Christianity in Suriname Franklin Steven Jabini, 2012-11-14 The Republic of Suriname located in northern South America has a rich and diverse history going back several centuries This has seen the introduction of Christianity and the establishment and creation of many church denominations To date major theological works have failed to provide correct balanced and informative dialogue on the history of Christianity and its developments in Suriname In response to the lack of information available to the academic world this publication aims to provide a survey of the history a summary of the works of theologians and a guide to reliable sources about Christianity in Suriname Through overviewing the history of the major denominations in Suriname and focusing on some major issues surrounding Christianity the author delivers a unique single volume for both the general reader and a starting point for further research

Material Fantasies Milena Veenis, 2012 This study of East German fantasies of material abundance across the border both before and after the fall of communism shows the close and intricate relation between ideology and fantasy in upholding social life In 1989 news broadcasts all over the world were dominated for weeks by images of East Germans crossing the Berlin Wall to West Germany The images representing the fall of communism and the democratic will of the people also showed East Germans excitement at finally being able to enter the western consumer paradise But what exactly had they expected to find on the other side of the Wall Why did they shed tears of joy when for the first time in their lives they stepped inside West German shops And why were they prepared to pay more than 10 percent of their average monthly wage for a pineapple Drawing on fifteen months of research in the fast changing post communist East Germany Veenis unravels the perennial truths about the interrelationships of fantasies of material wealth personal fulfillment and social cohesion She argues persuasively that the far fetched socialist and capitalist promises of consumption as the road to ultimate well being the partial realization and partial corruption thereof the implicit social and psychological interests underlying the politicized promises in both countries form the breeding ground for the development of materialist cargo cult like fantasies in which material well being came to be seen as the place of fulfillment and ultimate arrival Publisher's website
