Dracula Terrorizes Seattle
Richard Shallow, 2016-11-07

Down through the ages, people have been fascinated by horror stories. There had always been mystical stories of the spilling of blood like blood sacrifices to the gods for a good harvest or the consumption of blood from a warrior to gain the dead warrior's strength. Look no further than our own Bible. Look at Cain and Abel, the Aztec, Toltec, Inca and many of the Central and South American tribes. A person walking past a narrow alley in the daytime will give it a quick glance and think nothing of it. But add the darkness of a late night or a sudden wind or a sudden noise or a shadow upon the wall and have that same person walk past that same alley and he will conjure up within his mind all kinds of things hiding in that alley. Many people are fascinated by eternal life and staying young forever. As an example, look at the money we spend on makeup to camouflage our age. A vampire can accomplish staying young forever by drinking the blood of the living. It is the ancient ritual of consuming the blood of the living to extend one's life or to absorb virility, strength and youth of the one that was killed. There are stories that have been handed down through the ages about the existence of vampires in the Far East like China and Japan, all over Europe but mostly in Eastern Europe, particularly in Romania and Bulgaria.

So too do the monsters that haunt the stories of the Judeo-Christian mythos and earlier traditions: Leviathan, Behemoth, dragons, and other beasts. In this unusual and provocative book, Timothy K. Beal writes about the monsters that lurk in our religious texts and about how monsters and religion are deeply entwined. Horror and faith are inextricable. After all, as monsters are part of religious texts and traditions, so religion lurks in the modern horror genre from its birth in Dante's *Inferno* to the contemporary

spookiness of H P Lovecraft and the Hellraiser films Religion and Its Monsters is essential reading for students of religion and popular culture as well as any readers with an interest in horror

Pope-Pourri: What You Don't Remember From Catholic School John Dollison, 1994-10 How many Catholics know that a priest invented the fax machine or that monks were the first to make coffee champagne and pretzels How many know why St Elmo is portrayed in art with his intestines hanging out or why St Maximus is often shown commanding a bear to carry his luggage Probably none The Catholic Church is all too eager to tell us about the Ten Commandments the Resurrection and the glories of St Peter's Basilica but how often do you hear about items like Pope on a Rope soap or the Let Us Spray lawn sprinkler shaped like Pope John Paul II the sprinkler squirts water out of his outstretched arms as it spins It's all here in Pope Pourri an unprecedented collection of entertaining anecdotes trivia and intriguing information that the Catholic Church never told you about and in many cases doesn't want you to know about Such as the bizarre story of the Cadaver Synod when Pope Stephen VI dug up the rotting corpse of his predecessor Pope Formosus I dressed it in papal robes and put it on trial for aspiring to the papacy and other crimes Other unusual footnotes to Catholic history include the Cataphrygians an early separatist movement whose members prayed with their index and middle fingers inserted into their noses Pope Pourri celebrates the wealth of amusing trivia the Church has produced during its 2 000 year history from oddball saints to the Vatican's censorious movie reviews from strange Virgin Mary sightings to embarrassing secret scandals presented for the first time in one fascinating volume that practicing Catholics lapsed Catholics and the merely curious will all enjoy
