Manifesto, Volume I Joseph Alberts, Journals: Volume V Joseph M. Alberts, **Filterworld** Kyle Chayka, 2025-01-21 From New Yorker staff writer and author of *The Longing for Less* Kyle Chayka comes a timely history and investigation of a world ruled by algorithms which determine the shape of culture itself From trendy restaurants to city grids to TikTok and Netflix feeds the world round algorithmic recommendations dictate our experiences and choices The algorithm is present in the familiar neon signs and exposed brick of Internet cafes be it in Nairobi or Portland and the skeletal modern furniture of Airbnbs in cities big and small Over the last decade this network of mathematically determined decisions has taken over almost unnoticed informing the songs we listen to the friends with whom we stay in touch as we ve grown increasingly accustomed to our insipid new normal This ever tightening web woven by algorithms is called Filterworld Kyle Chayka shows us how online and offline spaces alike have been engineered for seamless consumption becoming a source of pervasive anxiety in the process Users of technology have been forced to contend with data driven equations that try to anticipate their desires and often get them wrong What results is a state of docility that allows tech companies to curtail human experiences human lives for profit But to have our tastes behaviors and emotions governed by computers while convenient does nothing short of call the very notion of free will into question In Filterworld Chayka traces this creeping machine guided curation as it infiltrates the furthest reaches of our digital physical and psychological spaces With algorithms increasingly influencing not just what culture we consume but what culture is produced urgent questions arise What happens when shareability supersedes messiness innovation and creativity the qualities that make us human What does it mean to make a choice when the options have been so carefully arranged for us Is personal freedom possible on the Internet To the last question Filterworld argues yes but to escape Filterworld and even transcend it we must first understand it Television, Japan, and Globalization Mitsuhiro Yoshimoto, Eva Tsai, JungBong Choi, 2016-02-02 Television Japan and Globalization makes a monumental contribution to the literature of television studies which has increasingly recognized its problematic focus on US and Western European media and a compelling intervention in discussions of globalization through its careful attention to contradictory and complex phenomena on Japanese TV Case studies include talent and stars romance anime telops game and talk shows and live action nostalgia shows The book also looks at Japanese television from a political and economic perspective with attention to Sky TV production trends and Fuji TV as an architectural presence in Tokyo The combination of textual analysis clear argument and historical and economic context makes this book ideal for media studies audiences Its

most important contribution may be moving the study of Japanese popular culture beyond the tired truisms about postmodernism and opening up new lines of thinking about television and popular culture within and between nations
