Three Challenges To Ethics Environmentalism Feminism And Multiculturalism:

Three Challenges to Ethics James P. Sterba, 2001 This book's author argues that traditional ethics has yet to face up to three important challenges that come from environmentalism feminism and multiculturalism This failure to face up to these challenges has meant that no matter how successful traditional ethics has been at dealing with the problems it recognizes it has failed to deal with the possibility that its solutions to these problems are biased in favour of humans biased in favour of men and biased in favour of Western culture Failure to deal with these challenges has clearly put the justification of traditional ethics into question Thus those concerned with the justification of traditional ethics have no alternative but to try to determine how these challenges can be met To meet the challenges Sterba argues that traditional ethics must incorporate conflict resolution principles that favour nonhumans over humans in a significant range of cases must rule out gendered family structures and implement an ideal of androgyny and must endorse an ethics that is secular in character and one that can survive a wide ranging comparative evaluation of both Western and non Western moral ideals and cultures

Alex, 2007 Contributed papers presented at two ecocriticism conferences organized by Indian Association for Studies in Contemporary Literature in English et al **Natural Ethical Facts** William D. Casebeer, 2001 Naturalizing ethics has been a problematic philosophic enterprise The author attempts a synoptic reconciliation of the sciences with a naturalized conception of morality beginning with a Quinean refutation of the naturalistic fallacy and the open question argument We can improve our understanding of the nature of moral theory and its place in moral judgment by treating morality as a natural phenomenon subject to constraints from and ultimately reduced to the cognitive and biological sciences Treating morality as a matter of proper biological function partially fixed by our evolutionary history and with an emphasis on skillful action in the world know how sheds light on the underlying native connectionist architecture of moral cognition The author discusses practical implications regarding the nature and form of our collective character development institutions and our methods for moral reasoning that arise from this approach reaffirming Deweyian and Aristotelian points about the importance of sociability friendship and liberal democratic forms of social organization for human flourishing Complementarity Beyond Physics Arun Bala, 2016-12-01 In this study Arun Bala examines the implications that Niels Bohr's principle of complementarity holds for fields beyond physics Bohr one of the founding figures of modern quantum physics argued that the principle of complementarity he proposed for understanding atomic processes has parallels in psychology biology and social science as well as in Buddhist and Taoist thought But Bohr failed to offer any explanation for why complementarity might extend beyond physics and his claims have been widely rejected by scientists as empty speculation Scientific scepticism has only been reinforced by the naive enthusiasm of postmodern relativists and New Age intuitionists who seize upon Bohr's ideas to justify anti realist and mystical positions Arun Bala offers a detailed defence of Bohr's claim that complementarity has far reaching implications for the biological and social sciences as well as for comparative philosophies of science by explaining Bohr's parallels as responses to the omnipresence of grown properties in nature **Subaltern Morality: a Postmodern Vision** Ramesh Chandra Sinha, 2017-03-21 The expression Subaltern had been used by Italian Marxist Antonio Gramsci in his celebrated notes on PRISON DIARY but it is interpreted in a different way in this book The concept includes caste color gender and class It is not economic category but a cultural one It is different from Marxist interpretation of the term Proletariat Marxist Morality is
