TEN MOST IMPORTANT HABITS OF POWERFUL AND SUCCESSFUL PEOPLE

COST OF GREATNESS EMMANUEL OKAFOR,2025-10-04 A habit can be defined as a continual often unconscious pattern

of behavior that is acquired through frequent repetition like making a habit of going to bed early It can be seen as an established character of the mind or quality e g a pessimistic routine reading Choices we make are at the root of every one of your results Each choice starts a behavior that over time becomes a habit Energy is usually at its peak during the first part of your day which means you should be completing habits that inspire or excite you about the day ahead Replacing just a few key negative habits with a few positive habits can easily be the difference between being mostly unhappy and being happy almost all of the time Motivation is what gets you started Habit is what keeps you going The man who makes it the habit of his life to go to bed at nine o'clock usually gets rich and is always reliable Of course going to bed does not make him rich it simply means that such a man will in all probability be up early in the morning and do a big day's work so his weary bones put him to bed early You cannot expect to attain success if you are not prepared Life has a habit of giving back rewards in proportion to the effort we apply To unlock and unleash your full potential you should make a habit of daily goal setting and achieving them for the rest of your life By developing and practicing good habits each day you affirm that you do have control over the very core of your life even in the midst of uncertainty By simply breaking some of your more inbuilt habits you will help dissolve away your affliction Everyone has habits Some are good others are not Considering that we are all defined by our actions it is important that we lose our bad habits by doing that our lives will be much better All people are the same only their habits differ Principally your health wealth happiness fitness and success depend on your habits Evidence suggests that over time bad eating or sleeping habits can change your personality Choices are at the root of every one of your results Each choice starts a behavior that over time becomes a habit We are what we repeatedly do Excellence therefore is not an act but a habit Habits are difficult to break but they're not unattainable Learning how to rework your vocabulary and train yourself to stop saying I can't will take time but you can do it Often unintentionally we fall into bad habits especially if the relationship has been a long one We forget how to say thank you for the little things we do for one another It takes time and patience but if you develop the habit of using forceful positive Self Talk negations to your negative Mind Pattern you will soon see a shift in your Mind Set how you feel and what you do Good habits can be developed through repetition By incorporating behaviors task and attitude to the regular routines they usually become a habit thus becoming natural and virtually effortless You shouldn't be challenging yourself to change a habit for just a short period of time The point of habits is changing behavior over the long term There are two types of habits ones which comfort us and ones which would be a comfort if we stopped Changing the untidiness habit is the same as changing any other bad habit You must want to change You have to understand and learn how to avoid and stop bad habits which is an enemy to your greatness and success in life A habit can also be classified as a learned behavior that becomes automatic over time The behavior is often triggered by a certain background For example you may automatically go brush your teeth after finishing breakfast as part of your morning routine An unhealthy habit could be biting your nails or texting while driving The word habit is pulled from the Latin words habere

which means have consist of and habitus which means condition or state of being It also is derived from the French word habit pronounced ah bee which means clothes In the 13th century the word habit first just referred to clothing Why are habits so important Habits are essential to our health accomplishment status and morals In this book we are going to be studding Ten Proven Habits which have greatly contributed to the achievements of highly successful and world must powerful personalities These habits are very effective and productive In almost thirty years of being around the small great and mighty I have discovered certain things that have greatly contributed to most individuals successes or failures Habits are very powerful they can make or break your chances of achieving and maintaining greatness There are some of your routines that should be grossly involved in your journey of greatness such as exercising regularly maintaining a healthy eating habit other fitness conditions spiritual healthiness and reading these has been confirmed to be helpful in increasing the quality of human life on the earth and promoting longevity of days This book has been prepared to help you access your way to stardom if you can lay hold on this Ten Habits that has produced most successful people on our planet As we go further in this book you will understand more and I pray your experience becomes even better after this adventure EMMANUEL OKAFOR
