Remembering Marielle Franco from a Theological Perspective Katharina Merian, 2024-08-20 In this Open Access book Katharina Merian discusses memories of Marielle Franco from the perspective of the concept of dangerous memory introduced by the political theologian Johann Baptist Metz Franco was an Afro Brazilian human rights activist and city councilor of Rio de Janeiro who was assassinated on March 14 2018 Her murder elicited worldwide protest and empathy Today she is considered an international symbol in the fight for human women and LGBTQ rights Based on the memories of people from Franco's inner circle the study explores Franco's life what it meant to the people around her and how her image was transformed following her murder By critically engaging with Metz's concept of dangerous memory which concerns memories of suffering and

unfulfilled hopes that challenge the present Merian demonstrates that the memories of Franco represent a decolonial dangerous memory that sparks individual and collective self empowerment among Black women members of the LGBTQ community and favela residents This work not only contributes to a critical reappraisal of Franco s story and the meaning of her memory in the Brazilian and international context but also proposes a differentiated understanding of dangerous memory that highlights the relationship between solidarity and self empowerment in a moment of existential danger and threat
