**The Unthinkable Revolution in Iran** Charles Kurzman, 2005-09-06 The shah of Iran Mohammad Reza Pahlavi would remain on the throne for the foreseeable future This was the firm conclusion of a top secret CIA analysis issued in October 1978 One hundred days later the shah despite his massive military fearsome security police and superpower support was overthrown by a popular and largely peaceful revolution But the CIA was not alone in its myopia as Charles Kurzman reveals in this penetrating work Iranians themselves except for a tiny minority considered a revolution inconceivable until it actually occurred Revisiting the circumstances surrounding the fall of the shah Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general As one Iranian recalls The future was up in the air Through interviews and eyewitness accounts declassified security documents and underground pamphlets Kurzman documents the overwhelming sense of confusion that gripped pre revolutionary Iran and that characterizes major protest movements His book provides a striking picture of the chaotic conditions under which Iranians acted participating in protest only when they expected others to do so too the process approaching critical mass in unforeseen and unforeseeable ways Only when large numbers of Iranians began to think the unthinkable in the words of the U S ambassador did revolutionary expectations become a self fulfilling prophecy A corrective to 20 20 hindsight this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect

The Unthinkable Revolution in Iran Charles Kurzman, 2004      **Unthinkable** Kenneth Pollack, 2014-09-30 Examines Iran's current nuclear potential while charting America's future course of action recounting the prolonged clash between both nations to outline options for American policymakers

**Contesting the Iranian Revolution** Pouya Alimagham, 2020-03-19 Examines the last forty years of Iranian and Middle Eastern history through the prism of the Green Uprisings of 2009

*The Persian Puzzle* Kenneth Pollack, 2005-08-09 In his highly influential book *The Threatening Storm* bestselling author Kenneth Pollack both informed and defined the national debate about Iraq Now in *The Persian Puzzle* published to coincide with the twenty fifth anniversary of the Iran hostage crisis he examines the behind the scenes story of the tumultuous relationship between Iran and the United States and weighs options for the future Here Pollack a former CIA analyst and National Security Council official brings his keen analysis and insider perspective to the long and ongoing clash between the United States and Iran beginning with the fall of the shah and the seizure of the American embassy in Tehran in 1979 Pollack examines all the major events in U S Iran relations including the hostage crisis the U S tilt toward Iraq during the Iran Iraq war the Iran Contra scandal American Iranian military tensions in 1987 and 1988 the covert Iranian war against U S interests in the Persian Gulf that culminated in the 1996 Khobar Towers terrorist attack in Saudi Arabia and recent U S Iran skirmishes over Afghanistan and Iraq He explains the strategies and motives from American and Iranian perspectives and tells how each crisis colored the thinking of both countries leadership as they shaped and reshaped their policies over

time Pollack also describes efforts by moderates of various stripes to try to find some way past animosities to create a new dynamic in Iranian American relations only to find that when one side was ready for such a step the other side fell short With balanced tone and insight Pollack explains how the United States and Iran reached this impasse why this relationship is critical to regional global and U S interests and what basic political choices are available as we deal with this important but deeply troubled country     The Shah, the Islamic Revolution and the United States Darioush Bayandor,2018-12-02 The Islamic Revolution in 1979 transformed Iranian society and reshaped the political landscape of the Middle East Four decades later Darioush Bayandor draws upon heretofore untapped archival evidence to reexamine the complex domestic and international dynamics that led to the Revolution Beginning with the socioeconomic transformation of the 1960s this book follows the Shah s rule through the 1970s tracing the emergence of opposition movements the Shah s blunders and miscalculations the influence of the post Vietnam zeitgeist and the role of the Carter administration The Shah the Islamic Revolution and the United States offers new revelations about how Iran was thrown into chaos and an ailing ruler lost control with consequences that still reverberate today     Iran Fred Halliday,2024-07-04 Originally completed mere months before the Iranian Revolution of 1979 Fred Halliday s study of twentieth century Iran was not only incredibly timely but a deeply researched thought provoking work It masterfully surveys the country s uneven capitalist development state building and class structure security and military apparatus dissent and opposition movements and foreign relations Even decades later it remains among the most sophisticated and compelling analyses of this period of Iranian history Halliday persuasively argues against crude interpretations of the Pahlavi regime as an enlightened and modernising monarchy or merely a dependent client state Instead he contends that to make sense of the Pahlavi regime and its vulnerabilities it is crucial to understand the dialectic of dictatorship development and the imperial geopolitics of the global Cold War This new edition also includes six of Halliday s essays on the Islamic Republic demonstrating how his thinking on Iran and the revolution evolved over time

Iran and the American Media Mehdi Semati,William P. Cassidy,Mehrnaz Khanjani,2021-09-29 This book investigates the American media coverage of the historic nuclear accord between the Islamic Republic of Iran and the world powers commonly known as the Iran Deal The analysis examines the sources of news and opinion expressed about the Iran Deal in The New York Times The Washington Post and the national newscast of broadcast networks The empirical component uses media sociology and indexing theory to determine the extent to which the media covered the topic within a framework of institutional debates among congressional leaders the executive branch and other governmental sources The coverage is placed within a larger historical and interpretative framework that examines the construction of Iran in both the pre revolution news narratives and in the post revolution American media and popular culture The book endeavors to reveal the place Iran occupies in the American political and cultural imagination     The Roots and Consequences of Civil Wars and Revolutions Spencer C. Tucker,2017-02-16 This book treats 30 important civil wars and revolutions across the world

including Africa Asia the Americas Europe and the Middle East covering a broad swath of recorded history from ancient times to the present Human history as a whole results from social changes technological advances and evolutions in thinking and religion all of which often lead to wars and conflicts Behind each major war are myriad interrelated causes This book examines 30 of the most significant civil wars and revolutions in recorded history from ancient times to the modern era identifying the origins consequences and subtle impacts of many of these conflicts that are still being felt today A comprehensive overview essay as well as explanations of the causes and consequences of each conflict give readers the context needed to understand the importance of these seminal events Additional learning tools include a detailed timeline that sets all of the key events in the conflict in the proper context maps of several of the key battles that help readers visualize the strategies of both sides and a lengthy bibliography that offers a wealth of options to students looking to investigate any of the conflicts further On the Arab Revolts and the Iranian Revolution Arshin

Adib-Moghaddam, 2013-10-10 On the Arab Revolts and the Iranian Revolution Power and Resistance Today is the first comparative analysis of two central political events that have altered our world forever the Arab uprisings which started in Tunisia and the Iranian revolution in 1979 Adib Moghaddam demonstrates how contemporary forms of protest are changing our understanding about the way power and resistance function In a theoretical tour de force which is substantiated with a range of primary material he argues that acts of protest in Tehran to Cairo can be entirely linked to the same act in New York London Madrid and Athens Breaking through the east west north south divide Adib Moghaddam shows how the Arab revolts promise to shift the discourse away from the idea that Arabs and Muslims are peculiar that Middle Eastern Studies cannot be linked to political theory that the dynamics of rebellion there are fundamentally different from the politics of revolt here Adib Moghaddam argues that the dialectics of power and resistance are truly universal and that they are unfolding within a globalised political context that is increasingly interconnected In order to illuminate this argument theoretically the study is organised around conceptual terms that feed into forms of power and resistance such as revolution radicalism dissent knowledge neighbour and reform These terms and concepts are discussed and deconstructed via an empirical discussion of pivotal events beyond the non western world demonstrating that for a long time and without realising it we have been living in the end times of unitary categories such as west and east
