Understanding English Language Variation in U.S. Schools Anne H. Charity Hudley, Christine Mallinson, 2015-04-26

In today's culturally diverse classrooms students possess and use many culturally ethnically and regionally diverse English language varieties that may differ from standardized English. This book helps classroom teachers become attuned to these differences and offers practical strategies to support student achievement while fostering positive language attitudes in classrooms and beyond. The text contrasts standardized varieties of English with Southern Appalachian and African American English varieties focusing on issues that are of everyday concern to those who are assessing the linguistic competence of students. Featuring a narrative style with teaching strategies and discussion questions, this practical resource provides a clear introductory explanation of what is meant by non-standard English from both linguistic and educational viewpoints. Emphasizes what educators need to know about language variation in and outside of the classroom. Addresses the social factors accompanying English language variation and how those factors interact in real classrooms. A landmark book. It guides linguists and educators as we all work to apply our knowledge on behalf of those for whom it matters most: students. From the Afterword by Walt Wolfram, North Carolina State University. In the ongoing debate about language, we typically hear arguments about what students say and/or how they say it. Finally, a volume that takes on the elephant in the parlor: WHO is saying it? By laying bare the complicated issues of race, culture, region, and ethnicity, Charity Hudley and Christine Mallinson provide a scholarly, significant, and practically relevant text for scholars and practitioners alike. This is bound to be an important contribution to the literature. Gloria Ladson-Billings, University of Wisconsin-Madison. An invaluable guide for teachers, graduate students, and all lovers of language. The authors provide a comprehensive and fascinating account of Southern and African American English, showing how it differs from standardized English, how those differences affect children in the classroom, and how teachers can use these insights to better serve their students. Deborah Tannen, University Professor and Professor of Linguistics, Georgetown University. *We Do Language* Anne H. Charity-Hudley, Christine Mallinson, 2013-12-13. *We Do Language* builds on the authors' highly acclaimed first collaboration, *Understanding English Language Variation in U.S. Schools*, and examines the need to integrate linguistically informed teaching into the secondary English classroom. The book meets three critical goals for preparing English educators to ensure the academic success of their students. First, the book helps educators acquire a greater knowledge of language variation so they may teach their students to analyze the social, cultural, and linguistic dimensions of the texts they read in class. Second, the chapters provide specific information about language varieties that students bring with them to school so that educators can better assist students in developing the literacy skills necessary for the Common Core State Standards. Third, the text empowers educators to build their linguistic awareness so they may more fully understand, respect, and meet the needs of culturally and linguistically diverse students. *We Do Language* features concrete strategies, models, and vignettes, as well as classroom

materials developed by English educators for English educators It is essential reading for anyone interested in learning about the role that language plays in the experiences of students both in secondary and postsecondary environments Full of advice and support for walking hand in hand with students into imaginative ways of understanding the realities of language variation this book is pure joy for teachers and college counselors Even more important is the guarantee that when these educators embrace the humanity and philosophy so touchingly illustrated by the authors the intrigue of thinking deeply about speaking writing and reading is sure to follow for students Shirley Brice Heath Margery Bailey Professor of English Dramatic Literature and Professor of Linguistics Emerita Stanford University We Do Language is an enabling tool for helping teachers and those who prepare them to face perhaps better than we ever have the challenge of schooling in the English language arts for the 21st century From the Foreword by Jacqueline Jones Royster Ivan Allen Chair in Liberal Arts and Technology and Dean Ivan Allen College of Liberal Arts Georgia Institute of Technology Long overdue and much needed African American English is here to stay and this book affirms and supports educators and African American students their language and their culture I can't thank the authors enough for writing this powerful thought provoking and critical analysis of language variation Donna Ford Harvie Branscomb Distinguished Professor of Special Education and Teaching and Learning Peabody College of Education Vanderbilt University Anne H Charity Hudley is associate professor of education English linguistics and Africana studies at the College of William Mary in Williamsburg Virginia Christine Mallinson is associate professor in the Language Literacy and Culture Program and affiliate associate professor in the Gender and Women's Studies Program at the University of Maryland Baltimore County UMBC Teaching What Really Happened James W. Assessing and Guiding Classroom Reading Instruction Martha Collins, Earl H. Cheek, 1999-06 This text provides classroom teachers with information on developing a systematic procedure for assessing reading skill performance and offers prescriptive instruction. The first chapter addresses reading as a language process and establishes the basic conceptual framework. The remainder of the text is organized around five steps that should be followed to provide effective reading instruction. New to this edition: The latest research on teacher instruction for technologically advanced students. More emphasis on student assessment versus clinical diagnoses. The importance of assessing and guiding reading through language literacy development is stressed.
