermeneutic thinking *Unformulated Experience* bears out Stern's belief that psychoanalysis is as much about the revelation of the new in experience as it is about the discovery of the old

Partners in Thought Donnel B. Stern, 2010-04-02 Building on the innovative work of *Unformulated Experience* Donnel B. Stern continues his exploration of the creation of meaning in clinical psychoanalysis with *Partners in Thought* The chapters in this fascinating book are undergirded by the concept that the meanings which arise from unformulated experience are catalyzed by the states of relatedness in which the meanings emerge In hermeneutic terms what takes place in the consulting room is a particular kind of conversation one in which patient and analyst serve as one another's partner in thought an emotionally responsive witness to the other's experience Enactment which Stern theorizes as the interpersonalization of dissociation interrupts this crucial kind of exchange and the eventual breach of enactments frees analyst and patient to resume it Later chapters compare his views to the ideas of others considering mentalization theory and the work of the Boston Change Process Study Group Approaching the link between dissociation and enactment via hermeneutics metaphor and narrative among other perspectives Stern weaves an experience near theory of psychoanalytic relatedness that illuminates dilemmas clinicians find themselves in every day Full of clinical illustrations showing how Stern works with dissociation and enactment *Partners in Thought* is destined to take its place beside *Unformulated Experience* as a major contribution to the psychoanalytic literature

Culture as Process Brady Wagoner, Bo Allesøe Christensen, Carolin Demuth, 2021-10-25 Jaan Valsiner has made numerous

contributions to the development of psychology over the last 40 years He is internationally recognized as a leader and innovator within both developmental psychology and cultural psychology and has received numerous prizes for his work the Alexander von Humboldt prize the Hans Killian prize and the Outstanding International Psychologist Award from the American Psychological Association Having taught at Universities in Europe Asia and north and south America he is currently Niels Bohr professor at Aalborg University Denmark This book is the first to discuss in detail the different sides of Valsiner s thought including developmental science semiotic mediation cultural transmission aesthetics globalization of science epistemology methodology and the history of ideas The book provides an overview evaluation and extension of Valsiner s key ideas for the construction of a dynamic cultural psychology written by his former students and colleagues from around the world

Situation, Field Perspective and Formation of Forms in Gestalt Therapy Jean-Marie Robine,2025-07-17 This volume contains a collection of published and unpublished essays and conference lectures prepared by Jean Marie Robine Following the author in his line of thought readers can learn how Robine has explored some of the topics most dear to him in which his insights have become key contributions over the last ten years in the international Gestalt community Robine is one of the most prominent theorists on the contemporary gestalt therapy scene and this book is a precious contribution to the gestalt therapy community not only for the contents it conveys but as an example of a paradigmatic model of inquiry of how to develop gestalt therapy theory and practice by drawing from various grounds and like minded disciplines and channelling it into the practice of psychotherapy and stimulating new thought without ever losing the rigor of our foundational epistemology This new edition features five new chapters covering topics such as the concept of self establishing a clinical approach to the situation in gestalt therapy and the therapeutic relationship Readers will be taken on a tour of Robine s unique perspectives in areas ranging from philosophical issues to social concerns clinical insights to political perspectives without ever losing focus of gestalt therapy It will be of great value to therapists and students of gestalt therapy

Braided Selves Pamela Cooper-White,2011-06-10 What if we are more multiple as persons than traditional psychology has taught us to believe And what if our multiplicity is a part of how we are made in the very image of a loving relational multiple God How have modern Western notions of Oneness caused harm to both individuals and society And how can an appreciation of our multiplicity help liberate the voices of those who live at the margins both of society and within our own complex selves Braided Selves explores these questions from the perspectives of postmodern pastoral psychology and Trinitarian theology with implications for the practice of spiritual care counseling and psychotherapy This volume gathers ten years of essays on this theme by preeminent pastoral theologian Pamela Cooper White whose writings bring into dialogue postmodern feminist and psychoanalytic theory and constructive theology

Bodies In Treatment Frances Sommer Anderson,2013-03 Bodies in Treatment is a challenging volume that brings into conceptual focus an unspoken dimension of clinical work the body and nonverbal communication that has long occupied the shadowy realm of tacit knowledge By bringing visceral sensory and

imagistic modes of emotional processing to the forefront Editor Frances Sommer Anderson and the contributors to this original collection expand the domain of psychodynamic engagement Working at the leading edge of psychoanalytic theory and practice and in the forefront of the integrative psychotherapy movement Anderson has created a collaborative project that stimulates interdisciplinary dialogue on the developmental neurobiology of attachment the micro processing of interchanges between the infant and caregiver the neuroscience of emotional processing and trauma body focused talking treatments for trauma and research in cognitive science Enlightened by experiencing body based treatments for thirty years Anderson reflects on the powerful impact of these interventions recounting attempts to integrate her somatically informed discoveries into the talking frame Reaching further her contributors present richly informative accounts of how experiences in body based modalities can be creatively integrated into a psychoanalytic framework of treatment Readers are introduced to specialized modalities such as craniosacral therapy and polarity therapy as well as to the adjunctive use of yoga the effectiveness of which can be grounded neurophysiologically Somatic interventions are discussed in terms of the extent to which they can promote depth psychological change outside the psychoanalytic consulting room as well as how they can enrich the relational process in psychodynamic treatment The final sections of Bodies in Treatment explore the range of ways in which patients and therapists bodies engage sustain and contain the dynamics of treatment **Adolescent Identities**

Deborah L. Browning, 2013-04-15 Adolescent Identities draws the reader into the inner world of the adolescent to examine the process of identity formation through the various lenses of history anthropology sociology psychology and psychoanalysis The volume reveals there is no single normal adolescent nor is there a singular adolescent experience Editor Deborah L. Browning illustrates that in the course of development each individual must integrate one's unique biologically given constitution and temperament personal life history and the influence of the social and cultural milieu The book consists of six sections arranged by concentric circles of influence from the most exterior identifiable and potentially overt and conscious to the most internal private and potentially unconscious concerns Opening papers are drawn from sociology European history and cross cultural anthropology and address the question of whether and how adolescence can be considered a stage in development The second section explores how visible or potentially knowable minority statuses are experienced and how these interact with individual identity processes Moving closer to the adolescent's interpersonal world the third section presents papers about intimate relationships between adolescents and about the conscious preoccupations of adolescents when they are alone Extensive excerpts of Erikson's most important contributions on identity formation and adolescence are offered in the fourth section Papers on the most internal private and potentially unconscious conflicts comprise the fifth section The book concludes with a section of papers on failed solutions to the challenge of adolescent identity consolidation homelessness drug abuse eating disorders and suicide Adolescent Identities provides mental health practitioners teachers and graduate students in both fields with a variety of perspectives on the internal experience of adolescents *Getting*

From Here to There Sheldon Bach, 2013-05-13 It is clinical work with the most difficult patients those with severe narcissistic sadomasochistic and borderline disorders that poses the greatest challenge to the therapist's guiding assumptions about clinical process indeed such work often leads therapists to question beliefs and expectations that formerly seemed self-evident In *Getting From Here to There* Analytic Love Analytic Process Sheldon Bach elaborates the holistic vision that guides him in work with just such patients He dwells especially on the attentive presence through which the analyst effects a meeting with patients that invites the latter's trust in the analyst and in the therapeutic process And he writes of love of patient for analyst and of analyst for patient that grows out of this mutual trust and sustains therapeutic process For Bach analytic therapy aims at understanding the person as a mind-body unity that manifests particular states of consciousness This holistic vision of treatment sustains a flexible clinical orientation that enables the analyst to meet states of consciousness in order to bring them into a system of which the analyst forms a part Bach thoughtfully explores the clinical issues that enter into this taxing process among them the establishment and maintenance of basic trust the patient's or the therapist's presence in the other's mind and the shifts in agency between patient and therapist And he describes at length the frequently exhausting even demoralizing transference countertransference struggles that enter into this type of analytic work Throughout Bach is guided by the conviction that work with extremely challenging patients promotes the psychological growth and increased self-knowledge of patient and analyst alike And he is admirably clear that the mutual living through of such treatments nurtures a kind of love between patient and analyst *Getting From Here to There* not only records the clinical lessons learned by an unusually gifted analyst it also chronicles the movement of psychoanalysis itself from the dissection of love into component parts to a synthetic grasp of its vital role in psychoanalytically informed treatment

Transforming Wisdom Felicity Kelcourse, K. Brynolf Lyon, 2015-10-09 *Transforming Wisdom* offers an extensive multidisciplinary introduction to pastoral psychotherapy from some of the most respected practitioners in the field With special attention to theological perspectives on the practice of psychotherapy this collection of essays will be useful to students seeking an orientation to the art and science of pastoral psychotherapy as well as to seasoned professionals looking to refresh and renew their practice As the subtitle *Pastoral Psychotherapy in Theological Perspective* suggests this book is intended to represent the field of pastoral psychotherapy as a mental health discipline that maintains intentional dialogue with its theological roots Even as pastoral psychotherapy has developed from the ancient notion of the cure of souls to the current search for a psychology of happiness therapists grounded in faith communities seek a practice that is respectful of all persons mindful of the deep wisdom that emanates from the true self or soul While many contributors write from a psychoanalytic or psychodynamic perspective grounded in Christian theological idioms diverse theoretical perspectives including Emotionally Focused Couples Therapy Narrative Therapy Buddhist Mindfulness and Jungian understanding of individuation are represented

Publishing Record Cumulative 1998 R R Bowker Publishing,1999-03 *Choice* ,1998 **On Coming into Possession of Oneself** Donnel B. Stern,2024-09-05 This book is Donnel B Stern s latest contribution to the kind of understanding of the psychotherapeutic and psychoanalytic process offered by field theory Stern anchors his understanding of therapeutic action in the freedom of both patient and analyst to create a meaningful experience with minimum inhibition The field s capacity to generate meaning and thus to make possible fully realized human living rows from its freedom to respond spontaneously to the feelings wants and needs of its participants To whatever extent this spontaneity is diminished as it is in unconscious mutual enactment we can be sure that some part of the field is frozen or otherwise rigidified This position serves as the foundation of the psychoanalysis that Stern practices The analyst aims to feel their way into compromises in the field and then do whatever they can to grasp and dissolve them knowing that they will have to be visited repeatedly and dissolved again These insights into interpersonal and relational field theory lead to descriptions of clinical interventions that are focused on the moment to moment emotional experience of both the patient and the analyst With valuable contributions to theory and emotionally immediate clinical vignettes this book is essential for all psychoanalysts and psychoanalytic psychotherapists wishing to understand how the analyst s interventions grow from the analyst s emotional involvement in the clinical process **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,1997 Bibliographic Guide to Psychology New York Public Library.
