Third Axis, Fourth Ally Mark Axworthy, Cornel I. Scafeș, Cristian Crăciunoiu, 1995 **Third Axis, Fourth Ally** Mark Axworthy, 1995 **Third Axis, Fourth Ally** Mark Axworthy, Cornel I. Scafeș, Cristian Crăciunoiu, 1995 Describes Romania's role in World War II first allied with the Nazis and then fighting on the side of the Allies from mid 1944 onwards Brief Romanian Military History Călin Hentea, 2007 One of the first historical mentions of an armed conflict in what is now Romania dates back to 335 B C when prior to launching his legendary Asian campaign Alexander the Great organized an expedition over the Western shore of the Danube to deter the Gaets and secure the frontier of the Macedonian Kingdom Since then the land located on the Black Sea and nestled amongst the Carpathian Mountains has seen more than its fair share of military struggles Whether referring to the country's fight for independence against the Ottoman Empire in the 14th Century or the December Revolution in the late 20th Century Romania's military history has been long and varied This book presents a chronological and detailed narrative of the significant events in the nation's military history covering everything from the campaign of the Persian king Darius I against the Scythians in 514 B C to Romania's admission into NATO in April of 2004 Beginning with a full chronology of the country's most important and decisive military events Brief Romanian Military History then presents a general overview of 2500 years of Romanian history Complete with biographies of significant military leaders and entries on important battles wars military organizations structures fortresses uniforms and weapons for each of the historical eras chronicled this book is an essential reference tool for scholars historians anthropologists journalists and all others interested in the history of Romania *The German-Soviet War* Jeff Rutherford, Robert von Maier, 2025-06-15 *The German Soviet War* revises the conflict's generally accepted understanding through case studies demonstrating the complexity of the war at the local level The contributors assembled by Jeff Rutherford and Robert von Maier examine the multiplicity of experiences of individuals caught in this savage war starting with the German war of annihilation launched against Soviet state and society in June 1941 This detailed collection shows that the particular nature of the war in the east resulted from an intertwining of military ideological and economic motives *The German Soviet War* puts Germany's murderous policies toward Soviet Jews and prisoners of war and the justification for these policies and actions within the ranks of the army into the larger context of battlefield events The neglected topic of the destructive German scorched earth retreats receives detailed analysis demonstrating the importance of ideology and economic thinking in the German army's war The difficulty in reconciling economic and ideological considerations also played a prominent role in Soviet attempts to rebuild after the war *The German Soviet War* not only brings attention to these devastating events but also revises the general narrative of the war By internationalizing the conflict through examinations into the various Axis and Allied nations and peoples who participated in the fighting this volume provides new ways of conceptualizing their motivations actions and importance in its eventual outcome Together the contributions to *The German Soviet War* provide

new ways of examining the defining conflict of the Second World War *Germany and the Axis Powers from Coalition to Collapse* R. L. DiNardo, 2005 It seemed that whenever Mussolini acted on his own it was bad news for Hitler Indeed the Fuhrer's relations with his Axis partners were fraught with an almost total lack of coordination Compared to the Allies the coalition was hardly an alliance at all Focusing on Germany's military relations with Italy Romania Hungary and Finland Richard DiNardo unearths a wealth of information that reveals how the Axis coalition largely undermined Hitler's objectives from the Eastern Front to the Balkans Mediterranean and North Africa DiNardo argues that the Axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation's fundamental mistrust of the others Germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because Hitler insisted on separate pacts with each nation Italy and Finland often found themselves conducting counterproductive parallel wars on their own DiNardo's detailed assessments of ground naval and air operations reveal precisely why the Axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example His analysis covers coalition warfare at every level demonstrating that some military services were better at working with their allies than others while also pointing to rare successes such as Rommel's effective coordination with Italian forces in North Africa In the end while some individual Axis units fought with distinction if not on a par with the vaunted Wehrmacht and helped Germany achieve some of its military aims the coalition's overall military performance was riddled with disappointments Breaking new ground DiNardo's work enlarges our understanding of Germany's defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare
