community and university archives establishing new sites of storytelling and political activism The Archival Turn in Feminism chronicles these important cultural artifacts and their collection cataloging preservation and distribution Cultural studies scholar Kate Eichhorn examines institutions such as the Sallie Bingham Center for Women's History and Culture at Duke University The Riot Grrrl Collection at New York University and the Barnard Zine Library She also profiles the archivists who have assembled these significant feminist collections Eichhorn shows why young feminist activists cultural producers and scholars embraced the archive and how they used it to stage political alliances across eras and generations A volume in the American Literatures Initiative

Fair Trade Organizations and Social Enterprise Benjamin Huybrechts, 2012 For several decades social enterprises have been pioneers in the conception and implementation of a pathbreaking social innovation Fair Trade FT Fair Trade Social Enterprises have created a movement which has challenged mainstream trading practices and offered development opportunities for disadvantaged producer groups in the South Starting from a niche market aimed at convinced customers FT has expanded and entered mainstream retailing outlets growing in visibility and market share while simultaneously experiencing diversification of its organization models While pioneer Fair Trade Social Enterprises in the early years were largely nonprofit organizations relying on voluntary work they have become increasingly diversified in terms of legal forms governance models and organizational practices These diversified models seem to reflect the hybrid nature of FT itself through different ways of combining a commercial activity trading of FT products a social mission support to producers and an explicit or implicit political message often expressed through education and advocacy Based on the study of Fair Trade Social Enterprises across Europe this book builds a typology of organization models for FT Author Benjamin Huybrechts further examines how the different organization models combine the economic social and political dimensions of FT and how they manage the possible tensions between these dimensions Fair Trade Organizations and Social Enterprise proposes a range of theoretical approaches to interpret the diversity of Fair Trade Social Enterprises and offers concrete avenues for managing social enterprises and hybrid organizations in general
