Vitkus, 2016-04-30 Turning Turk looks at contact between the English and other cultures in the early modern Mediterranean and analyzes the representation of that experience on the London stage Vitkus's book demonstrates that the English encounter with exotic alterity and the theatrical representations inspired by that encounter helped to form the emergent identity of an English nation that was eagerly fantasizing about having an empire but was still in the preliminary phase of its colonizing drive Vitkus research shows how plays about the multi cultural Mediterranean participated in this process of identity formation and how anxieties about religious conversion foreign trade and miscegenation were crucial factors in the formation of that identity **England's**

Asian Renaissance Su Fang Ng, Carmen Nocentelli, 2021-12-17 England's Asian Renaissance explores how Asian knowledges narratives and customs inflected early modern English literature Just as Asian imports changed England's tastes and enriched the English language Eastern themes characters and motifs helped shape the country's culture and contributed to its national identity Questioning long standing dichotomies between East and West and embracing a capacious understanding of translatio as geographic movement linguistic transformation and cultural grafting the collection gives pride of place to convergence approximation and hybridity thus underscoring the radical mobility of early modern culture In so doing England's Asian Renaissance also moves away from entrenched narratives of Western cultural sovereignty to think anew England's debts to Asia Published by the University of Delaware Press Distributed worldwide by Rutgers University Press The Encyclopedia of English Renaissance Literature, 3 Volume Set Garrett A.
