What is transformation in contemporary South African higher education How can it be facilitated through research and pedagogic practices These questions are addressed in this edited collection by established academics and emerging research students from nine South African universities The chapters give us access to students worlds how they construct experience and navigate their complex spheres on and off campus By engaging with students as knowledge producers we transform popular ways of thinking about race gender class sexuality disability and age as singular and natural markers of difference and diversity Rather than taking diversity as fixed and rooted in nature we explore how diversity is imagined and lived in particular contexts on and off campus *Places of Privilege* ,2018-07-19 Places of Privilege examines dynamics of privilege and power in the construction of place in a period of the rapid social transformation of places borders and boundaries

Drawing on inter disciplinary perspectives the book examines place as a site for the making and re making of privilege while considering new meanings of community and examining spaces for cultural identity and resistance Chapters point to a range of conceptual resources that can be utilised to produce critical analyses of place making As the authors point out power and privilege shape place but these dynamics are in turn shaped by the specific place based histories and social dynamics within which they are located Contributors are Lutfiye Ali Alison M Baker Paola Bilbrough Tony Birch Jora Broerse Sally Clark Josephine Cornell Yon Hsu Lou Iaquinto Karen Jackson Shose Kessi Rebecca Lyons Chris McConville Nicole Oke Amy Quayle Alexandra Ramirez Kopano Ratele Christopher C Sonn and Ram n Spaaij *Software Engineering And Information*

Power Shift? Political Leadership and Social Media David Taras, Richard Davis, 2019-12-09 Power Shift Political Leadership and Social Media examines how political leaders have adapted to the challenges of social media including Facebook Instagram Twitter and memes among other means of persuasion Established political leaders now use social media to grab headlines respond to opponents fundraise contact voters directly and organize their election campaigns Leaders of protest movements have used social media to organize and galvanize grassroots support and to popularize new narratives narratives that challenge and sometimes overturn conventional thinking Yet each social media platform provides different affordances and different attributes and each is used differently by political leaders In this book leading international experts provide an unprecedented look at the role of social media in leadership today Through a series of case studies dealing with topics ranging from Emmanuel Macron and Donald Trump's use of Twitter to Justin Trudeau's use of selfies and Instagram to how feminist leaders mobilize against stereotypes and injustices the authors argue that many leaders have found additional avenues to communicate with the public and use power This raises the question of whether this is causing a power shift in the relationship between leaders and followers Together the chapters in this book suggest new rules of engagement that leaders ignore at their peril The lack of systematic theoretically informed and empirically supported analyses makes Power Shift Political Leadership and Social Media an indispensable read for students and scholars wishing to gain new understanding on what social media means for leadership

Lore of Nutrition Tim Noakes,2017-11-01 In December 2010 Professor Tim Noakes was introduced to a way of eating that was contrary to everything he had been taught and was accepted as conventional nutrition wisdom Having observed the benefits of the low carb high fat lifestyle first hand and after thorough and intensive research Noakes enthusiastically revealed his findings to the South African public in 2012 The backlash from his colleagues in the medical establishment was as swift as it was brutal and culminated in a misconduct inquiry launched by the Health Professions Council of South Africa The subsequent hearing lasted well over a year but Noakes ultimately triumphed being found not guilty of unprofessional conduct in April 2017 In Lore of Nutrition he explains the science behind the low carb high fat Banting diet and why he champions this lifestyle despite the constant persecution and efforts to silence him He also discusses at length what he has come to see as a medical and scientific code of silence that discourages anyone in the profession from speaking out against the current dietary guidelines Leading food health and medical journalist Marika Sboros who attended every day of the HPCSA hearing provides the fascinating backstory to the inquiry which often reads like a spy novel Lore of Nutrition is an eye opener and a must read for anyone who cares about their health
