late In response to an encounter with that man whose face he saw at the window Dr James Judge made a vow early in his career to be a different kind of doctor than his medical training had taught him to be He vowed not to deny his own humanity He vowed not to shrink from his patients unseen suffering He vowed he would ask the probing and important questions the ones that had nothing to do with an illness and everything to do with it at the same time And he vowed he would listen In the years that followed Dr Judge kept a journal In *The Closest of Strangers* Dr Judge shares stories from that journal stories that demonstrate the paradox of the patient doctor relationship that two people essentially strangers can somehow walk through life s most intimate moments together and how on that walk they can both move toward healing The stories in *The Closest of Strangers* demonstrate the love faith courage and remarkable boundless resilience of the human spirit Through these stories you will be witness as was Dr Judge to the powerful current of grace running through their lives and his own These are the stories of my intimate strangers Dr Judge says of the narratives recorded in this powerful volume Faces that have haunted me and I suppose haunt me still People I barely knew but in some ways came to know more deeply maybe than I knew myself The stories Dr Judge shares of his intimate strangers are all stories of courage and faith in the face of fear hopelessness and devastating loss In the course of a young boy s illness a mother grows strong a family grows close and a community grows tender A woman unable to keep up the lacquered layers of expectations in her perfect world courageously faces her emptiness and learns to experience the real substance of life To bring her baby safely to term an unmarried teenager fights a malignant tumor and a doctor s stern advice that she abort her pregnancy A deeply troubled man entangled in addiction finds the courage to speak honestly about himself and to call on God to help him face and overcome his demons A mother of a profoundly disabled child remains convinced that her little girl s life holds purpose and so miraculously it does Suffering sometimes brings with it certain gifts Dr Judge writes Qualities and strengths beyond value or measure *The Closest of Strangers* testifies to those qualities and strengths and to the lessons learned by a doctor who listened to his best teachers who sometimes became his healers as well

Mothers, Midwives and Reimagining Birthing in the South Bronx Jennifer Dohrn, 2023-11-08 Women came through the doors at a community based birthing center in the South Bronx seeking prenatal care They had heard about the center from a neighbor a parents group at their children s school or the local mosque or church What they found when they arrived was a brightly colored waiting area that resembled a living room children immersed in games in a corner and staff that reflected the mosaic of cultures living in the surrounding apartments They also met midwives who asked about their lives their children their families and traditions If pregnancies developed complications back up obstetricians were there to give higher levels of care with the women returning to the midwifery center afterwards The results were healthy mothers and healthy babies For over twenty years the center became a haven for women s health care and a national exemplar It is a tragic and unjust paradox that the United States the highest income country in the world and the country with the largest budget for perinatal care has rising rates of maternal mortality that disproportionately affect

women of color Yet an inner city maternity center with midwifery care found solutions to the challenge of making birth safe for low income populations especially women of color This oral history presents the stories of twelve women who participated in this care As they tell it the experience changed their lives and their understanding of what safe quality maternal care can achieve Jennifer Dohrn examines the systems that perpetuate disparities in care from global to local and describes essential components needed for change using oral histories as evidence for the way forward towards maternal health as a human right
