Bausch, 2011-10 Saints are a significant part of our heritage revered figures of our Christian culture according to Father Bill Bausch Long before television the cult of saints dominated the popular imagination they were and are our Christian celebrities He says that while modern celebrities point to and celebrate themselves the saints point to or wrestle with something more beyond appearances some one more They are mirrors to another reality Whatever their history at least once in their lives saints heroically leap beyond their pride self absorption and even the instincts of self preservation into a fullness of sacrifice generosity and love that takes our breath

away Bausch covers 50 of these saints here in this beautifully written anthology

Theology, Disability, and Spiritual Transformation Michael Hryniuk, 2010 In this study Michael Hryniuk develops a full phenomenological psychological and theological account of spiritual transformation in the context of L Arche a federation of Christian communities that welcome persons with learning disabilities The book begins with a critical examination of current perspectives on spiritual transformation in theology and Christian spirituality and constructs a new foundational formulation of transformation as a shift in consciousness identity and behavior Through extensive analysis of the narratives of the caregiver assistants who share life with those who are disabled this case study reveals an alternative vision of the three fold way that unfolds through a series of profound awakenings in relationships of mutual care and presence an awakening to the capacity to love to bear inner anguish and darkness and to experience radical human and divine acceptance The book examines the psychological dimensions of spiritual transformation through the lens of contemporary affect theory and explores how care givers experience a profound healing of shame in their felt sense of identity and self worth
