Voices From S 21 Terror And History In Pol Pots Secret Prison:

Voices from S-21 David Chandler, 2023-09-01 The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot's Khmer Rouge during the 1970s is one of the century's major human disasters. David Chandler, a world renowned historian of Cambodia, examines the Khmer Rouge phenomenon by focusing on one of its key institutions: the secret prison outside Phnom Penh known by the code name S 21. The facility was an interrogation center where more than 14,000 enemies were questioned, tortured, and made to confess to counterrevolutionary crimes. Fewer than a dozen prisoners left S 21 alive. During the Democratic Kampuchea (DK) era, the existence of S 21 was known only to those inside it and a few high-ranking Khmer Rouge officials. When invading Vietnamese troops discovered the prison in 1979, murdered bodies lay strewn about and instruments of torture were still in place. An extensive archive containing photographs of victims, cadre notebooks, and DK publications was also found. Chandler utilizes evidence from the S 21 archive as well as materials that have surfaced elsewhere in Phnom Penh. He also interviews survivors of S 21 and former workers from the prison. Documenting the violence and terror that took place within S 21 is only part of Chandler's story. Equally important is his attempt to understand what happened there in terms that might be useful to survivors, historians, and the rest of us. Chandler discusses the culture of obedience and its attendant dehumanization, citing parallels between the Khmer Rouge executions and the Moscow Show Trials of the 1930s, Nazi genocide, Indonesian massacres in 1965-66, the Argentine military's use of torture in the 1970s, and the recent mass killings in Bosnia and Rwanda. In each of these instances, Chandler shows how turning victims into others in a manner that was systematically devaluing and racist made it easier to mistreat and kill them. More than a chronicle of Khmer Rouge barbarism, *Voices from S 21* is also a judicious examination of the psychological dimensions of state-sponsored terrorism that conditions human beings to commit acts of unspeakable brutality. The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot's Khmer Rouge during the 1970s is one of the century's major human disasters. David Chandler, a world renowned historian of Cambodia, examines the Khmer Rouge phenomenon. *Purify and Destroy* Jacques Semelin, 2009-03-22 How can we comprehend the sociopolitical processes that give rise to extreme violence, ethnic cleansing, or genocide? A major breakthrough in comparative analysis, *Purify and Destroy* demonstrates that it is indeed possible to compare the Holocaust, the Rwandan genocide, and ethnic cleansing in Bosnia Herzegovina while respecting the specificities of each appalling phenomenon. Jacques Semelin achieves this in part by leading his readers through the three examples simultaneously, the unraveling of which sometimes converges but most often diverges. Semelin's method is multidisciplinary, relying not only on contemporary history but also on social psychology and political science. Based on the seminal distinction between massacre and genocide, *Purify and Destroy* identifies the main steps of a general process of destruction, both rational and irrational, born of what Semelin terms delusional rationality. He describes a dynamic structural model with at its core the matrix of a social imaginary that, responding to fears, resentments, and utopias, carves and recarves

the social body by eliminating the enemy Semelin identifies the main stages that can lead to a genocidal process and explains how ordinary people can become perpetrators He develops an intellectual framework to analyze the entire spectrum of mass violence including terrorism in the twentieth century and before Strongly critical of today's political instrumentalization of the genocide notion Semelin urges genocide research to stand back from legal and normative definitions and come of age as a discipline in its own right in the social sciences
