

A whimsical illustration of a tree with a thick, gnarled brown trunk and green foliage. Several circular windows are embedded in the tree's branches, each showing a different scene: a white figure on a dark background, a small house, a colorful abstract scene, a blue and white landscape, a purple sphere with a black eye, and a landscape with a blue body of water. The background is a light blue sky with green rolling hills at the bottom.

Hawthorne's Wilderness: Nature and Puritanism in Hawthorne's *The Scarlet Letter* and "*Young Goodman Brown*" Marina Boonyaprasop, 2013-06-01

Nathaniel Hawthorne is one of America's most noted and highly praised writers and a key figure in US literature. Although he struggled to become an acknowledged author for most parts of his life, his work stands in the limelight of the American literary consciousness. Graham 5 For he is a direct descendant of Massachusetts Bay colonists in the Puritan era of the 17th and 18th century. New England served as a lifelong preoccupation for Hawthorne and inspired many of his best known stories. Hence, in order to understand the author and his work, it is crucial to apprehend the historical background from which his stories arose. The awareness of the Puritan legacy in Hawthorne's time and their Calvinist beliefs, which contributed to the establishment of American identity, serve as a basis for fathoming the intention behind Hawthorne's writings. His forefathers' concept of wilderness became an important part of their religious life, and in many of Hawthorne's tales, nature can be perceived as an active agent for the plot and the moral message. Therefore, it is indispensable to consider the development behind the Puritan perception as well as the prevailing opinion on nature during the writer's lifetime. After the historical background has been depicted, the author himself is focused. His ambiguous character and non-persistent lifestyle are the source of many themes which can be retrieved from his works. Thus, understanding the man behind the stories is necessary in order to analyze the tales themselves. Seclusion, nature, and Puritanism are constantly recurring topics in the author's life and work. To become familiar with Hawthorne's relation to nature, his ancestors, and religion, it is essential to understand the vast amount of symbols in his stories. His stories will be brought into focus and will be analyzed on the basis of the historical and biographical facts, and further, his particular style and purpose will be taken into consideration. The second part of this book analyzes two of the author's most eminent and esteemed works, namely *Young Goodman Brown* and *The Scarlet Letter*, in terms of nature symbolism and the underlying moral intention. Further, it is examined to which extent the images correspond to the formerly explained historical facts and Hawthorne's emphasized characteristic features. The comparison of the two works focuses on the didactic purpose for in all of his works, Hawthorne's aim was to give a lesson. Thus, it will *The Making of T.S. Eliot* Joseph Maddrey, 2009-05-13 This chronological survey of major influences on T. S. Eliot's worldview covers the poet's spiritual and intellectual evolution in stages by trying to see the world as Eliot did. It examines his childhood influences as well as the literary influences that inspired him to write his earliest poetry, his life as an American expatriate.

living in London from 1915 to 1930 including his ill fated marriage and his intellectual engagement with the literary traditions of his new country and the ways in which his intellectual pursuits fostered a spiritual rebirth that simultaneously reflected his past and revealed his future demonstrating how the early Romantic revolutionary became a staunch defender of tradition

Our Very Own Adventure Carolyn Lee, 2011-02-15 *Our Very Own Adventure* demonstrates the main convention of the short story specifically the heightened reader response that Carolyn Lee terms narratorial presence The intensity of the short story encourages readers to appropriate the fictive world as rendered through one or more represented subjectivities in the narrative Lee argues that this narratorial presence is the enabling effect of the tale s telling Each chapter examines a group of stories by authors such as William Faulkner James Joyce Charlotte Perkins Gilman Ray Bradbury and Alice Munro that share basic similarities but where the narratorial presence differs due to differing techniques *Our Very Own Adventure* reveals just how a story yields its meanings to a reader

The Prairie Schooner Anthology of Contemporary Jewish American Writing Hilda Raz, 1998-01-01 A vivid collection bringing together a wide selection of contemporary poets essayists and fiction writers that demonstrates the continuing vitality of Jewish American writing The collection embraces tradition and innovation and is as diverse as it is consistently stimulating sure to become required reading for enthusiasts of contemporary American literature
