Rich, Harold Takooshian, 2017-08-01 How can psychology professors in the USA and other nations make their courses more international This question is addressed in this indispensable new sourcebook co authored by 73 contributors and editors from 21 countries In recent decades psychology has evolved from an American dominated discipline to a much more global discipline Preliminary estimates by Zoma and Gielen 2015 suggest that approximately 76% 78% of the world s one million or so psychologists reside outside the U S However most textbooks in the field continue to rely predominantly on research conducted in North America and Europe Our book is intended to introduce psychology instructors to a variety of broad perspectives as well as specific suggestions that can support their efforts to internationalize their course offerings at both the undergraduate and graduate levels In this way they can prepare their students to become more culturally sensitive and function more effectively as citizens and psychologists in the evolving globalized world To achieve these ambitious goals the editors have assembled an international group of 73 distinguished contributors who taken together have taught and conducted research in all regions of the world The chapters in the book include both core areas of

psychology and subdisciplines that represent rapidly expanding and internationally important areas such as cross cultural psychology and the psychology of gender The chapters cover key topics and areas included in the course offerings of psychology departments both in the United States and in other countries In addition to a discussion of international perspectives relevant to a given area all chapters include an annotated bibliography of pertinent books articles web related materials films videos and so on Based on this information both highly experienced and less experienced psychology instructors can add globally and culturally oriented dimensions to their respective courses This is important because universities departments and accrediting agencies increasingly put pressure on instructors to broaden and internationalize their courses As a long time international psychologist myself I see this bold new volume as a great leap forward for international psychology The 73 distinguished contributors and editors from 21 countries have carefully crafted a handbook that will be the go to resource on the topic for years to come For psychology to continue to be relevant in the 21st century it must become more international I am grateful this book will help us accomplish this challenging but rewarding goal Philip G Zimbardo Ph D Past President American Psychological Association What could be more important than understanding human behavior and the thoughts and emotions that underlie it By teaching psychology to the world we offer the possibility of using our discipline to create a better future for all of us The chapters in this excellent book help teachers of psychology move from an ethnocentric perspective to a global way of thinking about and telling about a truly international psychology Diane F Halpern Ph D Past President of the American Psychological Association and Professor of Psychology This is a brilliant unprecedented collection of international scholarship that every psychology professor and student should read The 21st century in the teaching of psychology has truly arrived with this book creating a thoroughly needed international focus for our pedagogy Frank Farley Ph D L H Carnell Professor Temple University Former President American Psychological Association APA International Council of Psychologists American Educational Research Association AERA and the Society for International Psychology Division 52 of APA Internationalizing Teaching of Psychology contains chapters authored by eminent psychologists of diverse cultural background inclusive of different cultural perspectives on range of topics of contemporary importance Thus the volume integrates research emanating from varied cultural contexts facilitating development of a truly universal psychological science The volume is a major resource for teaching courses on Cultural Cross cultural Global psychology and in enhancing internationalization of psychology Prof Janak Pandey University of Allahabad India Editor Psychology in India The State of the Art All involved in the training of psychologists will want to recommend this book which thoroughly presents an international perspective on the teaching of psychology Rich Gielen and Takooshian consider the basic nature of psychology at the same time emphasizing cultural differences and relating it all to real life As expert cross cultural researchers the contributors provide a much needed resource and up to date reference for psychologists and students as well as for any scholar interested in our discipline around the globe Laura Hernandez Guzman

Ph D Professor of Psychology Universidad Nacional Autónoma de México Past President of the Mexican Psychological Society Since the mid twentieth century the world has become an increasingly smaller place at least in the figurative sense And yet Western psychology has been slow to grasp the culturally limited scope of much of our science Although the movement toward a more culturally inclusive psychology had its roots at least as early as the 1960s more recent meta analyses have shown that a large percentage of the psychological literature has represented a small percentage of the world's population In Internationalizing the Teaching of Psychology Grant Rich Uwe Gielen and Harold Takooshian are making a noteworthy effort to inform and support teachers who would move the field toward a psychology of all people From advice about getting involved in international psychology to stand alone international psychology courses to the problems of culture bound specialized courses these well traveled and experienced editors have assembled a resource that psychology teachers will find both interesting and valuable Kenneth D Keith President Society for the Teaching of Psychology University of San Diego This volume is a positive contribution to the internationalization of the psychology curriculum Given the very large numbers of psychology undergraduate and graduate students across the world such internationalization has significant potential to provide learners with opportunities to better understand the similarities and differences in the behavior of humans in different local national and international contexts Such understanding can lead to a greater appreciation of and perhaps respect for and celebration of these similarities and differences thus potentially leading to actions that reduce global human suffering This volume should become an indispensable tool for psychology educators interested in such outcomes Jacquelyn Cranney Psychology UNSW Sydney Australia This book is a necessity given the increasing mobility of psychologists use of technology in psychology practice and need to regulate the psychology profession globally The content in this book will go a long way to improve psychological literacy in our East and Central Africa region I chaired the first ever East and Central African Regional Psychology Conference in Uganda in 2013 and am on the Board of Directors of the International Association of Applied Psychologists IAAP so am keenly aware that the internationalization of scientific psychology knowledge and skills is an imperative James Kagaari Ph D President Uganda Council of Psychologists Teaching psychology in your own country especially when it is a country as vast and diverse as the United States where fewer than half its citizens hold a passport makes it all too easy to give courses in which students come away with the impression that what psychological scientists have learned about behavior and mental processes at home applies equally in the rest of the world That is not always the case of course and the chapters in this valuable volume serve not only to remind us of that fact but to stimulate us to consider adjusting the content of our courses to make them as they should be more international in scope Douglas Bernstein Courtesy Professor of Psychology University of South Florida USA Bravo to this all star cast of international contributors for showing us how to help students appreciate both our cultural diversity and our human kinship and for providing us with accessible articles books media and online materials for teaching every area of psychology from a more international perspective David

Global Perspectives on Victimization Analysis and Prevention Ayodele, Johnson Oluwole, 2019-11-29 Over the past two decades both developed and developing countries have experienced major individual and collective tragic victimizations leading to major structural and systemic transformations as a consequence of the influence of organized crime and international terrorism These trends many of which as noted earlier are global in spread and have catastrophic outcomes revolve around some categories of political diplomacy and unsatisfactory reform responses to spiraling discontent among motivated youths Global Perspectives on Victimization Analysis and Prevention is an essential research book that provides comprehensive research on postmodern crime prevention and control strategies as well as potential transformations that could be seen in victimology It offers resources to understand and analyze the main issues relevant framework and contextual intricacies within which public safety agendas are articulated and implemented across the globe Highlighting a wide range of topics such as public safety crime prevention and terrorism this book is essential for criminologists law enforcement victim advocates criminal profilers crime analysts academicians policymakers researchers security planners NGOs government officials and students

Harmful Practices and Human Rights: An International Perspective Ebenezer Durojaye, Satang Nabaneh, Johanna Bond, 2025-07-02 Harmful Practices and Human Rights examines different forms of harmful practices globally which constitute human rights violations as guaranteed in international and regional human rights instruments Drawing examples from Africa Asia North America Europe and Australasia it demonstrates how these practices undermine the right to health including sexual and reproductive health and also impugn the dignity and autonomy of women and girls Using diverse harmful practices as case studies the book critically examines the factors that drive harmful practices in developing and developed countries Specifically this book focuses on a selection of harmful practices including dowry payments ukuthwala intimate partner violence harmful tobacco use and its gendered implications trafficking in persons

widowhood practices the chinamwari khomba practice and child marriage from both the Global South and North Its intent is to demonstrate the prevalence of these abuses and underscore the urgent need for states to take decisive steps toward eradication International Perspectives on Gender-Based Violence Madhumita Pandey,2023-11-24 This book examines the multifaceted nature of gender based violence GBV and the many forms it can take It explores the area of GBV and its implications on human rights law and policy The book highlights the significance of current international debates around preventing GBV and provides context for understanding GBV as a complex structural phenomenon deeply rooted in gender inequality It addresses GBV as one of the most notable human rights violations within all societies and provides multiple global perspectives on GBV to address the common challenges and barriers to combating this issue Key areas of coverage include Sexual violence Domestic violence Intimate partner violence Media Misogyny Online trolling Discrimination Sex trafficking and modern slavery Preventative Measures and role of men International Perspectives on Gender Based Violence is an essential resource for researchers clinicians therapists and upper level undergraduate and graduate students in developmental psychology family policy forensic psychology human rights public health criminology criminal justice and clinical social work as well as all interrelated disciplines *Rape* Miranda A. H. Horvath,Jennifer M. Brown,2022-08-09 *Rape Challenging Contemporary Thinking 10 Years On* takes stock of current thinking and research about rape and the way it is handled in practice within the criminal justice system as well as challenging some of the widely held but inaccurate beliefs about rape The second edition of *Rape Challenging Contemporary Thinking 10 Years On* is not a traditional new edition although it does provide updated versions of substantive issues covered in the first edition Bringing the book to the cutting edge it incorporates both old and new contexts where sexual exploitation takes place identifying some knowledge gaps especially when considering the voices of complainants victims survivors who are invisible or muted numerous new areas of research including the implications arising from MeToo and Black Lives Matter movements the limitations of our present criminal justice systems and radical alternatives to closing the justice gap The new book reflects the global reach of research and thinking about rape including more international coverage with material from India the US Canada Australia and New Zealand as well as the UK In order to learn from our shared history in this field two authors reflect on their careers and other authors were encouraged to move away from conventional academic formats to convey their stories Bringing together leading researchers in the field of psychology sociology and law considering new research and presenting new data from a strong theoretical and contextual base the chapters are provocative and engage in innovative thinking whilst remaining grounded in the available evidence This book is essential reading for students of criminology forensic psychology sociology criminal justice law media studies and women s gender studies It also aims to inform professionals engaged in the investigation prosecution of rape support and preventative services *African Womanhood and Incontinent Bodies* Kathomi Gatwiri,2018-06-13 This book reveals the structures of poverty power patriarchy and imperialistic health policies that

underpin what the World Health Organization calls the hidden disease of vaginal fistulas in Africa. By employing critical feminist and post colonial perspectives it shows how leaking black female bodies are constructed, ranked, stratified and marginalised in global maternal health care and explains why women in Africa are at risk of developing vaginal fistulas and then having adequate treatment delayed or denied. Drawing on face to face in depth interviews with 30 Kenyan women it paints a rare social portrait of the heartbreaking challenges for Kenyan women living with this most profound gender related health issue: an experience of shame, taboo and abjection with severe implications for women's wellbeing, health and sexuality. In absolutely groundbreaking depth this book shows why research on vaginal fistulas must incorporate feminist understandings of bodily experience to inform future practices and knowledge.

Critical Issues on Violence Against Women
Holly Johnson, Bonnie Fisher, Veronique Jaquier, 2014-12-05

Violence against women is a global problem and despite a wealth of knowledge and inspiring action around the globe it continues unabated. Bringing together the very best in international scholarship with a rich variety of pedagogical features, this innovative new textbook on violence against women is specifically designed to provoke debate, interrogate assumptions and encourage critical thinking about this global issue. This book presents a range of critical reflections on the strengths and limitations of responses to violent crimes against women and how they have evolved to date. Each section is introduced with an overview of a particular topic by an expert in the field, followed by thoughtful reflections by researchers, practitioners or advocates that incorporate new research findings, a new initiative or innovative ideas for reform. Themes covered include advances in measurement of violence against women, justice system responses to intimate partner violence and sexual assault, victim crisis and advocacy, behaviour change programs for abusers and prevention of violence against women. Each section is supplemented with learning objectives, critical thinking questions and lists of further reading and resources to encourage discussion and to help students to appreciate the contested nature of policy. The innovative structure will bring debate alive in the classroom or seminar and makes the book perfect reading for courses on violence against women, gender and crime, victimology and crime prevention.

Violence Against Women
Jacqui True, 2021

Violence against women and girls (VAWG) is a longstanding problem that has increasingly come to the forefront of international and national policy debates and news from the US reauthorization of the Violence against Women Act and a United Nations declaration to end sexual violence in war to coverage of gang rapes in India, cyberstalking and revenge porn, honor killings, female genital mutilation and international trafficking. Yet while we frequently read or learn about particular experiences or incidents of VAWG, we are often unaware of the full picture. Jacqui True, an internationally renowned scholar of globalization and gender, provides an expansive frame for understanding VAWG in this book. Among the questions she addresses include: What are we talking about when we discuss VAWG? What kinds of violence does it encompass? Who does it affect most and why? What are the risk factors for victims and perpetrators? Does VAWG occur at the same level in

all societies Are there cultural explanations for it What types of legal redress do victims have How reliable are the statistics that we have Are men and boys victims of gender based violence What is the role of the media in exacerbating VAWG And what sorts of policy and advocacy routes exist to end VAWG This volume addresses the current state of knowledge and research on these questions True surveys our best understanding of the causes and consequences of violence against women in the home local community workplace public and transnationally In so doing she brings together multidisciplinary perspectives on the problem of violence against women and girls and sets out the most promising policy and advocacy frameworks to end this violence *Michigan Journal of International Law* ,2005 Encyclopedia of Law & Society: F-O David Scott Clark,2007 Provides more than seven hundred alphabetical entries covering the interaction of law and society around the globe including the sociology of law law and economics law and political science psychology and law and criminology **Violence against Women of African Descent** Anita Kalunta-Crumpton,2019-10-11 Africa as a continent which holds strong to its patriarchal cultural principles and practices is known for its blatant display of violent abuse of women including state sanctioned violence and its lax approach to national legislative policies and international treaties against violence against women Using data from Africa the Americas Australia and Europe this edited collection showcases a variety of experiences and perspectives in the international comparative study of violence against women of African ancestry This approach provides the context for examining the problem of violence against women including its policy and practice responses if any as it impacts women of African origin in different parts of the world This book is of value to those interested in African studies criminology gender studies sociology and many more *Feminist Advocacy, Family Law and Violence against Women* Mahnaz Akhemi,Yakin Ertürk,Ann Elizabeth Mayer,2018-10-03 Around the world discriminatory legislation prevents women from accessing their human rights It can affect almost every aspect of a woman s life including the right to choose a partner inherit property hold a job and obtain child custody Often referred to as family law these laws have contributed to discrimination and to the justification of gender based violence globally This book demonstrates how women across the world are contributing to legal reform helping to shape non discriminatory policies and to counter current legal and social justifications for gender based violence The book takes case studies from Brazil India Iran Lebanon Nigeria Palestine Senegal and Turkey using them to demonstrate in each case the varied history of family law and the wide variety of issues impacting women s equality in legislation Interviews with prominent women s rights activists in three additional countries are also included giving personal accounts of the successes and failures of past reform efforts Overall the book provides a complex global picture of current trends and strategies in the fight for a more egalitarian society These findings come at a critical moment for change Across the globe family law issues are contentious We are simultaneously witnessing an increased demand for women s equality and the resurgence of fundamentalist forces that impede reform invoking rules rooted in tradition culture and interpretations of religious texts The outcome of these disputes has enormous ramifications

for women's roles in the family and society. This book tackles these complexities head on and will interest activists, practitioners, students and scholars working on women's rights and gender based violence. *International Legal Perspectives*, 2002 Feminist Periodicals, 1998
