As China Goes, So Goes the World Karl Gerth,2025-10-16 In this revelatory examination of the most overlooked force that is changing the face of China the Oxford historian and scholar of modern Asia Karl Gerth shows that as the Chinese consumer goes so goes the world While Americans and Europeans have become increasingly worried about China's competition for manufacturing jobs and energy resources they have overlooked an even bigger story China's rapid development of an American style consumer culture which is revolutionizing the lives of hundreds of millions of Chinese and has the potential to reshape the world This change is already well under way China has become the world's largest consumer of everything from automobiles to beer and has begun to adopt such consumer habits as living in large single occupancy homes shopping in gigantic malls and eating meat based diets served in fast food outlets Even rural Chinese long the

laggards of consumerism have been buying refrigerators televisions mobile phones and larger houses in unprecedented numbers As China Goes So Goes the World reveals why we should all care about the everyday choices made by ordinary Chinese Taken together these seemingly small changes are deeper and more profound than the headline grabbing stories on military budgets carbon emissions or trade disputes **American Wheels, Chinese Roads** Michael J. Dunne,2011-07-26

How could one company General Motors meet disaster on one continent and achieve explosive growth on another at the very same time While General Motors was hurtling towards bankruptcy in 2009 GM's subsidiary in China was setting new sales and profit records This book reveals how extraordinary people remarkable decisions and surprising breaks made triumph in China possible for General Motors It also shows just how vulnerable that winning track record remains No small part of GM's success in China springs from its management of shifting business and political relationships In China the government makes the rules for and competes in the auto industry GM's business partner the City of Shanghai is both an ally and a competitor How does such an unnatural relationship work on a day to day basis Where will it go on the future General Motors also engages in constant battles with other global and Chinese car makers for the hearts of demanding Chinese consumers Dunne gives us rare glimpses into the mindsets and behavior of this new moneyed set the world's newest class of wealthy consumers China is already the number one car market in the world During the next ten years China will export millions of cars and trucks globally including to the United States American Wheels Chinese Roads presents readers with fascinating illustrations of what to expect when Chinese cars companies and business people arrive on our shores **Car Fever** James May,2009-08-20

Top Gear's James May is back with his hilarious and controversial opinions on just about everything As well as writing about his first love cars James has a go at political correctness the endless rules and regulations of daily life the internal combustion engine and traffic wardens He discusses gastropubs Jeremy Clarkson and other trials of modern life His highly entertaining observations from behind the wheel will have you laughing out loud whether you share his opinions or not Car Fever is an indispensable guide to life for the modern driver **The Korean Automotive Industry, Volume 2** A.J. Jacobs,2023-08-24

This volume chronicles the maturation of the South Korean auto industry and its native automakers from the 1997 Asian Crisis to 2019 After examining the context for domestic vehicle production in South Korea the author presents multiple case studies for all five Korean automakers General Motors Korea Daewoo Motors Kia Hyundai Ssangyong and Renault Samsung This includes coverage of Hyundai Kia's foreign plants in North America Europe India China and Emerging Asia The book closes by assessing the five to ten year future outlooks for Korean automakers at home and abroad This important work will prove informative to scholars of business management automotive history international development Asian studies and public administration **Automotive Engineering International** ,2007 Strategic Management and Business Analysis David Williamson,Peter Cooke,Wyn Jenkins,Keith Michael Moreton,2013-05-13

Strategic Business Analysis shows students how to carry out a strategic analysis of a business with clear guidelines on where and how

to apply the core strategic techniques and models that are the integral tools of strategic management The authors identify the key questions in strategic analysis and provide an understandable framework for answering these questions Several case studies are used to focus understanding and enable a more thorough analysis of the concepts and issues especially useful for students involved with case study analysis Accompanying the text is a CD Rom containing the models tutorial guidance and a PowerPoint presentation A blank template is provided for each model enabling students to actively interact and enter their own data an effective what if facility This will enable students to appreciate the limitations as well as the advantages of the strategic models

Analysis of the Internationalisation Strategies of German Car Companies in China Patrick Schrott, 2012-12-18 Bachelor Thesis from the year 2012 in the subject Business economics Business Management Corporate Governance grade 1.3 course Automotive Management language English abstract China's economy is growing year by year The persistent growth has affected the automobile sector in particular Increasing income and the passenger vehicle as an exclusive status symbol has risen the private demand In 2009 the PRC overtook the USA as the biggest automotive market in the world in production as well as in sales This trend will certainly continue With economic problems like stagnating real income rising raw material prices and credit driven consumerism in the industrial countries the importance of the Chinese market for car companies will even grow Saturated passenger car markets in the USA and Western Europe and low rates of motorisation in new automotive markets

like China focus the attention of the market participants on these new growing markets But the upward trend has already shown a downside Increasing dependency on the strong politically influenced market and claims about know how transfer are exemplary threats As German enterprises in this industrial sector are popular worldwide and the car industry is the key industry in our country the internationalisation strategies of German automotive companies in China will be analysed in the following The trend of the Chinese automobile market can be summarised in a quote of Dieter Zetsche CEO of Daimler Wir fahren noch nicht im höchsten Gang wir können noch mehr The quote relates to the expected turnover and profit records of Daimler in 2011 which were mainly based on the success in the PRC The Swabian vehicle manufacturer sold 198 500 automobiles in China In spite of these difficulties the automotive market in the PRC is very attractive especially for the well known German firms However the companies should know how to manage the problems in China Therefore the choice of a suitable strategy of internationalisation is crucial By definition internationalisation strategy is the orientation of corporate development by growth in different foreign markets In contrast to an international market entry strategy an internationalisation strategy is not only about starting business in a foreign market but also developing a strategy in a market which has already been entered The focus of this bachelor thesis is put on the passenger vehicle market and lines out why the Chinese market is profitable and attractive for German and international manufacturers in general

The Global Automotive Industry Paul Nieuwenhuis, Peter Wells, 2015-08-10 The automotive industry is still one of the world's largest manufacturing sectors but it suffers from being very technology focused as well as being relatively short term focused There is little emphasis within the industry and its consultancy and analyst supply network on the broader social and economic impacts of automobility and of the sector that provides it The Global Automotive Industry addresses this need and is a first port of call for any academic official or consultant wanting an overview of the state of the industry An international team of specialist researchers both from academia and business review and analyse the key issues that make vehicle manufacturing still the

world's premier manufacturing sector closely tied in with the fortunes of both established and newly emerging economies. In doing so it covers issues related to manufacturing both established practices as well as new developments, issues relating to distribution, marketing and retail, vehicle technologies and regulatory trends and crucially labour practices and the people who build cars. In all this it explains both how the current situation arose and also likely future trajectories both in terms of social and regulatory trends as the technological, marketing and labour practice responses to those leading in many cases to the development of new business models.

Key features

- Provides a global overview of the automotive industry covering its current state and considering future challenges.
- Contains contributions from international specialists in the automotive sector.
- Presents current research and sets this in an historical and broader industry context.
- Covers threats to the industry including globalization, economic and environmental sustainability.

The Global Automotive Industry is a must have reference for researchers and practitioners in the automotive industry and is an excellent source of information for business schools, governments and graduate and undergraduate students in automotive engineering.
