Elizabeth Allen, Sophie Triantaphyllidou, 2012-11-12 The tenth edition of The Manual of Photography is an indispensable textbook for anyone who is serious about photography. It is ideal if you want to gain insight into the underlying scientific principles of photography and digital imaging whether you are a professional photographer, lab technician, researcher or student in the field or simply an enthusiastic amateur. This comprehensive guide takes you from capture to output in both digital and film media with sections on lens use, darkroom techniques, digital cameras and scanners, image editing techniques and processes, workflow, digital file formats and image archiving. This iconic text was first published in 1890 and has aided many thousands of photographers in developing their own techniques and understanding of the medium. Now in full colour, The Manual of Photography still retains its clear, reader-friendly style and is filled with images and illustrations demonstrating the key principles. Not only giving you the skills and know-how to take stunning photographs but will also allow you to fully understand the science behind the creation of great images. The Passivhaus Designer's Manual Christina Hopfe, Robert McLeod, 2015-10-05 Passivhaus is the fastest growing energy performance standard in the world with almost 50 000 buildings realised to date. Applicable to both domestic and non-domestic building types, the strength of Passivhaus lies in the simplicity of the concept. As European and global energy directives move ever closer towards Zero fossil Energy standards, Passivhaus provides a robust fabric-first approach from which to make the next step. The Passivhaus Designers Manual is the most comprehensive technical guide available to those wishing to design and build Passivhaus and Zero Energy Buildings. As a technical reference for architects, engineers and construction professionals, The Passivhaus Designers Manual provides state-of-the-art guidance for anyone designing or working on a Passivhaus project. In-depth information on building services including high performance ventilation systems and ultra-low energy heating and cooling systems. Holistic design guidance encompassing daylight design, ecological materials, thermal comfort, indoor air quality and economics. Practical advice on procurement methods, project management and quality assurance. Renewable energy systems suitable for Passivhaus and Zero Energy Buildings. Practical case studies from the UK, USA and Germany amongst others. Detailed worked examples to show you how it's done and what to look out for. Expert advice from 20 world-renowned Passivhaus designers, architects, building physicists and engineers. Lavishly illustrated with nearly 200 full-colour illustrations and presented by two highly experienced specialists, this is your one-stop shop for comprehensive practical information on Passivhaus and Zero Energy buildings. **Philip's**

Astrophotography With Mark Thompson Mark Thompson, 2015-01-30 Philip's Astrophotography With Mark Thompson is an essential guide for anyone wishing to photograph or image the stars and planets, written by TV's favourite astronomer. For many people, looking at the sky is not enough and they would love to try and capture what they can see. Until a few years ago, capturing astronomical images was fraught with many challenges, but with the development of digital cameras replacing film, things have become much easier and great astronomical images are now within the reach of even the most novice stargazer.

Mark Thompson has spent many years capturing the beauty of the night sky first with film and now with the digital camera and has discovered and overcome many of the pitfalls This book takes the reader on a journey through the world of capturing astronomical images from using the humble mobile phone to specialist cameras brought to life with Mark s personal experiences and many of his own astronomical images Repairing and Upgrading Your PC Robert Bruce
