Carey,Donald R. Schmitt,2013-08-20 The true nature of what actually crashed in Roswell New Mexico in 1947 remains classified Only a select few have ever had access to the truth about what became known as Area 51 But what happened to the remnants of that crash is shrouded in even greater mystery What began in the high desert of New Mexico ended at Wright Patterson an ultra top secret Air Force base in Dayton Ohio The physical evidence of extraterrestrial visitation was buried deep within this nuclear stronghold How tragic that such seismic news should be kept from the people of the world pieces of history now quickly dwindling into oblivion as the last of the secret keepers passes on In spite of its rich history of military service to our nation Wright Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history But be prepared the real Area 51 Wright Patterson s vault is about to be opened **The Lure of the Edge** Brenda Denzler,2001-11-07 UFO phenomena entered American consciousness at the beginning of the Cold War when reports from astonished witnesses of encounters with unknown aerial objects captured the attention of the United States military and the imagination of the press and the public But when UFOs appeared not to be hostile and when some scientists pronounced the sightings to be of natural meteorological phenomena misidentified due to Cold War jitters military interest declined sharply

and with it further overt scientific interest Yet sighting reports didn't stop and UFOs entered the public imagination as a cultural myth of the twentieth century Brenda Denzler's comprehensive clearly written and compelling narrative provides the first sustained overview and valuation of the UFO alien abduction movement as a social phenomenon positioned between scientific and religious perspectives Demonstrating the unique place ufology occupies in the twentieth century nexus between science and religion Denzler surveys the sociological contours of its community assesses its persistent attempt to achieve scientific legitimacy and concludes with an examination of the movement's metaphysical or spiritual outlook Her book is a substantial contribution to our understanding of American popular culture and the boundaries of American religion and to the debate about the nature of science and religion Denzler presents a thorough and fascinating history of the UFO abduction movement and traces the tensions between those who are deeply ambivalent about abduction narratives that seemingly erode their quest for scientific credibility and the growing cultural power of those who claim to have been abducted She locates the phenomenon within the context of American religious history and using data gathered in surveys sheds new light on the social profile of these UFO communities The Lure of the Edge succeeds brilliantly in repositioning a cultural phenomenon considered by many to be bizarre and marginal into a central debate about the nature of science technology and the production of a modern myth

High Strangeness Jerome Clark, 1996 **ILS N'ETAIENT PAS DE NOTRE MONDE : La légende et les secrets de Wright Field** , **Borderlands** Mike Dash, 2000-11-07 Explore the Borderlands The charred remains of Helen Conway whose body exploded Was this a case of spontaneous combustion Discoveries of 130 foot long boa constrictors and twelve foot giant kangaroos What other species have gone undiscovered In England a town is pelted from the sky by hundreds of tiny rose colored frogs Is this a one time event an omen or a bizarre natural phenomenon Near death experiences lake monsters crop circles fairies visions of the Virgin Mary Using his vast research and privileged access to case files noted paranormal investigator Mike Dash has compiled this unprecedented collection of the most baffling puzzles of our time Touring the globe and sifting through a vast array of eyewitness accounts and film and photographic evidence Dash separates genuine cases from hoaxes and dares to record those macabre inexplicable and terrifying events where there is no other explanation except that what people saw heard and sometimes lived to tell about is true
