Latino Students Robert E. Slavin, Margarita Calderón, Margarita Calderon, 2012-11-12 Latino or Hispanic children are one of the fastest growing groups in U S schools today On average these students perform worse than Anglo students on measures of academic achievement and other measures of academic success and their drop out rate is high There are schools of excellence among those serving Latino children but the majority of these children are placed at risk by schools and community institutions unable to build on the cultural personal and linguistic strengths these children are likely to bring with them to school Schools serving Latino students need programs based on high quality research capable of being replicated and adapted to local circumstances and needs The purpose of this book is to present the current state of the art with respect to research on effective instructional programs for Latino students in elementary and secondary grades Surprisingly this has not been done before there are many books on the situation of Latino students in U S schools but none so far have reviewed research on the outcomes of programs designed to enhance the academic achievement of these students The chapters

represent a broad range of methodologies from experimental to correlational to descriptive and the solutions they propose are extremely diverse Each examines in its own way programs and practices that are showing success Together they present a rich array of research based effective programs that are practical widely available and likely to make a profound difference What binds the chapters together is a shared belief that Latino students can succeed at the highest levels if they receive the quality of instruction they deserve and a shared belief that reform of schools serving many Latino students is both possible and essential This is a book filled with statistics description and reviews of research but even more it is filled with optimism about what schools for Latino students can be and what these students will achieve It is a highly relevant and useful resource for educators policymakers and researchers who want to use research to inform the decisions they make about how to help Latino students succeed in elementary and secondary schools and beyond **Inspired English** Lorraine LaCroix,2005

Lorraine LaCroix presents a teacher s guide to teaching middle school and high school English and building literacy skills in even the most reluctant readers **Literacy Assessment and Intervention for Classroom Teachers** Beverly DeVries,2017-07-05 The fourth edition of this comprehensive resource helps future and practicing teachers recognize and assess literacy problems while providing practical effective intervention strategies to help every student succeed The author thoroughly explores the major components of literacy providing an overview of pertinent research suggested methods and tools for diagnosis and assessment intervention strategies and activities and technology applications to increase students skills Discussions throughout focus on the needs of English learners offering appropriate instructional strategies and tailored teaching ideas to help both teachers and their students Several valuable appendices include assessment tools instructions and visuals for creating and implementing the book s more than 150 instructional strategies and activities and other resources **The Kids are Smart Enough, So What's the Problem?** Richard W. Garrett,2017-12-06 There is a national crisis in education and it s not the highly debated philosophical discussions or heated political arguments we are used to hearing Survey data establishes the fact that classrooms throughout the nation suffer from the presence of a small percentage of misbehaving students Teachers are ill equipped to deal with these disruptive students resulting in lost classroom time and demoralized educators who are perpetually blamed for the student s bad performance The root cause of these misbehaving children is not a lack of intellectual ability but a lack of character and grit the important noncognitive skills required for success in life The Kids are Smart Enough is a book of hope with surprisingly practical solutions revealed by listening to teachers learning from data and looking for the root cause This book will help you to discover how struggling students can be reached and teachers encouraged
