Edith Terry presents a blow by blow account of the crisis beginning with the 1996 collapse of the Bangkok Bank of Commerce In her overview she links the fall of the Asian miracle with the theme of globalization arguing that the crisis demonstrates the urgency of dismantling restraints to trade investment and financial services and that the United States should take leadership in pushing for new and sweeping reform through the World Trade Organization and in bilateral negotiations with its trading partners The final section of the book deals with the rise of the Asian miracle how the myth was created who created it why it succeeded for so long and is informed by analysis of the Japanese prototype
