Unlocking the Love-Lock Ceri Houlbrook, 2021-01-13 Explores the worldwide popularity of the love lock as a ritual token of love and commitment by considering its history symbolism and heritage This is an eminently enjoyable and thorough investigation of a popular phenomenon through the lens of heritage and folk tradition Sara De Nardi Western Sydney University A padlock is a mundane object designed to fulfil a specific and secular purpose A contemporary custom has given padlocks new significance This custom is love locking where padlocks are engraved with names and attached to bridges in declaration of romantic commitment This custom became popular in the 2000s and its dissemination was rapid geographically unbound and highly divisive with love locks emerging in locations as diverse as Paris and Taiwan New York and Seoul Melbourne and Moscow From the introduction I was distractedly perusing the photo frame aisle my eyes skimming the generically sentimental stock pictures of happy families smiling at the camera pretty landscapes cute pets and couples walking hand in hand when I came across one that jumped out at me I recognised the image instantly as a photograph of love locks the padlocks that had been appearing en masse on bridges and other public structures on a global scale since the early 2000s And having been researching the custom known as lovelocking for about five years at that point it was with a peculiar sense of pride that I realised love locks had accomplished the status of a stock image

Archaeology and Photography Lesley McFadyen, Dan Hicks, 2020-08-05 Does a photograph freeze a moment of time What does it mean to treat a photographic image as an artefact In the visual culture of the 21st century do new digital and social forms change the status of photography as archival or objective or are they revealing something more fundamental about photography's longstanding relationships with time and knowledge Archaeology and Photography imagines a new kind of Visual Archaeology that tackles these questions The book reassesses the central place of Photography as an archaeological

method and re wires our cross disciplinary conceptions of time objectivity and archives from the History of Art to the History of Science Through twelve new wide ranging and challenging studies from an emerging generation of archaeological thinkers Archaeology and Photography introduces new approaches to historical photographs in museums and to contemporary photographic practice in the field The book re frames the relationship between Photography and Archaeology past and present as more than a metaphor or an analogy but a shared vision Archaeology and Photography calls for a change in how we think about photography and time It argues that new archaeological accounts of duration and presence can replace older conceptions of the photograph as a snapshot or remnant received in the present The book challenges us to imagine Photography like Archaeology not as a representation of the past and the reception of traces in the present but as an ongoing transformation of objectivity and archive Archaeology and Photography will prove indispensable to students researchers and practitioners in History Photography Art Archaeology Anthropology Science and Technology Studies and Museum and Heritage Studies

Shepherds who Write Marta Bazzanella,Giovanni Kezich,2020 In a number of significant sites of the vast ancient pasturelands of the Old World generations of wandering shepherds have left their testimony in the form of graffiti drafted on

the rocks sometimes in their tens of thousands over a period of hundreds of years from ancient to modern times The phenomenon is a conspicuous one and has considerable significance for two reasons On the one hand the study of such pastoral graffiti may convey fresh ethnoarchaeological information as to the circumstances of the pastoral activities and the pastoral economy of the past On the other hand these signs which can be often fully alphabetic as well as drawing upon ancient symbolic repertoires can be of some aid in the interpretation of rock art as a whole genre of human expression and projected back in their significance and their modes of appearance the earliest times of prehistory
